About Us

Hebei Mubang New Materials Technology Co.,Ltd is a professional large-scale manufacturer of various types of plastic bags and films,located in the east Development zone of Dongguang City,nearby Beijing city and the coastal city of Tianjin. With its good location, convenient transportation is available.Our company is a plastic packaging manufacturer integrating R&D, design, production and sales.Since 2012, we has been engaged in the plastic packaging industry, focusing on the production of plastic packaging for 11 years.

关于我们

河北慕邦新材科技有限公司是一家专业生产各类塑料袋和薄膜的大型企业，位于东光县东部开发区，毗邻北京和沿海城市天津。地理位置优越，交通便利。我公司是一家集研发、设计、生产、销售为一体的塑料包装生产企业。自2012年以来，我们一直从事塑料包装行业，专注于塑料包装生产11年。

Dedicated and Professional 敬业和专业

Our company with advanced production equipment, years of flexible packaging production experience, scientific management mode, can produce a variety of plastic, coated plastic, aluminum plating, aluminum foil, EVA composite food packaging.

我公司拥有先进的生产设备，多年的软包装生产经验，科学的管理模式，可生产各种塑料、覆膜塑料、镀铝、铝箔、EVA复合食品包装。

Project background

Real Manufacturer- Flexible Packaging

The company now has a high specification dust-free purification workshop, purification machine up to more than 100,000 levels. The finished product workshop is equipped with several high-speed slitting and multiple high-precision bag making machines, which can achieve a daily output of 50 tons of roll films and 3 million bags per day. 公司现拥有高规格无尘净化车间，净化机可达10万余级。成品车间配备多台高速分切和多台高精度制袋机，可实现卷膜日产量50吨，袋日产量300万袋

产 品

Aluminum Foil Bag 铝箔袋

Thickness: 70 ~ 180 Micron bag shape: three-sided seal self-supporting zipper bag yin and yang bag

Aluminum foil bag (anti-static aluminum foil bag aluminum foil packaging bag) product features appearance:

opaque silvery white with anti-luster with good barrier heat sealing light shielding high temperature resistance low temperature resistance oil resistance and fragrance retention; Non-toxic and tasteless;

Softness and other characteristics

Product structure: PET/AL/PET/PE .Products with different composite materials and thicknesses can be customized according to requirements .

Storage ambient temperature & le: 38 °C humidity & le; 90% & nbsp;

Product specifications routine: thickness 0.10 mm and 0.14 mm three-sided sealing edge 10mm product specifications and sizes can be customized according to customer requirements.

Good Quality & Reasonable Price

产 品

简介：铝箔袋又称纯铝袋

袋型:三面密封自支撑拉链袋阴阳袋

铝箔袋(防静电铝箔袋铝箔包装袋)产品特点外观:不透明的银白色, 具有防光泽, 具有良好的阻隔性、热封性、遮光性、耐高温性、耐低温性、耐油性和保香性;无毒无味;
产品结构:PET/AL/PET/PE可根据要求定制不同复合材料及厚度的产品。

储存环境温度和湿度:38°C;90% & nbsp

产品规格常规:厚度0.10 mm和0.14 mm三面封边10mm产品规格尺寸可根据客户要求定制。

Beverage Packaging 饮料包装

Drinks are indispensable in our daily life. From its previous bottles to the present market, more and more plastic beverage packaging bags can be found that the market share of beverage packaging bags is getting higher and higher, and it is also favored by customers more and more. This is not only because of the convenience of the beverage packaging bag, but also because of the variability of its shape and the diversity of printing colors, which makes the beverage packaging bag not only practical, but also beautiful and artistic. A suction nozzle, a self-supporting effect, vivid printing and various shapes. This is the unique shape of most beverage packaging bags.

简介：饮料在我们的日常生活中是必不可少的。从它以前的瓶子到现在的市场，通过越来越多的塑料饮料包装袋可以发现，饮料包装袋的市场份额越来越高，也越来越受到顾客的青睐。这不仅是因为饮料包装袋的便利性，还因为它形状的可变性和印刷颜色的多样性，这使得饮料包装袋不仅实用，而且美观。一个吸嘴，具有自支撑效果，印刷生动，造型多样。这是大多数饮料包装袋的独特形状。

Liquid bag 液体包装袋

Juice pouch 果汁袋

Cereal Packaging粮食包装

Material:①PET+BOPA+LDPE; ②BOPA+LDPE;
③Customize

材料:①PET+ BOPA +低密度聚乙烯;②BOPA +低密度聚乙烯;③定制

Packaging type: A.Octagonal seal、C.Vacuum bag、
D.Four-sided seal

包装类型:A、八角封B、真空袋C、四面密封

Content items: rice, flour, beans, etc.

适用于:大米、面粉、豆类等。

Suitable for all rice 适用于所有大米

Advantages: Three-dimensional molding, self-standing molding, puncture resistance, air barrier performance, strong oxidation resistance, waterproof and moisture resistance, etc. It has the characteristics of beautiful appearance, convenient eating and increased shelf life of products, etc. It is especially suitable for vacuum packaging of coarse cereals, flour, small foods and other products.

This rice vacuum bag is made of nylon composite polyethylene plastic bag transparent non-toxic tasteless food-grade packaging vacuum bag. This material artificial bag can keep vacuum time for a long time without leaking air prolonged food shelf life. Quality assurance.

优点:立体成型、自立成型、抗穿刺、空气阻隔性能强、抗氧化、防水防潮等。具有外形美观、食用方便、延长产品保质期等特点。特别适用于粗粮、面粉、小食品等产品的真空包装

这款大米真空袋是由尼龙复合聚乙烯塑料袋制成的透明无毒无味食品级包装真空袋。这种材料的人工袋能长时间保持真空状态而不漏气，延长食品的保质期。

Condiment Packaging 调味品包装

High barrier property, oil resistance, shading, fragrance preservation, high peel strength, unique design, brand-new printing process, outstanding pattern design and trademark effect, special trademark or pattern can be designed to play a good anti-counterfeiting effect. It can highlight the grade of products and the distinctive shelf effect. Products meet the requirements of environmental protection. The whole process is printed with food-grade environmental protection ink.

1·Packing type: A. Suction nozzle bag B. Three-sided seal C. Self-supporting bag D. Octagonal seal

2·Content items: hot pot bottom material/soup seasoning package tomato sauce oil sauce vinegar hot pot bottom material, etc.

3·Material structure: ①PET+AL+LDPE/RCPP; ②PET+AL+BOPA+RCPP/LDPE; ③BOPA+LDPE/RCPP; ④Customize

4·Color selection: 1—10 colors

5·Printing execution standard: executing printing GB/T20439 National QS Certification System Standard

6·Specification size: According to the actual needs of customers.

Condiment Packaging调味品包装

简介：高阻隔性、耐油、遮阳、保香、高剥离强度、独特的设计、全新的印刷工艺、突出的图案设计和商标效果，可以设计特殊的商标或图案，起到良好的防伪效果，可以突出产品的档次和独特的货架效果产品符合环保要求。全程采用食品级环保油墨印刷

- 1.包装类型:A.吸嘴袋B.三面密封C.自托袋D.八角形密封
- 2.内容项目:火锅底料/汤调味包番茄酱油酱醋火锅底料等
- 3.材料结构:①PET+AL+ LDPE / RCPP;②PET+AL+ BOPA + RCPP /LDPE;③BOPA + LDPE / RCPP;④定制
- 4.颜色选择:1-10种颜色
- 5.印刷执行标准:执行印刷gb /T20439国家QS认证体系标准
- 6.规格尺寸:根据客户的实际需要

Detergent Bag液体洗涤剂袋

The company mainly produces all kinds of food packaging, daily necessities packaging, animal food and medicine packaging and functional packaging products with various special properties. We have four high-speed printing production lines of BOBST/ULTRAMAR and other international brands. The printing speed is 400m/min and 10-color printing can meet the printing quality requirements of different customers.

公司主要生产各类具有各种特殊性能的食品包装、日用品包装、动物食品和药品包装及功能性包装产品，拥有BOBST/ULTRAMAR等国际品牌高速印刷生产线4条。印刷速度400米/分，10色印刷，可满足不同客户的印刷质量要求。

Packing type: A. Three-sided seal B. Self-standing bag C. Pillow bag D. Suction nozzle bag

包装型式:A.三面密封B.自立袋C.枕袋D.吸嘴袋

Contents: Mask, shampoo, laundry detergent, essence, washing powder, etc.

产品内容:面膜、洗发水、洗衣液、精华液、洗衣粉等。

Material combination:①MOPP+PET/AL+LDPE/CPP;

②PET+AL+PET+CPP/LDPE; ③BOPP/LDPE; ④Customize

材料组合:①MOPP + PET / AL + LDPE / CPP;②PET+AL+PET+ CPP /LDPE;③BOPP /LDPE;④定制

High Temperature Cooking Food 高温蒸煮食品包装

The cooking packaging bag is described as follows:

- 1、 Packing type: A. Vacuum bag B. Three-sided seal C. Four-sided seal D. Pillow bag
- 2、 Contents and items: cooking package, chestnut packaging, hot pot bottom material, braised meat products, prefabricated vegetables, etc.
- 3、 Material: ①BOPA+RCPP; ②BOPA+AL+LDPE; ③PET+BOPA+RCPP; ④PET+AL+BOPA+RCPP; ⑤Customize
- 4、 Printing process: Gravure printing
- 5、 Printing ink: benzene-free and ketone-free ink
- 6、 Features: Moisture-proof, light-proof, puncture-resistant, cooking-resistant, high-barrier, beautifully printed, and good shelf display effect
- 7、 Minimum order quantity: according to the actual product specifications of customers.

简介：烹饪包装袋的描述如下：

- 1、 包装类型:A.真空袋B.三面封C.四面封D.枕袋
 - 2、 内容及项目:烹饪包装、板栗包装、火锅底料、红烧肉制品、预制蔬菜等。
 - 3材质:
 - ①BOPA+RCPP;
 - ②BOPA+AL+LDPE;
 - ③PET+BOPA+RCPP;
 - ④PET+AL+BOPA+RCPP
- 印刷工艺:凹版印刷
- 5、 印刷油墨:无苯、无酮油墨
 - 6、 产品特点:防潮、防光、防刺、耐煮、高阻隔、印刷精美、货架展示效果好
 - 7、 起订量:根据客户的实际产品规格

Pet Food Packaging 宠物食品包装

1. Packing type: A. Self-standing bag B. Octagonal seal C. Trilateral seal D. Pillow bag
2. Applicability: Cat food, dog food, cat litter, dry/wet food, etc.
3. Material: ① PET+AL+BOPA+RCPP; ② PET+BOPA+CPP/PE; ③ PET+VMPET+LDPE; ④ Customize
4. Specifications: 100g, 250g, 500g, 3kg, 5kg Pet food packaging bag 10kg pet food packaging bag pet food packaging bag use pack
5. Printing technology: Gravure printing
6. Printing ink : Benzene-free and ketone-free ink
7. Color: 0 ~ 9 colors.
8. Features: moisture-proof, light-proof, oxygen-proof, stretching resistance, no peculiar smell and exquisite printing
9. Minimum order quantity: according to the actual specifications of customers' products.

- 简介: 1.包装类型:A.自立袋B.八角封C.三边封D.枕袋
2.适用范围:猫粮、狗粮、猫砂、干/湿食品等。
3.材料:①PET+AL+ BOPA + RCPP;②PET+ BOPA + CPP / PE;③PET+ VMPET +LDPE;④定制
4.规格:100g、250g、500g、3kg、5kg宠物食品包装袋10kg宠物食品包装袋宠物食品包装袋使用包装
5.印刷工艺:凹版印刷
6.印刷油墨:无苯、无酮油墨
7.颜色:0 ~ 9种颜色。
8.特点:防潮、防光、防氧、抗拉伸、无异味、印刷精美
9.起订量:根据客户产品的实际规格

Packaging Roll Film 包装卷膜

Product features: High barrier property, oil resistance, shading, fragrance preservation and freshness preservation can be tailored according to the size of the product. The delivery cycle is shorter than that of bag making, and the cost is lower than that of bag making. Products meet the requirements of environmental protection. New printing process highlights pattern design and trademark effect. Special trademarks or patterns can be designed to play a good anti-counterfeiting effect. It can highlight the high-grade and distinctive shelf effect of products.

1·Printing implementation standard: Implement the national QS certification system standard of printing GB/T20439

2·Specification size: According to the actual needs of customers

3·Application distribution: It is suitable for all kinds of automatic packaging machinery products including food, daily chemicals, medicine, electronic hardware parts and other industrial packaging

4·Packaging type: roll film

5·Content Items: Milk Film Food Packaging Film

6·Material combination: All materials are available

简介: 产品特点:阻隔性高、耐油、遮阳、保香、保鲜可根据产品尺寸定制。交货周期比制袋短, 成本比制袋低, 产品符合环保要求。

新的印刷工艺突出图案设计和商标效果。可以设计特殊的商标或图案, 起到很好的防伪效果, 可以突出产品的高档、有特色的货架效果。

1、印刷执行标准:执行国家QS认证体系印刷标准GB/T20439

2·规格尺寸:根据客户的实际需要

3·应用分布:适用于食品、日化、医药、电子五金件等各类自动化包装机械产品的工业包装

4·包装类型:卷膜

5·内容项目:牛奶薄膜食品包装膜

6 .材料组合:所有材料均可

Snack Food Packaging休闲食品包装

The product has high barrier property, oil resistance, shading, fragrance preservation and freshness preservation, which can be tailored according to the size of the product.

Products meet the requirements of environmental protection. New printing process highlights pattern design and trademark effect. Special trademarks or patterns can be designed to play a good anti-counterfeiting effect.

It can highlight the high-grade and distinctive shelf effect of products.

Printing implementation standard: Implement the national QS certification system standard of printing GB/T20439.

Specification size: According to the actual needs of customers.

Packing type: A. Three-sided seal B. Eight-sided seal C. Four-sided seal D.

Pillow bag

Content items: potato chips/popcorn snacks/snack biscuits/cakes and nuts/dried fruits, etc.

Material combination:①BOPP+VMCPP/CPP; ②PET+VMPET+LDPE;
③BOPA+LDPE; ④PET+CPP; ⑤BOPP+VMPET+LDPE; ⑥Customize

Snack Food Packaging休闲食品包装

简介：产品特点:产品阻隔性高，耐油、遮阳、保香、保鲜，可根据产品尺寸量身定做

产品符合环保要求。新的印刷工艺突出图案设计和商标效果。可以设计特殊的商标或图案，起到很好的防伪效果

它可以突出产品的高档和独特的货架效果

印刷执行标准:执行国家QS认证体系印刷标准GB/T20439

规格尺寸:根据客户的实际需要

包装类型:A.三边封B.八边封C.四边封D.枕袋

内容项:薯片/爆米花零食/零食饼干/蛋糕坚果/干果等。

材料组合:①+ VMCPP BOPP / CPP;②PET+ VMPET +LDPE;③BOPA +LDPE;④PET+ CPP;⑤BOPP + VMPET +LDPE;⑥定制

Spout Bags吸嘴袋

Compared with common packaging forms, the biggest advantage of suction nozzle bag lies in portability. The suction nozzle bag can be conveniently put into a backpack or even a pocket, and can be reduced in size with the reduction of contents, which is more convenient to carry. At present, the packaging of soft drinks in the market is mainly in the form of PET bottles, composite aluminum paper wrapped cans. Today, Suction Nozzle Bag combines the repeated packaging of PET bottles and the fashion of composite aluminum paper bags.

Contents and items: soy milk, drinks, dairy products, various sauces, etc.

Material combination: All materials are available

Our company specializes in producing self-supporting bag suction nozzle. Complete variety of suction nozzles for self-supporting bags. Have 9+ years professional experience. Stable and reliable quality products include food series: soybean milk, jelly, juice, milk, white sugar, white wine, edible oil and so on; Daily chemical series: laundry detergent, hand sanitizer, detergent mask and so on; Electronic engineering series: toner, ink, gasoline and so on.

Spout Bags吸嘴袋

与常见的包装形式相比，吸嘴包最大的优点在于便携性，吸嘴包可以方便地放入背包甚至口袋中，并且可以随着内容物的减少而缩小尺寸，更方便携带。目前市场上软饮料的包装形式主要是PET瓶、复合铝纸包装罐。如今，吸嘴袋结合了PET瓶的重复包装和复合铝纸袋的时尚。

产品种类:豆浆、饮料、乳制品、各种酱料等。

材料组合:所有材料均可

我公司专业生产自持袋吸嘴，品种齐全的自持袋吸嘴，有9年以上的专业经验。质量稳定可靠的产品包括食品系列:豆浆、果冻、果汁、牛奶、白糖、白酒、食用油等;日化系列:洗衣液、洗手液、洗涤剂面膜等;电子工程系列:碳粉、油墨、汽油等。

Ziplock Pouch拉链袋

Invisible zipper bag is also called bone zipper bag

Invisible zipper bag is generally a composite flexible package composed of polypropylene OPP polyester PET nylon matte film aluminum foil tape casting polypropylene polyethylene kraft paper and even woven bags (usually 2-4 layers).

Invisible zipper bags can be widely used in industrial packaging, daily chemical packaging, food packaging, medicine and health, electronics, aerospace, science and technology, military and other fields;

Invisible zipper bags are generally aluminum-plastic composite bags, which are a variety of packaging advantages in one packaging product with low cost and exquisite printing; This product has the characteristics of anti-static, anti-ultraviolet, moisture-proof, oxygen-proof, shading, cold-resistant, oil-resistant, high-temperature-resistant, fresh-keeping, oxygen-proof and easy sealing;

Featured products are: Kraft paper zipper bag, aluminum composite zipper bag, aluminum-plastic self-supporting zipper bag, electrostatic shielding zipper bag, grid electrostatic zipper bag, anti-vibration electrostatic zipper bag, electrostatic aluminum plating zipper bag and various daily chemical zipper bags, etc.

Content items: nuts, dried fruits, dried seasonings (dried tangerine peel, pepper aniseed), leisure snacks, etc.

Material combination: All materials are available

Ziplock Pouch拉链袋

简介：隐形拉链袋又称骨拉链袋

隐形拉链袋一般是由聚丙烯、OPP、聚酯PET、尼龙、哑光膜、铝箔胶带铸造聚丙烯、聚乙烯、牛皮纸和均匀编织袋(一般为2-4层)组成的复合软包装。

隐形拉链袋可广泛应用于工业包装、日化包装、食品包装、医药卫生、电子、航空航天、科技、军事等领域;

隐形拉链袋一般为铝塑复合袋，集多种包装优势于一体的包装产品，成本低，印刷精美;本产品具有防静电、防紫外线、防潮、防氧、遮阳、耐寒、耐油、耐高温、保鲜、防氧、易密封等特点;

特色产品有:牛皮纸拉链袋、铝复合拉链袋、铝塑自托拉链袋、静电屏蔽拉链袋、栅格静电拉链袋、防振静电拉链袋、静电镀铝拉链袋及各种日用化工拉链袋等。

内容项:坚果、干果、干调味料(陈皮干、胡椒大料)、休闲零食等。

材料组合:所有材料均可。

Stand Up Bag自立袋

Our company is a specialized manufacturer of high-end composite packaging bags. This product is an aluminized self-supporting bag with good shelf display effect. It is characterized by:

- 1、Content items: snack food, dried fruit food, snacks, coffee, tea, etc.
- 2、Material combination: All materials are available
- 3、High barrier property and good taste retention
- 4、Good shelf display effect
- 5、Printing with benzene-free and ketone-free ink has good environmental protection

简介：我公司是一家专业生产高档复合包装袋的厂家。本产品是一种镀铝自持袋，货架展示效果好，特点是：

- 1、内容项目:休闲食品、果干食品、零食、咖啡、茶等。
- 2、材料组合:所有材料均可
- 3、阻隔性高，口感保留性好
- 4、货架展示效果好
- 5、无苯、无酮油墨印刷，环保性好

Green Silage Film 牧草青储膜

Green silage film is a thin film material specially used for storing grass. Compared with the traditional ordinary film, the green silage film is more wear-resistant, anti-aging, and has better fresh-keeping effect. It can effectively block oxygen and reduce water loss in the grass, thus delaying the rate of decay of the grass and maintaining its freshness and nutritional value. In addition, the green silage film has good permeability, which can maintain internal humidity, avoid mold breeding, and further improve the quality of grass.

牧草青储膜，是专门用于储存牧草的一种薄膜材料。与传统的普通薄膜相比，牧草青储膜更加耐磨、抗老化，并且具备更好的保鲜效果。它能够有效封闭氧气，减少牧草中的水分流失，从而延缓牧草的腐烂速度，保持其新鲜度和营养价值。此外，牧草青储膜具有良好的透气性，能够保持内部湿度，避免霉菌滋生，进一步提高牧草的质量。
