PP WOVEN FABRICS

PP WOVEN LAMINATED FABRIC

PP (Polypropylene) Woven

Fabrics are versatile materials that offer exceptional strength, durability, and functionality. These fabrics are constructed using polypropylene, a thermoplastic polymer known for its high tensile strength, resistance to tearing, and excellent dimensional stability

Strength
As Per Customer Requirement

Fabric Colour
Any Color & Checks Design

PP woven fabrics are manufactured by interlacing polypropylene strips in a crisscross pattern, forming a durable and tightly bound textile. These fabrics are widely used across many sectors due to their outstanding strength and resistance to wear and tear. In the construction industry, they serve a variety of purposes such as protective membranes, temporary covers, geotextile layers, and erosion control barriers. Their ability to endure heavy loads, extreme weather, and prolonged UV exposure makes them highly reliable for outdoor and industrial applications.

Applications of PP Woven Fabric

PP BAGS

Wrapping

FIBC BAGS

PP WOVEN BAGS

PP WOVEN LAMINATED BAG

PP (Polypropylene) Woven bags are highly durable and versatile packaging solutions that have gained immense popularity across various industries. These bags are crafted using woven polypropylene fabric, renowned for its exceptional tear resistance, high tensile strength, and superior barrier properties.

Applications of PP Woven Bags

Grain & Pulses Bags

Fertilizer & Chemical Bags

Seed Bags

Animal Feed Bags

Foods & Spices Bags

Sugar Bags

BOPP BAGS

BOPP (Biaxially Oriented Polypropylene) bags are a versatile and popular packaging solution that combines the strength and reliability of PP woven fabrics with the transparency and printability of BOPP film. These bags are designed to meet the diverse packaging needs of various industries, offering exceptional clarity, durability, and branding opportunities.

Packaging Industry

Food and Beverage Industry

Chemical Industry

Fertilizer Industry

PREMIUM CUSTOMIZED PP WOVEN SHOPPING BAGS

Let your brand travel far and wide with customized **PP woven shopping bags** – made with quality, care, and a bold sense of color.

Whether it's daily shopping, market use, or promotional giveaways, our bags are made to stand out and last long.

Customization Options:

- ~ Your Brand Logo
- ~ Custom Slogan (English / French / Local Language)
- ~ Country Name / Flag
- ~ Calendar Print
- ~ Barcode / QR Code

“Your Bag. Your Brand. Your Way.”

Application Use Cases

- Grocery & Supermarket Bags
- Clothing & Footwear Retail Packaging
- Corporate Gift Bags
- Agricultural & Market Use
- Promotional/Calendar Bags
- Festival/Event Giveaways

Key Features

- Material: Woven Polypropylene (PP)
- Sizes: Available in Small, Medium, Large – fully customizable
- Colors: Bright, striped, or plain – as per your brand
- Printing: Multi-color screen or flexo printing available
- Handles: Loop, die-cut, or woven – comfortable and strong
- Finish: Glossy, matte, or laminated for extra shine and durability
- Eco-Friendly: Reusable & recyclable – made for sustainability

“ONE BAG. MANY USES.”

FIBC BAGS

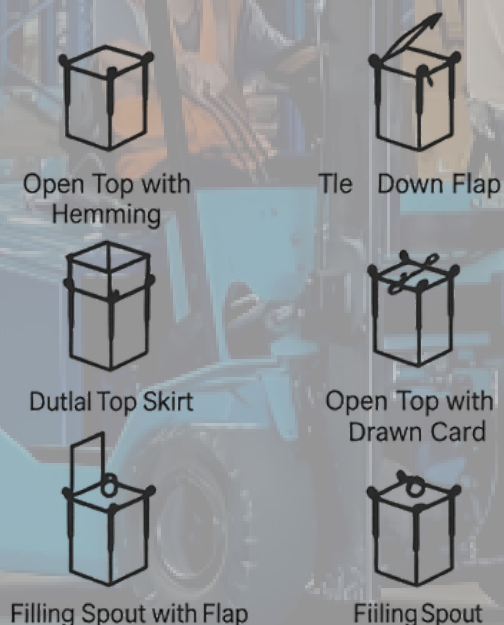

GSM ranging from 70 GSM to 220 GSM
Upto 200 CM wide fabric
UV protection and anti aging function
Available in over 1,000 pantone colors.

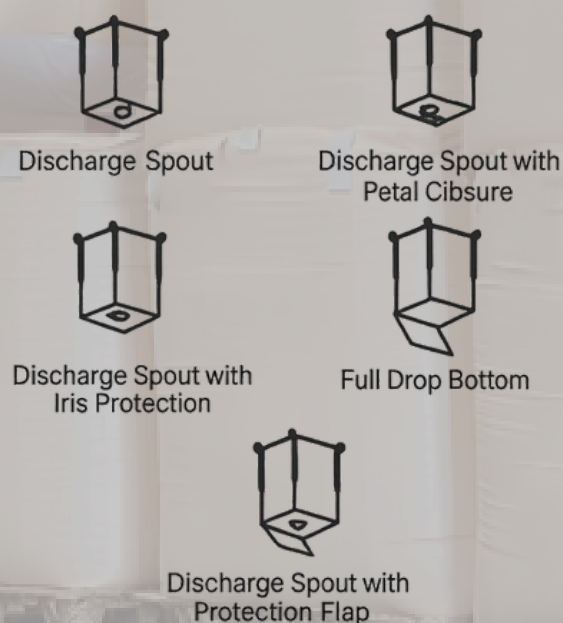

Flexible Intermediate Bulk Container (FIBC)

A Flexible Intermediate Bulk Container (FIBC) or bulk bag or big bag, is an industrial container made of PP fabric that is designed for storing and transporting dry, flowable products, such as sand, fertilizer, minerals and granules of plastic. The flexible fabric enhances the adaptability of the material in the container. We provide a wide range of FIBCs to suit the requirements of every customer

Filling System

Discharge System

At **HARPAN POLYCARÉ**, we are committed to delivering top-quality PP woven solutions tailored to the needs of diverse industries worldwide. Our wide product range includes PP woven sacks, laminated and unlaminated PP fabrics, BOPP laminated bags, gusseted bags, and customized packaging solutions—all manufactured under strict quality control measures. With advanced manufacturing facilities and a dedicated workforce, we ensure consistency in strength, durability, and performance across all our products.

We take pride in being a trusted partner for global clients, particularly in regions such as **Ghana, Senegal, Gambia, Egypt, Uganda, Congo, Latin America, and Spain**. Our strategic location and streamlined logistics system enable us to fulfill bulk orders efficiently and meet tight delivery schedules with ease. Our ability to offer fully customized solutions—including size, color, print design, and packaging style—makes us the preferred supplier for clients seeking reliable, high-demand packaging products.

Our mission is to build long-term relationships based on transparency, quality, and customer satisfaction. Whether you are looking for standard packaging or specialized solutions tailored to your market, Harpan Polycare is ready to deliver excellence—across borders, across industries.

YOUR TRUSTED PARTNER IN THE GLOBAL MARKET.

At HARPAN POLYCARE, our robust Quality Management System is designed to strengthen our reputation by prioritizing maximum production efficiency, regulatory compliance, and customer satisfaction. Dedicated quality teams at each facility closely monitor the manufacturing process to ensure strict adherence to international standards and industry regulations.

Our production units are ISO 9001:2008 certified, demonstrating our commitment to quality at every level. We consistently invest in the latest technology and skill development to continuously enhance our processes and deliver greater value to our customers.

**We provide customized packaging solutions
to a wide range of industries across the
globe, with a strong commitment to quality
and client satisfaction.**
