

## **Product Specifications:**

|                                   |                |
|-----------------------------------|----------------|
| API:                              | 33.35 Min      |
| Specific gravity:                 | 0.8522.        |
| Water and sediment (% max):       | 0.2% Vol. Max  |
| BSW:                              | 0.6% Vol, max, |
| Density at 20c degrees co-cm max. | 0.45           |
| Density at 15c degrees co-cm max. | 0.8522         |
| Sulphur content wt.pct mas;       | 0.15           |
| Color:                            | DARK BROWN.    |
| Salinity ptb at;                  | 0.10% MAX.     |
| Acid number;                      | 0.339          |
| Reid Vapor psig;                  | 6.52 MAX.      |
| PCT MAX;                          | 1.00           |
| Vanadium wr. PPM                  | 1.00           |
| Nikel wt. PPW                     | 2.00           |
