Tasting Notes from International Taste Institute Jury

Overall Comments

- Overall, this is a pleasant and well-balanced rum with rich and complex aromas and an equally lovely taste.
- Harmonious woody and vanilla scents are dominant but become supple as they evolve into sweet and salty flavours for an intense symbiosis.
- The alcoholic content is generally well-managed on the palate.

Vision

- This is a very visually appealing rum with a beautiful golden color.
- It's clear and bright with a shiny quality.
- The clarity of the rum allows gold reflections to shine through its syrupy appearance.
- This product has good viscosity, which allows tears / drips to form in the glass, giving it an oil-like appearance.

Final sensations

- The final sensation of this rum is fruity, with a spicy twist.
- It has a long persistence in the mouth and envelops the senses.
- The finish is also quite intense, which indicates a good quality product with a balanced aromatic perception.
- Hints of caramel and bubble gum persist in the mouth and create a pleasant aftertaste.

“Brings a smile with every sip”
