

BERRI ADVANCED COCO COIR MULCH MAT

 www.berricococoirsubstrate.com

We at BERRI COIR SUBSTRATE guarantee promised expansion and EC for our products.

- Mulch mat also called as coco tree rings can absorb and retain water up to 5 times its own weight.
- It is a herbicide by itself and source of manual weeding.
- Being bio-degradable it decomposes over time to form humus and further helps in the plant's growth.
- The advantages of mulch mat: decreases evaporation of water from pot. Holds moisture, keeping the potting mix moist. Covers the top layer of potting mix, giving the pot a cleaner look. It can be cut into smaller size for smaller pots .

| Size | Raw Material | Life Time | Used For | Shipment | Private Labeling |

BERRI ADVANCED COCO SEED PELLETS, COCO COINS, NET PLUGS

 www.berricococoirsubstrate.com

We at BERRI COIR SUBSTRATE guarantee promised expansion and EC for our products.

- Coco peat Coins are made from 100% bio degradable high class coco coir.
- Coco Coins have a neutral pH, typically ranging from 5.5 to 6.5, which is ideal for most plants
- Coco pellets are convenient to handle and using for seed germination and seedling
- Coco coins covers with air pruning netted cloth as shown in the product image.
- Drop the Coco coins expand several times when it is soaked in water then make the small hole and place the seed and cover with coir.
- Water regularly until seed germinates
- Coco coins retain the moisture for longer time and improves the germination percentage.
- Using Coco Peat coins gives better and faster germination.
- After few days of transport the sapling into bigger container.
- Seedlings in coco pellets can be easily transplanted without disturbing the plants root system.

BERRI ADVANCED COCO HUSK CHIPS BLOCK

www.berricocoirsubstrate.com

We at BERRI COIR SUBSTRATE guarantee promised expansion and EC for our products.

BERRI Coconut HUSK CHIPS is COST EFFECTIVE growing medium for hydroponic applications, container gardens, and pots.

It is free from pathogens, stones, weed seeds, and harmful microorganisms.

Coco coir is likewise extraordinary for indoor plants, particularly for soil less planting.

They are mixed with coco peat or added to potting soil to regulate the aeration of growing plants and maintain the ideal air-to-moisture ratio for plant. Desirable aeration helps the plant roots to be supplied with the necessary amount of oxygen thereby growing healthy.

BERRI TRIBLE WASHED COCO PEAT

 www.berricococoirsubstrate.com

We at BERRI COIR SUBSTRATE guarantee promised expansion and EC for our products.

- BERRI trible washed Cocopeat is very environmentally friendly and can be reused multiple times up to 6 years
- High capacity for moisture retention and multi-purpose growth medium for all types of plants
- BERRI growing medium have High cation exchange capacity
- Boosts soil buffering capacity and Improves soil aeration
- Mostly tolerant to pH variations
- Can buffer water soluble nutrients
- It is free from pathogens, stones, weed seeds, and harmful microorganisms.

BERRI Advanced OPEN TOP GROW BAG WITH COCO COIR SUBSTRATE

www.berrricocoirsubstrate.com

Advantage of BERRI grow bags

With their porous exterior surface, grow bags have superior ventilation, temperature control, and water drainage abilities.

Berry coir grow bags have Organic, biodegradable and environmentally friendly substrate.

Balanced and stabilized pH levels, with extremely low potassium and sodium contents, suitable for different crops

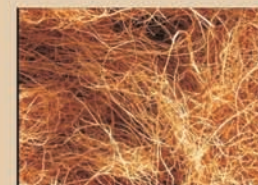

Packed in high density, co-extruded plastic bags, black inside and white outside.

High cation exchange capacity (CEC) helps plants absorb necessary nutrient,

High air-filled porosity (AFP) provides good medium structure ,

- Desirable aeration helps the plant roots to be supplied with the necessary amount of oxygen, thereby growing healthy.
- It is UV treated for 2 – 3 years.
- Minimizes transplant shock.
- Rapid and denser rooting.
