BRAVE.UA

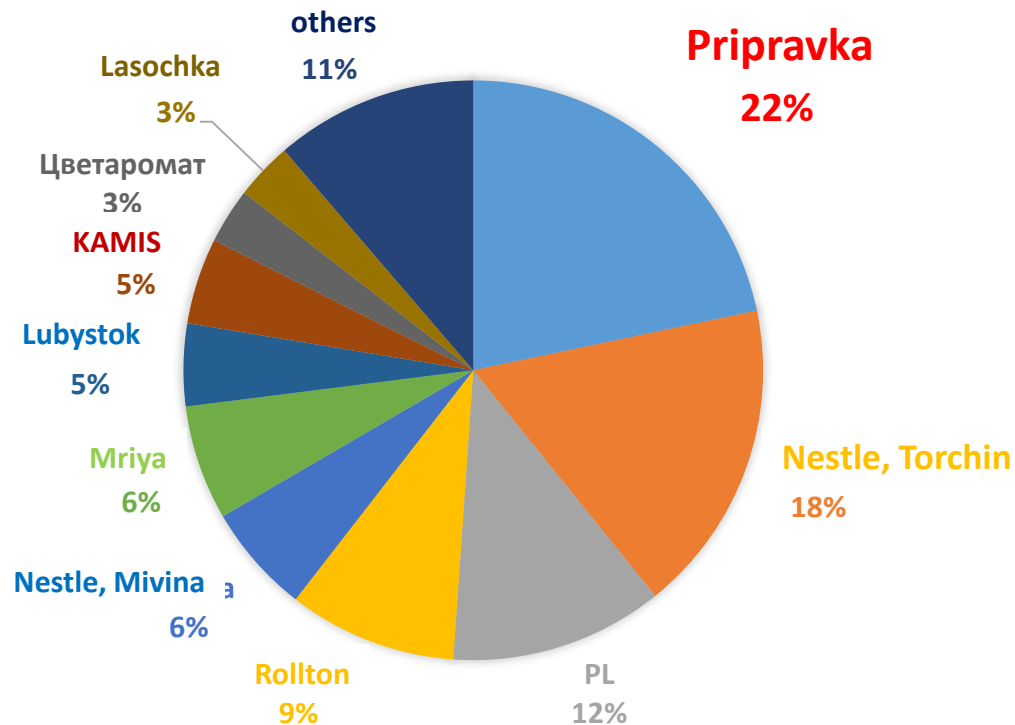

- 22 years on the market.
 - Turnover: 20 million dollars a year.
 - Export: Poland, Moldova, Georgia, Canada, Germany, USA, Israel.
 - Pripravka™ is the absolute leader in the Ukrainian market in the segment of natural spices.
 - PP SPS is one of the TOP-5 spice importers in Ukraine.
-
- 100% natural ingredients: no preservatives, no MSG, no artificial flavors or colors.
 - Pripravka's spices go through 7 stages of purification process. STEAM STERILIZED SPICES.
 - Professional approach to recipe development: flavors are developed in collaboration with professional Ukrainian chefs.
 - A small amount, a big effect - we work with high-quality spices with a high content of essential oils, even a small amount of which is enough to create a bright taste.
 - Individual solutions for partners: when developing spice mixtures, the specifics of the market in which the partner works, technological features of the production of the product with spices, and the possibility of developing unique flavors are taken into account.

5. ASPIRATION: pilus, insects, husks.
6. SPIRAL CLEANING: sticks, twigs.
7. METAL DETECTOR: non-magnetized impurities.

Pripravka™ – the first Ukrainian producer of spices and seasonings with a modern French steam sterilizer by Revtech on the production site*.

Pripravka™ Spices have been treated in a Revtech steam sterilization system, which guarantees significant reductions of aerobic plate counts, coliforms, yeast, and mold load of the spice.

STEAM STERILIZED SPICES

Steam sterilization guarantees significant reductions up to **99.9%** of aerobic plate counts, coliforms, yeast and mold load of the spice.*

*Pripravka™ Spices have been treated in a Revtech steam sterilization system. The results are confirmed by manufacturer's research protocol.
