Smart Carbon Heater

Smart Carbon Heater

Who We Are & What We Do

Our company started its activities in the heating and built-in sector in Istanbul. Our company, which is young, dynamic and has so much experience, has gained strength with its R&D experience based on many years. The fact that the products are efficient, aesthetic, ergonomic and environmentalist attracts attention in the European, African and Far East markets.

Our company, which closely follows the developments in the sector in order to make our institutionality and prestige feel more, is expanding its product range through all our designs. In this way, our customer portfolio increases the quality and reputation.

In addition, our use of high quality materials in the production of all our products, especially our carbon heaters, positions our company among the leading manufacturers in the relevant sectors.

LXV Series luxeva

cover

luxeva LXV 2000

Free Standing Thermostat Control Carbon Heater

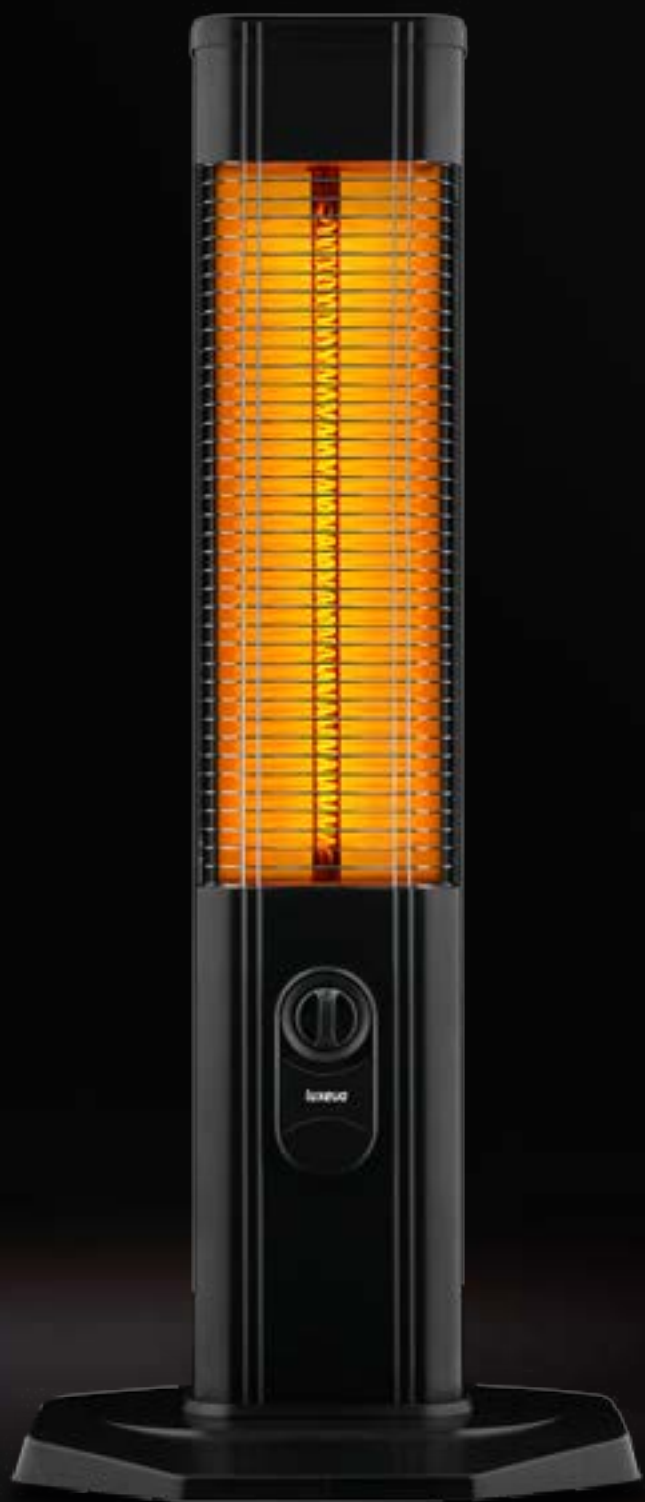

Technical Specifications

Max power	2000 W
Supply voltage	220-240V AC
Frequency	50/60 Hz
Heating area	22m ²
IP Rating	IP 20 (IP44 optional)
Product Dimensions	960x357x405 mm
Box Dimensions	980x159x233 mm
Weight	3,6 kg
Color Options	Black, Silver

luxeva LXV 2500

Free Standing Thermostat Control Carbon Heater

Technical Specifications

Max power	2500 W
Supply voltage	220-240V AC
Frequency	50/60 Hz
Heating area	25m ²
IP Rating	IP 20 (IP44 optional)
Product Dimensions	960x357x405 mm
Box Dimensions	980x159x233 mm
Weight	3,6 kg
Color Options	Black, Silver

luxeva LXV 2000-TS

Free Standing Two Level Carbon Heater

Technical Specifications

Max power	2000 W
Supply voltage	220-240V AC
Frequency	50/60 Hz
Power Settings	1000W / 2000W
Heating area	22m ²
IP Rating	IP 20 [IP44 optional]
Product Dimensions	960x357x405 mm
Box Dimensions	980x159x233 mm
Weight	3,6 kg
Color Options	Black, Silver
