ERKAS GROUP is developing its international trade activities through its "Platimex International" concept, a digital import-export platform for various African products to the rest of the world.

We provide business development to producers, suppliers, importers and exporters in order to achieve their objectives:

- Establishment in a new market
- Prospections
- Finding new customers
- Research of new products
- B2B appointment scheduling
- Creation of client portfolio
- Customer Relations Management
- Digital positioning

**Innovation**

**Continuous improvement**

Finding a reliable supplier, a serious buyer, a trusted distributor for long-term collaborations are the major concerns of players in the international trade industry.

Erkas Group has extensive experience in international trade, particularly in the intermediation, import and export of products (agricultural, agri-food, raw materials, textiles) and materials (construction, household appliances, etc.) between Africa and the rest of the world.

We collaborate with the best import export professionals, export factories, suppliers and support throughout the acquisition process from ordering, purchasing to delivery but also product monitoring.
