ARABICA COFFEE BEANS

ARABICA COFFEE

Introduce the world to the taste of true excellence with Indian Arabica Coffee. Arabica is known for its smooth body, balanced acidity, and naturally sweet, aromatic flavor.

FEATURES

Premium Flavor Profile: Mild, smooth, and aromatic with hints of chocolate, floral, or fruity notes

High-Altitude Grown: Cultivated at 1,000–2,000 meters for superior bean development

International Grade: Plantation AA, A, PB (Peaberry) with strict quality control

Flexible Packaging & MOQ: From small-scale to bulk orders, in jute or HDPE bags with private labeling

ROBUSTA COFFEE BEANS

Features of Robusta :

Experience the bold character of Indian Robusta Coffee –Known for its high caffeine content and strong flavor, Indian Robusta is a favorite for espresso blends and instant coffee production worldwide.

High Caffeine Content

Robusta contains about 2.2% to 2.7% caffeine, nearly double that of Arabica. This gives it a strong, energizing effect and makes it ideal for espresso and instant coffee production.

Bold and Strong flavor

Characterized by a deep, earthy taste with woody and bitter notes, Robusta delivers a full-bodied cup that stands out in blends.

AVAILABLE IN ROASTED AND UNROASTED BEANS

Other features

Low Acidity, Longer Shelf Life and many more.

INSTANT COFFEE

Features and types of instant coffee

We proudly offer premium-quality Instant Coffee, manufactured in India using high-grade Arabica and Robusta beans sourced from the renowned plantations of Karnataka and Tamil Nadu. Available in both Spray-Dried and Agglomerated forms, our product is processed under strict quality control and hygiene standards.

Agglomerated forms

100% Pure Coffee: Made from carefully selected Arabica and/or Robusta beans with no added chicory.

Spray-Dried

Rich Aroma & Taste: Offers a strong, full-bodied flavor with a pleasant aroma, perfect for both black coffee drinkers and milk-based coffee consumers.

SPECIALTY COFFEE

Features of Specialty coffee:

Single-Origin and Estate-Traced: Beans are traceable to the estate or region, allowing full transparency and origin identity for roasters and retail brands.

Altitude Grown: Cultivated at 1,000–1,800 meters above sea level, enhancing bean density, sweetness, and complexity.

Sustainably and Ethically Sourced: Many of our partner farms follow shade-grown, organic, and sustainable farming practices, with social responsibility towards workers and the environment.
