*Empowering Local Potential,
Reaching Global Markets*

Since
2025

Introduction

Indonesia, the world's largest archipelagic country, is richly endowed with natural resources and vast human potential. Arising from this foundation, PT Tridaya Global Ekspor was established as a contribution from Indonesia's young generation to optimize local potential through an integrated and diverse business approach. Driven by a commitment to sustainable economic development, the company operates through three main business units: Tridaya Agro Export, focusing on the export of Indonesia's finest agricultural products; Railwash Laundry, a professional laundry service that emphasizes cleanliness and purity; and Rahmat Sound System, which provides sound equipment rentals to support community and entertainment events. Through the synergy of these business units, PT Tridaya Global Ekspor bridges local values with global market needs, offering innovative and sustainable solutions that benefit society, partners, and the environment.

Company Background

Vision

To become Indonesia's leading multi-business company with global competitiveness, driving local potential through sustainable, high-quality, and socially impactful products and services for both communities and the environment.

**Tridaya
Group**

PT Tridaya Global Ekspor is a privately-owned limited liability company established with a bold vision to develop various strategic sectors on both local and international scales. Headquartered in South Sumatra, Indonesia, the company is structured as a holding entity that oversees and manages multiple business units, each guided by a unified and synergistic direction for growth and development.

Mission

We strive to deliver trusted laundry services, lead in exporting Indonesia's agricultural products, provide professional audio solutions, build long-term partnerships based on integrity, drive innovation across all business lines, and contribute to economic growth through local empowerment.

Our Product

Tridaya Agro Export

We offer a selection of premium agricultural export products from Indonesia, including Robusta green coffee beans from the highlands of Sumatra known for their bold aroma and smooth flavor; cocopeat, a sustainable and eco-friendly growing medium ideal for organic and hydroponic farming; and cocofiber, durable coconut fibers widely used in furniture, automotive, and agricultural industries. Each product is carefully processed to meet international quality standards and market demands.
