

In our developing country, during a period which service industry gains a new format, we launch a new excitement by combining our capability, technical knowledge and industrial experience for the recent twenty years. With a young and dynamic team, we established a serious infrastructure with raw material support from Germany, the pioneer of the industry in respect of knowledge and experience.

In addition to well-known brands, our industry prefers for creating a consumption-based hygiene awareness with the scent psychology. MOTTO BLANC adopted the mission to find the ways how we purchase QUALITY by combining right equipment and application methods in parallel to product consumption as much as right product for the right ground and surface. Finally, we became a candidate to provide a Solution Partnership not of words but of deeds. Developed for housekeeping with this understanding, KANGAROO system, cleaning system facilitating mop and utilization systems, supporting floor equipment and apparatuses are launched as a part of our service understanding.

A MOTTO BLANC, innovative and constantly renewing, committed to sustainability principle, loyal to an understanding for producing products respecting the environment and community... Always our top priority is CUSTOMER SATISFACTION!

Your Satisfaction is Our Satisfaction.

MOTTO FORTE

Alkali Industrial Cleaner

Low-foaming, active alkali cleaner with special active contents. Removes stains such as motor oil, grease oil, smut, accumulated dirts, graphites and exhaust gas. In addition, it is appropriate for oil removers. It is suitable for use on all water-alkali resisted surfaces in the industrial areas such as concrete or clinker floored factory and workshops, hangar roofs made up of wired glass, metro or floors and wall tiles in subway or underground stations. Moreover, it is useful for cleaning garbage container and garbage boxes. It must not be used on the finished grounds and on linoleum, rubber and aluminum.

DOSAGE

MOTTO RUST CARE

Motto Automate Cleaning / Industrial Cleaning

Motto Rust Care is low-foaming exclusive cleaner produced for removing the mineral oils, exhaust gas stains and soot stains caused by fire. Matta Rust Care must be diluted with water when it is used in wet or high compress-cleaning. It is used for cleaning of machinery and equipment without dilution. Bright metal pieces (iron, silver finishing etc.) They do not get rusted after having cleaned with Matta Rust Care. In addition, it is appropriate for oil removers. It is especially suitable for using on all water and alkali-proof surfaces in industrial buildings and assembly workshops. Moreover, it can be used on the lacquer or non-lacquer metal surfaces such as assembly ramps, turning and die-cutting lathes with surface cleaning after the damage caused by fire.

SANITARY AREA CLEANING / WC HYGIENE

SANDX MAX

Bath and Toilet Cleaning Product for Lavatory, Armatures - Fruit Acid and Apple Odour

SANOX MAX cleans and cares acid-resistant surfaces and flooring on sanitary areas (wc, bath, shower areas). By protecting material, it cleans limes, oil dirts, urea stones hygienically strongly and rapidly and used especially on the fountains, lavatories, shower cabin, bath tubs,water-closet and its surrounding, acid-resistant ceramic floors and wall-floor-joints. With its elegant nice perfume, it can be used problem-free in very hot sanitary areas, for example in nursing home, hospitals, indoor swimming pools. SANOX MAX does not contain dye admixtures, therefore does not leave dye residuals on the materials with open pores. It carries red color code in order to avoid confusions. It must not be on materials such as marble, artificial stone and acid-sensitive materials. You may perform a correct dosing by attaching dosage head (20 ml) apparatus to the mouth of product bottle.
