# About us

"Future Elixir Company" is one of the leading companies in production and processing of herbal and mushrooms with medicinal and food application in the Middle East. One of our most important goals is achieving a new level of quality, variety and service of our products. Based on the experience, success and perfect feedback since 2015 we have gained from the market of our products, we decided to create a business alliance with "Vendorrado Export Management Company" in order to enter the global market. During this business relationship Vendorrado EMC is responsible for international supply and export of Future Elixir products as a specialist and active company in the field of export, marketing and international trade, as an independent export department. We have done our best to provide the most complete package of products and sales services to our customers around the world.

Herbal Store
