Bath accessories from Professor Maison – a new vector of industry development

Brief description of the manufacturer

The Maison Trade LLC company is the only manufacturer of bath and household products from various combinations of threads on the territory of Ukraine. The company was founded in 2020 and during this time has managed to gain a reputation as a reliable supplier of quality products. Production facilities are located in Ivano-Frankivsk (relocation from Kharkov was carried out in 2022). Our company uses only primary raw materials to produce products, which ensures their high quality, strength and durability. The company offers a wide range of bath sponges and household sponges of various sizes, shapes and colors. TM MAISON products meet all European quality standards. The company has ISO 9001:2015 and ISO 14001:2015 quality certificates. We can provide you with product samples to ensure its quality.

We invite distributors and retailers who are interested in selling our washcloths in European and American markets to cooperate.

Advantages of cooperation with our company:

- expansion of the product range: our washcloths are a unique product that will attract new customers;
- high quality: our washcloths are made from high quality raw materials and meet all European standards. Cooperation with us will allow you to offer your customers reliable and durable products;
- favorable terms of cooperation with the manufacturer;
- flexible payment terms.

Contact us today to learn more about collaboration opportunities.

We will provide all the necessary information and answer all questions.

Bath sponge «BELT»

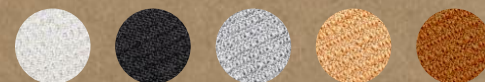

Combination of thread and foam with handles

Jacquard is formed by short, rigid loops resembling knots. They are located in longitudinal rows along the entire length of the washcloth. The entire space inside is filled with a foam insert to form lush soap foam. For ease of use, the washcloth has two durable handles. Hard jacquard can provide good peeling and anti-cellulite massage. It can be manufactured in various degrees of hardness: "Soft", "Hard". Has high wear resistance. Available in a wide color palette.

Dimensions: 40×1×11 cm

Hardness level: "Soft", "Hard"

Color palette:

Bath sponge “Gentleness”

Combination of thread and foam with loop

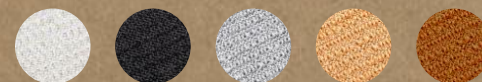

The washcloth has a classic shape and size. It is a foam insert, covered and stitched with a jacquard stocking. It has a loop so you can hang it up and dry it after use. Jacquard is formed by loops of various shapes and sizes.

Can be manufactured in various degrees of hardness: “Soft”, “Hard”. Has high wear resistance. Available in a wide color palette.

Dimensions: 17×4×11 cm

Hardness level: “Soft”, “Hard”

Color palette:

Bath sponge «Mitt»

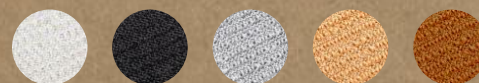

Combination of thread and foam with loop

The washcloth is made in the form of a mitten. Inside there are thin foam inserts and a loop for convenient drying after use. It is made with a slightly narrowed cuff so that the wet product does not fall out of the hand during use. Jacquard stitch geometry combined with different thread combinations. Can be manufactured in degrees of hardness: “Soft”, “Hard”. Has high wear resistance. Available in a wide color palette.

Dimensions: 22×2×20- cm

Hardness level: “Soft”, “Hard”

Color palette:

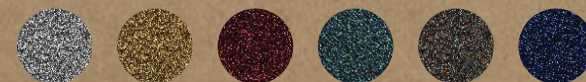

Kitchen sponge “Absolute Champion”

Combination of thread and foam

Thoroughly cleans all types of surfaces and successfully fights even the most stubborn stains. Suitable for Teflon. The shape and thickness of the sponge allow you to penetrate into hard-to-reach places on dishes. For example, it is convenient to wash handles on pots and grills. Upon contact with detergents, it quickly forms a thick foam. Separately, mention should be made of its appearance. Under artificial lighting, the kitchen countertop shimmers like jewelry. Such a washcloth will always be bright and shiny on the work surface, in contrast to a shapeless, dull scraper or dirty foam rubber.

Dimensions: 11×4×10- cm
