

From Nature to Taste

Sumatera Finest Spices 

# *Company Profile*

PT. SUMATERA FINEST SPICES

# About Us

Spices were known in Europe around 70 BC and were used for warming, medicine, flavoring dishes, as well as perfumes.

Exploring the oceans in search of spices made Europeans discover many new things, which in turn influenced the development of science and technology, including the rapid development of sea navigation for voyages exploring the world.

There are around 400-500 species of spice plants in Indonesia and It is not surprising that since long ago our nation has become one of the world's centers of need, especially since many Europeans are interested in spices that only grow in Indonesia.

The Sumatra Finest Spices company, which was founded in May 2023, is present as a partner for those who need Nusantara Spices with the best quality and price in the world

# Our Goals
