

SABA PACKAGES

BRANDING | PRINTING | PACKAGING

SINCE 1965

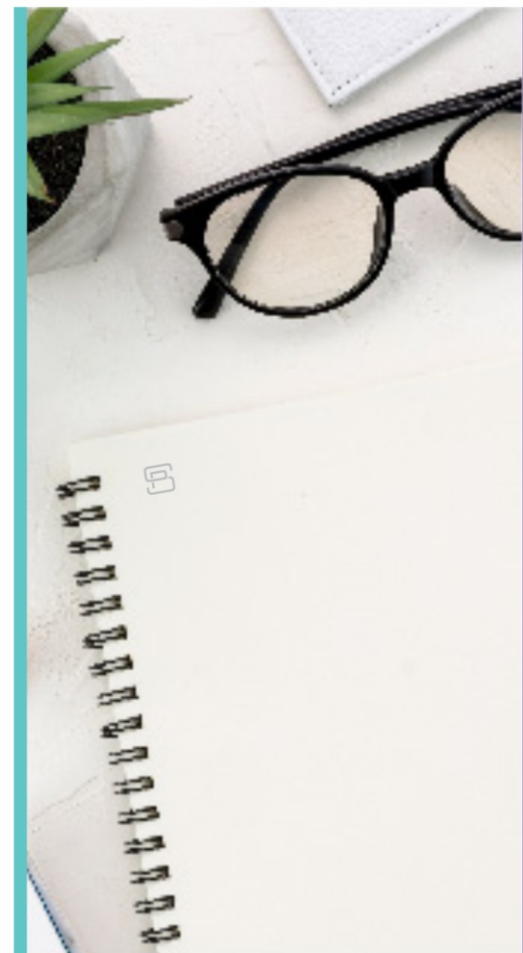

graphic design

graphic design for advertising & commercial activities made extensive impact for the business & corporate sector, graphic design have a strong impact, clear characteristics, easy to impress viewers, our high art innovations have a positive and profound significance on our clientage.

brand identity

Branding is the process of assigning characteristics and properties within and outside an offering to give that generic offering an identity which helps it to be recognised and differentiated in the market.

offset printing

Our in-house lithographic printing production includes and Heidelberg and other useful machinery help to produce mass production for national and export shipments.

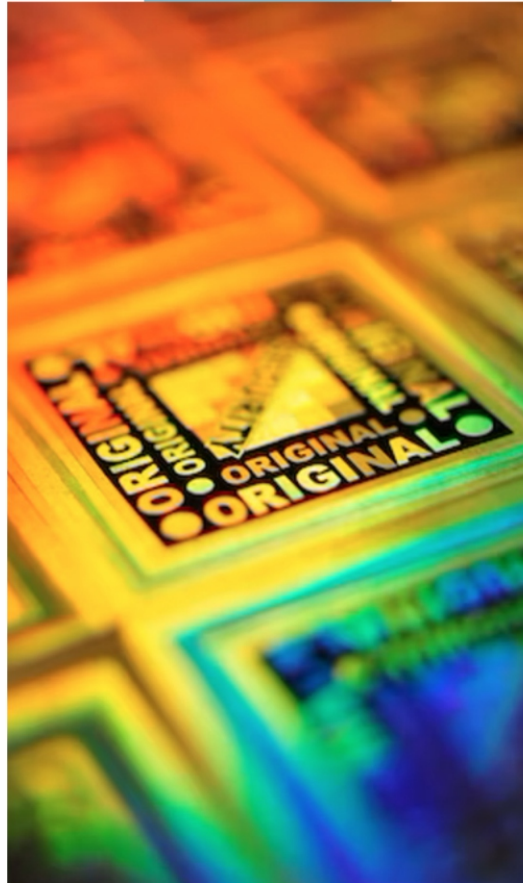

- **box board**
- **corrugation**
- **plastic**

packaging

our research demonstrates that box board, corrugated & bopp packaging has cost savings, beneficial for huge supply chain, industrial requirements for local and export shipments.

holographic printing. packaging.

Holographic printing is a representation and transfer of hologram impression on stickers sheets & box boards which produces three-dimensional effects when viewed. A holographic print does not require any special lighting to produce the 3D metal effect. It's a best method to secure your brand from piracy.
