Brillante Group

Since
1961

Pomegranate used to be the symbol of love and tenderness in ancient culture of the land of Persia. Today, Iran is place on top of the pomegranate producer table in the world. From total production, which is about 1.5 million tones, 1 million tones are being cultivated in the outskirts of deserts in Iran. The land of Persia, by having rich soil and sun for cultivation of agriculture products, especially pomegranate, supplies fruit with amazing taste. Brillante Group by collecting the best pomegranate from the gardens of desert borders in Iran, specifically, Neyriz area of Shiraz has attempted to present a product, which is totally pure, 100% natural without sugar and additives, to the global market.

1961

Abedini family has started food manufacture and export since 1961 and currently on this path, it continues its mission with producing 100% natural pomegranate beverage.

Brix in 20°C	45 ± 1
pH	2.8 - 3.2
Acidity based on Citric Acid (g/100g)	4-7 g/100ml
Color	0.8 - 1.1 Absorb. in 540 nm (at 1.5 brix) Absorb. in 420 nm
Tannin (g/100g)	Less than 1 g/100 ml
Total Ash(g/100 g)	1.3 - 3.5 g/100 g
Pesticides	Negative
Organoleptic	
Appearance	With special smell of pomegranate
Taste	Slightly acidic with certain sweetness and light tart taste.
Microbiological	
Total plate count	<100/g
Yeast & Mold	<10/g
Coliforms	<10/g
Packing & Storage	
Filled in Aseptic bags in 200 Liter (2x5 kg) steel drums.	
Storage conditions: 18°C	
It is essential to arrange transport in refrigerated container in order to maintain the temperature at 18°C at all times and to avoid biochemical reactions and quality loss.	
Labeling	
Each drum: Labels of width:	
Batch number	
Drum Number	
Producing date	
Crup year	
Net weight	
Gross weight	
Size	
Shelf life	
24 months after production date	
Certifications	
ISO 22000, ISO 9001, HACCP obtained from TAO	

100% natural pomegranate juice without sugar

The natural Pomegranate Juice has been extracted directly from fresh pomegranate fruit with natural pomegranate taste and aroma, without additives or preservatives; you will never forget the taste.

The antioxidative properties of pomegranate juice will help your heart, digestive system and will brighten your skin.

750ml

200ml

1000ml

Pomegranate syrup

Pomegranate syrup has produced from pomegranate juice concentrate. Dilute with Four times cold water. Pomegranate products help your heart and brighten your skin

Pomegranate vinegar

Pomegranate vinegar, less commonly seen among other types of more prevalent vinegars such as apple vinegar and grape vinegar, is rich in nutrients and properties, and can easily replace them. Pomegranate vinegar contributes to optimum calcium absorption and improves digestion. Rich in potassium, Pomegranate vinegar also helps control blood pressure and hypertension. Pomegranate vinegar can be best used as salad dressing, which not only improves its taste, but also helps its digestion.

Pomegranate sauce with vinegar

Pomegranate sauce with vinegar, special spices and natural pomegranate properties is much better than popular fat sauces. A useful and delicious product, which you can apply it on most roasted foods, chicken, fish, shrimps, spaghetti kebabs and even on salad and fast food.

Pure pomegranate paste

Pure pomegranate paste, with natural taste and aroma is a suitable chutney during cooking or as a table dressing. It is full of potassium, phosphorus and polyphenol which decrease LDL or bad cholesterol.

Pomegranate properties

1-As active antioxidants. The research has proved that it is three times stronger than green tea. The antioxidants preserve your body and arteries against stress, chemical and microbiological pollutions, cordial diseases and cancer.

2-Heart and Arteries. Pomegranate juice preserves your body against LDL or bad cholesterol. Behaves like a natural aspirin. With drinking $\frac{3}{4}$ of a glass during three month your heart will receive more oxygen. Meanwhile prevent DNA destruction and the related illnesses.

3-Cancer; pomegranate juice will decrease the risk of cancer, particularly breast, prostate and skin cancers.

4- Diabetes. Pomegranate juice doesn't increase the blood sugar, but prevents the destruction of heart and arteries regarding sugar hurts.

5-Kidney. Drinking Pomegranate juice is a diuretic material which regularly will decrease disorder and disruption of kidneys and help dialysis people.

6-Alzheimer. Drinking two or more glass of pomegranate juice weekly, prevents up to 76% of Alzheimer progression in compare with those people who doesn't drink or drink less than $\frac{1}{2}$ glass a week

7-Infectious disease. Pomegranate juice will decrease Helminths. In case of fever give pomegranate juice to the patient.

8-Skin care. Pomegranate seed prevents skin aging.

9-Otitis or earache. For treatment of Otitis or earache; Pomegranate juice with honey is recommended. Drink pomegranate juice for a better vision and to prevent eye weakness.

10-Pregnancy. Those pregnant women who drink a half glass of pomegranate juice daily, prevents premature and the baby brain hurts. Pomegranate juice is a rich source of Vitamin A, E, C & B3, Folic Acid, potassium and fiber. One glass of pomegranate juice provides 40% of your daily need.

11-Menopause. Pomegranate juice decrease the stress derived from menopause.

12-Underweight. Pomegranate juice is a good appetizer, but if you drink it without sugar then it will be good weight loss

Research shows that daily consumption of the antioxidants in Wonderful Pomegranate Juice Concentrate may offer:

- Heart Health - Studies have shown that consumption of pomegranate Juice reduces the buildup of plaque in the lining of the inner artery. In fact, it reduces the size of atherosclerotic lesions by 44%.
- Reduction of LDL (bad) Cholesterol - Studies in the American Journal of Clinical Nutrition have shown that the antioxidants found in Wonderful Pomegranates reduce the LDL oxidation, and help to lower blood pressure in hypertensive humans.
- Neutralize Free Radicals - Pomegranate contains antioxidants like Polyphenol. Antioxidants help to repair damaged cells by Free Radicals, (unstable oxygen molecules associated with cancer, heart disease and the effects of aging).
- Pomegranate juice improves carotid artery health and lowers blood pressure in patients with carotid artery stenosis.

Pomegranate origin

It was first cultivated in east of Iran and then was taken to India, Africa, China, Europe and America. In Spain it is a symbol of nobility.
