TEXPROINN

Moda consciente

Textiles, Projects and Innovation - TEXPROINN- is founded in 2016 establishing textile solutions offer with high added value based on the continuous search for environmental sustainability and social responsibility in processes and products.

¿WHAT DO WE DO?

We research, design, develop, produce, market and distribute highest quality textile solutions for national and international brands.

We build strategic alliances to achieve on-time solutions

Top Quality in manufacturing process and reliable delivery

PRODUCTS AND SERVICES

We offer a specialized textile product portfolio always looking for the best adaptation to the needs of our clients and supporting the development of collections from conception to release to market. For this we have a selection of sustainable textile suppliers premium knitted and woven fabrics, efficient manufacturing processes and finishes such as localized printing, rotary printing, embroidery in industrial machine, crafts, among others..

Our added value thru the processes:

Market and trends research

Sample development for approval and photo for garment technical sheet

Computerized patterns and markers

Optimized fabrics cuts

Methodical search of raw materials and supplies

Quality inspections during the process and final product

Logistics and distribution
