HOME

Heaven®, the world's most advanced and largest producer of Himalayan natural salt and its accessories. We are one of the leading Himalayan Salt Manufacturer, Bulk Salt Supplier & Rock Salt Exporter in Pakistan. Our mission is serving global consumers with pure, healthier natural salt.

Why Heaven®

Himalayan Pink Salt is a crystal pure salt that was formed more than 250 million years ago in the Himalayan Mountains. These mountains were formed due to the volcanic eruptions that caused the crust of the earth to move, and the salt, which was settled on the ocean bed, began to rise. As a result, unique pink-colored mineral – Himalayan pink salt rocks were formed.

After Pakistan's independence in 1947, the mines were taken over by the Pakistan Mineral Development Corporation, which also provides mines on rent to Heaven Foods.

Himalayan salt is referred to be the purest salt on the earth. However, from its origin, Pakistan, to the global customers' table, Himalayan salt needs to go through at least 15 basic steps, including mining, sorting, processing, and packaging. It travels more than 12,000 miles across several countries.

Due to the backward economy of Pakistan, old conventional methods and absence of technical knowledge, it's complicated and challenging process to ensure quality and food safety as per global standard.

At present, Heaven® is the Only Company have established a complete supply chain from the Himalayan salt mines to consumers' tables in the world and can provide the Best Quality & Food Safety Solution for Himalayan Salt for global consumers.

Our founder is a Food Technologist along with vast experience of food manufacturing, Auditing and global standards, discovered many critical problems of quality and food safety in the Himalayan salt industry of Pakistan, he devoted himself to change it. He founded Heaven®, a brand dedicated to the world's best natural salt.
