

Apipark Product Catalog

APIPARK BEEKEEPING PRODUCTION, RESEARCH AND CONSULTANCY, EDUCATION AND BREEDING A.Ş. Our research company was established in 2013 on the campus of Namık Kemal University in Tekirdağ province, Turkey. We are making R&D on cosmetics, food supplements, premix, bee and bee products. Our specialized and experienced staff work with the highest quality products.

Our Food Supplement Products

Api10 Propolis (Alcohol Free)

Api10 Propolis Drops Developed at Namık Kemal University Tekno Park

Three Times Higher Bioactives by Dissolving Pure Propolis with Milk Acid

What is Propolis?

Propolis is a resinous substance that worker bees collect from leaves, stems, buds, etc. of plants in order to protect the food in the hive, larvae and themselves from various pathogenic microorganisms and viruses. Bees make biochemical changes in this substance with the enzymes secreted from the glands in their heads to form propolis.

How should Propolis be consumed?

Propolis, when first collected (raw propolis), contains various external substances and wax. This is primarily because it is extremely sticky and is obtained by scraping it from traps or hives. Consumption in this form (raw propolis) is not recommended due to the loss of beneficial ingredients and the presence of foreign substances that may be mixed in during the scraping process. Instead, it would be more advantageous to consume it in separated extract form by lactic acid.

Api10 Propolis (Alcohol Free)

What do we offer you?

As you can see, many different inputs affect the quality of the final product.

For this reason, we consider each stage separately.

- 1) Raw material: we use only locally produced raw propolis, so that without any doubt, we both support the beekeepers of our country and start with the acquisition of quality raw materials. The raw materials we procure are analyzed and classified, thus avoiding regional content differences.
- 2) Remedial type: We use only the most suitable solvent for human health and propolis bioavailability, so we produce alcohol-free in its purest form, without any preservatives, colorants or flavorings. With our R&D studies, we have achieved three times higher bioactive content than its closest counterpart by dissolving propolis with milk acid. Also beneficial effects increase in human body by using lactic acid extraction of propolis.

WHAT DOES PROPOLIS CONTAIN?

Flavanoids are plant phytochemicals that cannot be synthesized by humans and are known to have positive effects on human health. Other components of propolis are caffeic acid and its esters, aldehydes, aromatic esters, terpenes, lignans and phenolic compounds. Among these substances with biological activity, flavanoids have the highest effect. The secretions collected from plants by honey bees are mixed with some enzymes secreted by the bee and enriched its content. All these substances make propolis a multifunctional substance. Our product is 20 ml in drop form.

Appetizing, energy and immune booster Propolis Syrup

Rich Propolis Syrup (Honey, Carob Extract, Mulberry Extract, Grape Seed Extract, Ginseng)
100ml

PATENTED PRODUCT

It is a product of Tekirdag Namik Kemal University Technopark company. Net 100 mL e

USAGE MANUAL

It is recommended to consume 1 or 2 teaspoons a day for children aged 4-10 years and 2 or 4 teaspoons a day for adults aged 11 years and over.

STORAGE CONDITIONS

Store the product sealed at room temperature, protected from sunlight. It contains natural ingredients and may collapse. You can shake before consumption.

WARNING INFORMATIONS

Those allergic to bee products should not consume. Warning: Babies under 12 months of age are not recommended to be fed honey and honey containing products..

Throat Spray with Propolis (Alcohol Free) 20 ml

It is a product of Tekirdag Namik Kemal University Technopark.

PATENTED PRODUCT

USAGE and STORAGE CONDITIONS

It is recommended to consume Propolis Spray by spraying at least 2 sprays 3 times a day. Store the product in a dry place at room temperature (approx. 22 °C), protect from higher temperatures and sunlight.

Components:

Pure Propolis (2%)

Auxiliary ingredients: Honey, water, menthol, ginger, thyme, gum arabic

WARNING INFORMATIONS

Those allergic to bee products should not consume.

Warning: Babies under 12 months of age are not recommended to be fed honey and honey-containing products.

Grape Seed Extract (Alcohol Free) 20ml

It is a product of Tekirdag Namik Kemal University Technopark.
PATENTED PRODUCT

GRAPE SEED & LACTIC ACID

It was discovered for the first time in the world by our company's R&D team that the alcohol-soluble components in grape seeds and skins can dissolve in lactic acid. Lactic acid is a natural compound, also known as milk acid, which occurs naturally in yogurt and is found in muscles, blood and organs in our body.

STORAGE CONDITIONS

Store the product sealed at room temperature, protected from sunlight. It contains natural ingredients and may collapse. You can shake before consumption.

USAGE MANUAL

For children aged 4-10 years, 1-6 drops per day, for adults aged 11 years and over, 6-21 drops per day should be consumed by dropping into liquid foods such as water, buttermilk, yogurt, fruit juice without dripping directly into the mouth. Those allergic to grape products should not consume. Net 20 mL Grape seeds (15%)

PROBEE PROPOLIS GUM

Contents of Master ProBee

Master Probee® is presented to your consumption with its internationally patented formula developed by our expert teams at Tekirdağ Namık Kemal University, Teknopark. Each Master Probee® Propolis gum contains 30 mg of pure Anatolian Propolis. Master Probee, which is a combination of pure Anatolian Propolis, chewing gum base and natural mastic gum flavor. It does not contain any colorants, BHA and BHT.

In general, the most important advantage of chewing gum is that it lasts the longest in the mouth. With chewing gum, active ingredients from the inner skin of the cheek, palate and gum areas can be taken especially under the tongue. It acts faster and it shows higher bioavailability without going through the stomach and intestine.

Cosmetic Products

All Api 10 Cosmetics products use proprietary Lactic Acid Based Propolis with high bioavailability and activity. The unique effects of propolis on the skin are as follows:

Heals the Skin - propolis penetrates deep into the skin and accelerates and stimulates blood circulation. The anti-bacterial properties of propolis have a cleansing effect that protects the skin against acne, pimples and other skin blemishes.

Soothes Inflamed Skin - propolis has a mild anesthetic effect that soothes itching, burning sensation and irritated skin - especially beneficial for psoriasis and eczema.

Moisturizing effect - propolis has moisturizing properties, revitalizes the skin and increases elasticity. Useful for dry and red skin.

Regenerates skin cells damaged by sun exposure and burns.

Anti-Bacterial, Anti-Viral and Anti-Fungal - propolis protects against fungal infections, herpes and helps heal cuts, scrapes and burns.

HAND CREAM WITH PROPOLIS

Product use: Developed for all skin types. Suitable for daily use. It can be used on hands, face and elbows whenever needed.

Shea butter nourishes skin that is irritated, red, sensitive and cracked from dryness. Shea butter is also good for eczema and itching problems. It has a soothing effect on the skin. Jojoba oil provides a soft skin absorption, moisturizes without leaving an oil shine on the skin and gives a silky shine. Thanks to its vitamin E content, it strengthens the skin and prevents wrinkles with its antioxidant effect. The use of jojoba oil is a unique 100% natural support in preventing and eliminating pregnancy stretch marks. It also protects the skin by providing natural care for those who burn easily in the sun. It moisturizes, softens and protects sunburned skin. Macademia oil and phytociterols reduce itching and redness of the skin. In addition, the palmitoleic acid in macademia oil locks in moisture and the active ingredients in the cream, such as propolis and honey, for fast healing.

Ingredients: Shea butter, olive oil, coconut oil, jojoba oil, macademia oil, beeswax (10%), honey (10%), propolis extract (2%), jasmine essential oil, rose essential oil.

Warnings: For external use. Those allergic to bee products should not use. Avoid contact with eyes. Keep out of the reach of children.

Expiry date: 2 years from the date of production.

PROPOLIS CALLUS CREAM

Intended use: Helps care for calluses with skin penetrating agents and protective ingredients. It penetrates deeply without causing irritation and reveals soft and smooth skin in just a few minutes. Almond oil Almond oil, which contains vitamin E, both softens and moisturizes the callused area, thus shrinking the calluses. When applied regularly to the calloused area, it softens this area and helps to remove dead cells from the body. Thanks to propolis, the skin is renewed and revitalized.

Ingredients: Lanolin, almond oil, glycerin, lavender oil, propolis extract.

Usage: It is used 3 times a day by applying to the calloused and thick areas of the feet.

Warnings: For external use only. Avoid contact with eyes. In case of contact, rinse with water. Keep out of the reach of children and in room conditions.

Expiry Date: 2 years from the date of production.

PROPOLIS OINTMENT

Intended use: Api10 ointment acts as an emollient, hemorrhoid relieving, skin softening, protective shield. It provides a protective thin layer that reduces irritation of the rectal mucosa and painful defecation. It is hypoallergenic and has an antibacterial effect. It reduces inflammation by killing harmful microorganisms in the area. Similarly, it removes roughness on your elbows and heels. Dry skin causes roughness in areas such as heels and elbows. In addition, dead cells can accumulate in these areas. You can use this product to soften them and remove dead skin. Treats diaper rash. Moisture in diapers can cause irritation and inflammation on babies' skin. Fortunately, Api10 ointment acts as a buffer between moisture and baby skin thanks to propolis and lanolin. Heals minor burns. Associated with the relief and care of injuries caused by fever and heat. Accelerates wound healing. It has healing properties that can accelerate the healing of wounds and sprains.

Ingredients: Vaseline, lanolin, propolis extract, honey

Directions for use: In continuous cases, apply Api10 ointment to the burned, dry, rashy or anorectal area in the morning and evening. Then apply only in the evening when the symptoms are relieved.

Expiry Date: 2 years from the date of production.

HAIR CARE OIL

Intended use: Provides moisture, shine, softness and vitality to dry hair. It strengthens the hair follicles and supports the prevention of hair loss, breakage and breakage. It repairs the hair by preventing hair oiliness and ensures healthy and strong hair growth. It protects the keratin in the hair and helps reduce dandruff formation. Propolis, argan oil, castor oil and almond oil have anti-inflammatory and antioxidant properties. This can help prevent or cure skin diseases that can affect the scalp that can cause hair loss, such as

Psoriasis

Seborrheic dermatitis (Causes scaly patches, reddening of the skin and stubborn, persistent dandruff. In addition to the scalp, seborrheic dermatitis can also affect oilier areas of the body such as the sides of the nose, chest, eyelids, eyebrows, ears and face).

It also adds a protective layer to the hair, improving combing power and protecting the hair from breakage during heat styling. The hair care oil helps to achieve thicker, healthier-looking hair, free of split ends.

HAIR CARE OIL

A 2013 study also found that argan oil reduces the damage caused by hair dye when applied to white hair after color treatment.

Ingredients: Olive oil, argan oil, almond oil, jasmine oil, castor oil, propolis extract, lavender oil, rosemary oil, calendula oil, clove oil, tocopheryl acetate

Directions for use: Apply by massaging the scalp.

Warnings: For external use only. Avoid contact with eyes. In case of contact, rinse with water. Keep out of the reach of children and in room conditions.

Expiry Date: 2 years from the date of production.

NAIL CARE OIL

Intended use: With the synergistic effect of the oils in its content, it meets the moisture needed by the nails and cuticles when used regularly. Prevents hardening and cracking of the cuticles. It has a protective effect against nail breakage and affects the healthy growth of nails. Nail care oil that prevents unwanted roughness helps hands look more aesthetic and completes the make-up process. It facilitates manicure and offers a healthy appearance. Prevents color loss in nails. It is effective against the fungus that occurs between the fingers on the nail. The anti-inflammatory properties of chamomile essential oil can help reduce nail sensitivity and increase nail strength. Rosemary oil has proven effective in treating various nail conditions, including ingrown nails and nail fungus. Sunflower oil is an emollient that helps lock moisture into your nails. It contains high amounts of omega 3 fatty acids and vitamin E, helping to brighten the health of your nails and the skin around them. Calendula oil has an anti-inflammatory effect.

Ingredients: Cold pressed sunflower oil, propolis extract, lavender oil, chamomile oil, calendula oil, rosemary oil
Method of use: It is recommended to use at least 2 times a week before and after manicure.

Warnings: Store in a cool, dry and light-free place with the lid closed.

Expiry Date: 2 years from the date of production.

LIP BALM

Ingredients: Shea butter, coconut oil, cocoa butter, propolis extract, beeswax, castor oil

Usage: Apply on the lips with the fingertip. Moisturizes cracked and dry lips. It makes the lips lively. It is also good for herpes sores around the lips.

Cocoa butter has an excellent moisturizing feature. Cocoa butter, which also moisturizes the lips, prevents dryness and cracks that may occur on the lips. Shea butter contributes to nourishing and moisturizing the lips. There is also coconut, which acts as a natural lip balm for cracked lips, especially in winter. The highly nutritious ingredients in castor oil, such as vitamin E, minerals and fatty acids, help to restore moisture to chapped lips.

Expiry Date: 2 years from production date

COLOGNE

Intended use: It provides disinfection without irritating the skin with its propolis content. It is also good for hand and heel cracks with its glycerin content. It provides protection against viruses, bacteria and fungi that can be transmitted to our hands from outside after application.

Content: Alcohol denat, water, glycerin, propolis extract, perfume

Warnings: For external use only. Avoid contact with eyes. In case of contact, rinse with water. Keep out of the reach of children and in room conditions. Do not apply to irritated skin. Do not spray towards fire. It is flammable.

Expiry Date: 2 years from the date of production

MOISTURIZING FACE SERUM

Usage: After cleansing the skin, apply 3 drops to your face during your day and night routine. There is no need to rinse after application. Due to its high water retention capacity, hyaluronic acid support helps to achieve a luminous skin appearance. Moisturized, radiant skin shines with a healthy appearance. Hyaluronic acid prevents dryness by locking moisture into the skin. The repair mechanism of nourished, moisture-saturated skin works rapidly, reducing the appearance of skin imperfections. Facial serum also protects against the appearance of wrinkles by showing anti-aging effect with the ingredients in its content. In this way, early signs of aging are prevented and skin elasticity is increased, giving the skin a youthful appearance. With regular use, the appearance of signs of aging is also reduced.

Thanks to its witch hazel extract, it has shown that topical application to sensitive skin can be beneficial in the treatment of inflamed, irritated or chapped skin. In addition, witch hazel acts as an astringent that helps to shrink your pores, soothe your skin and reduce inflammation, and prevents acne.

MOISTURIZING FACE SERUM

Thanks to its jojoba oil content, it is effective in relieving or treating common skin conditions such as acne, psoriasis and dry skin with little or no side effects such as itching or redness. As it is an oil similar to your natural sebum (skin oil), it is absorbed easily and without side effects.

Contains rose water, which tones and tightens the skin for a smooth and firm appearance. It also helps to reduce blemishes and wrinkles.

The panthenol content provides a great moisturizing ingredient. Research has shown that it reduces transepidermal water loss (water evaporating from the skin). Products containing just 1% panthenol quickly moisturize the skin, leaving it feeling and looking more supple.

The antioxidant properties of its carrot seed essential oil were analyzed in a study and showed that it may be useful in cosmetics as a rejuvenator for aging skin.

MOISTURIZING FACE SERUM

Contains zinc oxide to heal and soothe the skin from the inside.

Ingredients: Rose extract, water, glycerin, jojoba oil, hyaluronic acid, propolis extract, witch hazel extract, panthenol, benzoic acid, sorbic acid, dehydroacetic acid, benzyl alcohol, carrot oil, thyme oil, zinc oxide. Provides the moisture your skin needs with its natural rich content. Promotes healthy, supple and silky skin. Suitable for use before foundation.

Warnings: For external use only. Avoid contact with the inside of the eye. In case of contact, rinse with plenty of water. Keep out of the reach of children and in room conditions.

Expiry Date: 1 year from the date of production.

BRIGHTENING AND ANTI-PIGMENTATION FACE SERUM

Usage: After cleansing the skin, apply 3 drops to your face during the day and night routine. There is no need to rinse after application. Unlike other cosmetic products containing vitamin C, the most active form of lactic acid-based propolis in our product shows its effect more clearly with the phenolic substances of vitamin C propolis. Propolis reduces wrinkles and has anti-aging properties. Antioxidants such as phenolic compounds and flavonoids, which neutralize the negative effect of free radicals on the skin, play a major role here. Propolis brightens and smoothes the skin, reduces signs of fatigue and moisturizes the skin. Vitamin C works to give the skin a more vibrant appearance. Products containing vitamin C support the production of collagen and help to brighten and tighten the skin and give it a beautiful appearance. Products containing vitamin C are very successful in caring for the appearance of bruises under the eyes. If you have the problem of dark circles under the eyes, you can easily care for your skin with products containing vitamin C. The elasticity of the skin decreases with the effect of time. Products containing vitamin C try to bring the skin to the ideal level of elasticity and aim to reduce skin tension.

BRIGHTENING AND ANTI-PIGMENTATION FACE SERUM

Niacinamide helps to build keratin. Keratin is a type of protein that keeps your skin firm and healthy. Niacinamide creates a ceramide barrier for your skin. This can also help retain moisture. This can be beneficial for all skin types, especially if you have eczema or mature skin. Niacinamide minimizes redness and blemishes due to its ability to reduce inflammation. It can help relieve redness caused by eczema, acne and other inflammatory skin conditions. It can provide a natural reduction in the appearance of pores over time as it moisturizes and helps keep skin smooth. The benefits of retaining moisture in the skin are not just for dry skin. Niacinamide can also help regulate the amount of oil produced by the sebaceous glands and prevent the glands from overworking. Niacinamide helps protect your skin against sun damage. It can simultaneously rebuild healthy skin cells and protect them from damage caused by UV rays. Treats hyperpigmentation. Some research shows that 5 percent niacinamide concentrations can help lighten dark spots. It is thought that these benefits may be due to increased collagen production. Minimizes fine lines and wrinkles. Research shows that the same concentration also helps to reduce the signs of sun damage that come with aging. This includes fine lines and wrinkles. Niacinamide helps build skin cells while protecting them from environmental stresses such as sunlight, pollution and toxins.

BRIGHTENING AND ANTI-PIGMENTATION FACE SERUM

This means protection against oxidative stress. Niacinamide can be useful for the treatment of severe acne, especially inflammatory forms such as pustules. Over time, you may observe fewer lesions and improved skin texture.

Contains arbutin, which evens and brightens skin tone, lightens dark areas and helps fade scars. Contains allantoin, which helps exfoliate dead skin cells. It is a keratolytic agent, meaning it can soften and separate the cornified (hard) layer of the skin. It keeps the skin smooth because the dead skin layer is now shed.

Its panthenol content provides a great moisturizing ingredient. Research has shown that it reduces transepidermal water loss (water evaporating from the skin). Products containing only 1% panthenol quickly moisturize the skin, leaving it feeling and looking more supple. Contains zinc oxide to heal and soothe the skin from within.

BRIGHTENING AND ANTI-PIGMENTATION FACE SERUM

Ingredients: Water, tea tree extract, niacinamide, glycerin, ascorbyl tetraisopalmitate (vitamin C), alpha-arbutin, propolis extract, allantoin, panthenol, benzoic acid, sorbic acid, dehydroacetic acid, benzyl alcohol, zinc oxide. Brightening serum against blemishes, discoloration and wrinkles.

Warnings: For external use only. Avoid contact with the inside of the eye. In case of contact, rinse with plenty of water. Keep out of the reach of children and in room conditions.

Expiry Date: 1 year from the date of production.

100% NATURAL PROPOLIS SUN CREAM

IT IS A PRODUCT OF TEKİRDAĞ NAMIK KEMAL UNIVERSITY TECHNOPARK.

Protects against UVA/UVB Rays

Contains mineral and propolis.

Skin repairing and nourishing.

Intended use: Since it is a mineral product and not a chemical product, it protects our skin from the harmful effects of sunlight and does not prevent the intake of vitamin D. Api10 Sunscreen does not contain sulfate, paraben, alcohol, perfume and gluten. It is a vegan product. It is an anti-aging product thanks to the vitamin E contained in natural oils.

Product Usage: Shake before use. Avoid eye area. Repeat application after sea and pool. Reducing the amount of use of the product causes the protection level to decrease. Sunbathing between 10:00-15:00 is harmful to health.

Ingredients: Corylus Avellana Seed Oil, Helianthus Annus Seed Oil, Zinc oxide, Butyrospermum Parkii (Shea) Butter, Lavandula Angustifolia (Lavender) Oil, Propolis extract (0.5%)
Thanks to zinc oxide filters, it helps protect the skin against the harmful effects of the sun. Thanks to the natural oils it contains, it allows you to maintain the moisture balance of the skin, while at the same time, it supports you to care for the skin naturally with the powerful effect of propolis.
