GOVT. RECOGNIZED
3 STAR EXPORT HOUSE

Mr. Ritum Jain
Director

Established in 2013 under the leadership of Mr Ritum Jain, Safe Agritrade is an international business house processing, repacking and exporting various agricultural commodities based in Kolkata, India.

Our core strength is the expertise in rice - be it basmati, non-basmati or Jasmine or any variety of rice in the world. Just tell us your favourite rice and packaging, and you'll have it. We also export the best quality tamarind and its by-products, with Ship Brand as its registered trademark in India.

A separate team each is dedicated to exports of other categories of products - spices, pulses and other grains.

Not just quality products, but we also take utmost care of operations. Our objective in international trade has always been to deliver the goods at the right time. Situated just 50kms away from Kolkata port, our location and shipping time has been an added bonus for our clients. They benefit immensely from the short transit time and the best ocean freight.
