# WHEAT BRAN FOR ANIMAL FEED

## COW HEAD BRAND

### Wheat Bran for Beef and Dairy Cattle Feed

Cow's Head wheat pollard is made from the whole wheat husk, both the outer and inner husks of the wheat kernel.

The fiber, protein and starch content in it makes it very suitable for fattening beef cattle and to increase the productivity of dairy cattle.

## HORSE HEAD BRAND

### Wheat Bran for Horse and Buffalo Feed

This product is the outer part of wheat bran which contains high fiber, starch and protein so it is good for feed for large livestock such as horses and buffalo.

## GOOSE BRAND

### Wheat Bran for Beef Cattle, Dairy Cattle, Poultry and Pigs.

The inside of the wheat bran contains high starch and protein, making it ideal for use as feed for beef cattle, dairy cattle, poultry and pigs.

Its protein content is good for the development of pork and beef, as well as for increasing the total density levels in milk.

## AROWANA BRAND

### Wheat Bran for Fish and Shrimp Feed

Has high protein and starch content.

The gluten in it acts as a binder so that when the feed can maintain its shape in the air and float for a while before dissolving.

## WHEAT BRAN PELLET

### Animal Feed Raw Materials

It is a mixture of wheat bran and pollard molded into a cylindrical shape.

Widely used by the animal feed industry (feedmill) as the main raw material for making animal feed.

## PACKAGING

Using 50 kg packaging cloth sacks for each product. Shipping can be done by loading into a 40 ft container of 500 sacks so that the total load becomes 25.000 Kg / 25 MT

## TERM OF CONDITION
