

J M S G
GROUP

WHO WE ARE

JMSG GROUP, with offices in Portugal, Spain, Colombia and Egypt, is a trading company whose goal is to be present with clients at every stage of the processes of import and export of products and services, from project development through consultancy and all the inherent process, until its conclusion.

The company is formed by specialized professionals, prepared to provide customers with the best performance in their processes. We are known for our technical knowledge of the market and foreign and domestic trade, which makes us a strategic partner in the import and export processes.

We differentiate ourselves from our counterparts by our flexible and creative attitude to solve any logistical and and / or bureaucratic issue in a fast and objective way.

Portugal: Avenida da República 6, 7º Piso 1050-191 Lisboa
Egypt: Makram Abeid Building 102 – Nasr City – Cairo

- **Icumsa 45 sugar**, known today as white sugar, is one of the most sought after by sugar importers worldwide, due to its purity and shine. As the highest quality sugar available on the market today, ICUMSA 45 sugar is brilliant white in color and highly refined, suitable for human consumption and use in a wide range of food products. In addition, it is in high demand because it is safer, since its refining process eliminates bacteria and contaminants present in raw sugars.
- Known as brown sugar, **Icumsa 600-1200** is 100% crude refined and is produced after the first crystallization of the sugar cane. This sugar is thicker than white sugar, known as Icumsa 45, and its color is brownish. Raw brown sugar from sugar cane, when fully refined, contains approximately 70% white sugar.
