

STANIĆ inc.

Fruits of Life

A decorative border of fresh berries and mint leaves frames the central text. The border includes raspberries, blueberries, blackberries, and small red berries, all accompanied by sprigs of green mint leaves. The background is a light, textured surface.

About us

Since the day of planting our first raspberry orchard 50 years ago, in the '70s, to nowadays modern facilities for deep freezing, processing and packing of wide range of fruits offered to the market, Stanic family always worked hard on recognizability, quality improvement and sustainability of supply chain of raspberries from Zlatibor region. We went through long and hard journey from small raspberry farmers up to the well know processors, employing 400 people, with two GFSI, Organic, Kosher, Halal, Smeta certified, as well as two HACCP certified facilities, total storage capacity of 22 000 tns, in-house laboratory in process of accreditation and in-house transport company in ownership to be able to offer all in one place service worldwide.

Cooperation with farmers:

Large share of our success we owe to our farmers, who are supplying us with fruits of the highest quality for years. We are very proud to gain their trust and to become recognizable as region leaders, in terms of success and investments in development not only our company but also our farmers. By following of growing of each fruit from planting up to the finished product. During entire production path we are there to give them support by providing plant material, sampling and soil testing in our in-house laboratory,

agricultural engineers expertise in their own orchards by following plants growing, blooming, formed fruits and crop. Thanks to the continuous cooperation and decades of investments in different raspberry varieties, we have established long-term partnership and trust with our farmers in whose education and agricultural technologies improvement we are investing permanently.
