

Model 620 Smart Lock

Functions all in ONE

semiconductor fingerprint

touch screen input

low battery reminder

swipe card to open the door

normally open mode

remote unlock

Key features

- Free handle design, prevent violent unlocking
- Semiconductor Fingerprint Sensor
- Every time the fingerprint is unlocked, the chip will learn the algorithm by itself to improve the pass rate
- Virtual password technology, no need to cover safe input
- Encrypted smart IC card, easy to swipe the card to open the door
- Remotely send temporary passwords to help friends and family open doors
- Silent guard, not afraid of waking up family members
- Remote control, anti-theft upgrade, double security
- Multiple anti-test opening alarms, continuous input errors, automatic lock
- Normally open mode setting, more convenient to open the door frequently
