

Krendall

dyes, pigments & raw materials

**SOLVENT DYES for
WAXES**

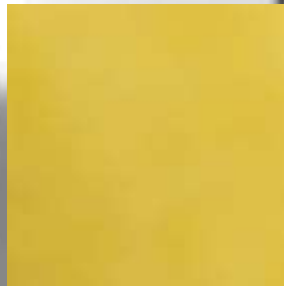

For years, KRENDALL has supplied hues for use in the wax industry. Wax producers, who use our hues to color votive and liturgical candles, are particularly fond of us.

Yet, there are also demands from little artisanal manufacturers who specialize in creating wax things that are subsequently mostly sold at local markets or for special occasions.

Customers can always rely on premium concentrated dyes, an infinite palette of colors mixes, the advantages of ongoing quality checks and investments in R&D that are especially proud of our reality.

GIALLO 015-710
Solvent Yellow 16

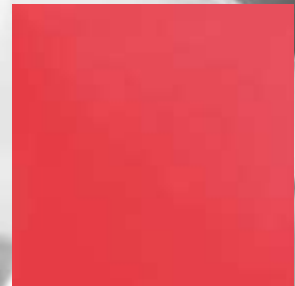

GIALLO 015-145
Solvent Yellow 114

GIALLO 015-404
Solvent Orange 100

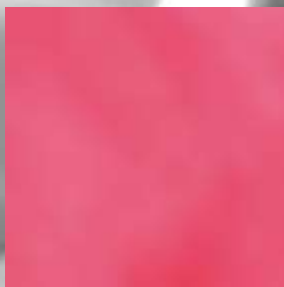

GIALLO 017-270
