Organizing and managing related service groups in this respect.

j- Creating maps of status (current), cadastral, underground mine pits, seabed, tunnels and dams as well as road and water and sewage pipelines. Doing subdivision plans.

k- Doing rehabilitation and zoning plans as well as their implementations. l- Doing all kinds of stabilization, calculation, typing and drawing related to the subject.

### 3- BUILDING MATERIALS

a- Production, trade, import and export of building materials (iron, steel, copper, nails, aluminum and products, bricks, fire brick, roof tiles, plaster, cement, tiles, ceramic tiles, vinyl, etc.).

b- Trade, import and export of all building material used in construction work such as iron, steel, copper, nails, aluminum and products, bricks, fire bricks, roof tiles, lime, joinery, plaster, cement, furnace sand, marble, mosaics, tiles, ceramic, sanitary ware, vinyl, floorboard, armatures, PVC pipes and connecting pieces, clean water pipes and connecting pieces, isolation material, wall paper, paint, bathroom and kitchen accessories, prefabricated doors, stairs and all electrical materials.

### 4- ELEVATORS

a- Assembling, complete production, trade, maintenance, technical service, revision, refurbishing work, troubleshooting work of all kinds of elevators as well as sub-contracting, contracting, import and export of these works.

b- Doing or sub-contracting of assembling, trade, production, revision, maintenance and repair service work of escalators and convector belts.

c- Trade of electrical and electronic devices related to its subject and doing service and maintenance work of electric wiring and assembling.

d- trade, installation, maintenance and repair of electrical security systems related to its subject.

### 5- FOOTWEAR

a- production, wholesale and retail trade, import and export of all kinds of female, male, children sport shoes, boots, all kinds of rubber, plastic, leather shoes, slippers, boots, bags, suitcases, belts, wallets and all clothing of leathercraft commodities. To set up industrial and commercial facilities both domestically and abroad.

b- Buying, selling, import and export of all equipment, raw material, product and material related to its subject

c- Trade, export and import of all machinery related to its subject.

d- Production, wholesale and retail trade, distribution, import and export of all kinds of polyurethane, PVC sole and molds used in shoe and slipper production.

- e- Production, wholesale and retail trade, distribution, import and export of all kinds of shoe soles, leather, rubber, gum and all types of percalines, accessories, buckle, lace, toe box, wigan, etc. used in shoes as well as heels, heel molds, welts.
- f- Production, marketing, import and export of all kinds of female and male bags, wallets, portfolio and belts.

#### 6- HERBS – SPICES – DRIED NUTS & FRUITS

- a- Buying, selling, import and export of all kinds of spices, legumes, medicinal herbs, tea, dry coffee, coffee beans, instant coffee, milk powder, sugar, cream, coffee milk, Turkish coffee, dried nuts and fruits and spices, seeds, sunflower seeds, hazelnut, pistachio and similar dry nut varieties and snacks as well as coffee and side products, cacao and similar products. Processing, roasting, grinding, packaging and boxing and distribution of these products.
- b- Production of food products out of coffee, cacao and similar material and domestic / international wholesale, retail sale of these products and well as export.
- c- Wholesale and retail trade, production, import and export of all kinds of dried nut and fruit products.
- d- Trade, production, import and export of all kinds of spices and herbs.
- e- Trade, marketing and distribution of all kinds of medicinal herbs both domestically and internationally.
- f- Trade, import and export of all kinds of seeds, raw coffee, granular coffee, cacao and coffee creams and all kinds of tea.
- g- Roasting of coffee in the machines, grinding the roasted coffee in the mills until it is in powder form and packaging the end product.

#### 7- GARDEN CULTURES

- a- Building greenhouses and growing flower bulbs, flowers and all kinds of decoration plants in these greenhouses.
- b- Production of seedling, shoots, seeds, feed and additives.
- c- Buying and selling of land (land trade)
- d- Doing and sub-contracting landscaping work related to garden designing both domestically and internationally. Trade, import and export of materials used in this respect and preparation or sub-contracting of projects, running studies and giving consultancy within the scope of designing.

#### 8- PUBLIC WORKS CONTRACTOR

- a- Undertaking all underground or overground public work services of apartments, institutions or organizations within the scope of general affiliated or private budgets as well as building highways, railroads, channels, bridges, tunnels, grills, harbors, ports, pools, dams, retaining walls, stream-flow regulation, watering systems both domestically and internationally.
- b- Company can commit to construction of public works such as roads, bridges, dams, harbors, schools, mass housing and hospitals as well as industrial and touristic facilities both domestically and internationally.
- c- Preparing projects on all kinds of solid waste management and recycling as well as their management, maintenance and repair. Developing alternative heating and cooling technologies and water system technologies from waste as well as building up related facilities and doing their project designing and management.

#### 9- COMPUTER, OFFICE EQUIPMENT AND STATIONERY

- a- Trade, import, export of computers as well as doing assembling, repair, maintenance and service of these equipment.
- b- Production, trade, import, export and assembling of all types of computer spare parts.
- c- Trade of all types of computer supplies, writing software and obtaining software license.
- d- Inland trade, import and export of all brands of computer and computer hardware as well as offering all types of computer and side hardware units, microfilm, fax and similar information systems, industrial office automation, all software and hardware operational services and office services. Providing all types of information, sound and imaging service through internet, designing or sub-contracting the designing of web pages and serving as internet service provider.
- e- Production, wholesale and retail trade, distribution, import and export, assembling, service of all brands of computers and sub microprocessors as well as accessories, hardware, unit parts and spare parts of information recorder, saver, printer, plotter, transmitter, projector, converter and interpreter devices.

f- Building up data processing centers, providing the connection of these centers with national and international data networks.

g- Doing data preparation, repair, editing processes or services; selling, renting and publishing them through internet

h- Providing all kinds of computer system, software and hardware support and consultancy services.

i- Production, wholesale and retail trade, distribution, import, export, assembling and maintenance of raw material, semi-product system unit parts and spares as well as all appropriate products and semi-product parts systems and units that can be controlled by computers and adaptable to future technologies required for the production, wholesale and retail trade, distribution, import, export, assembling and maintenance.

1- Assembling of computer systems and trade, distribution, import, export and assembling of all types of electric electronic hardware required for this purpose.

j- Production, wholesale and retail trade, distribution, import and export of computer machinery, hardware, software and systems as well as disc, floppy disc, magnetic bands, printer ribbon, cartridge and similar computer consumables and information technologies.

k- Preparing feasibility reports to public, private and corporate institutions concerning their computer choices as well as providing engineering, consultancy, support and service.

l- All kinds of school material routinely sold at stationaries and equipment such as fax, xerox machine, blue print machine, manifold, calculator.

#### 10- PAINT

a- Production, wholesale and retail trade, import and export of all kinds of paint and paint equipment, chemical agents, construction chemicals, varnish and thinner.

b- Domestic and international production, trade, import and export of all types of raw material, semi-product and finished products, paints, chemical material and chemical preparations related to carpet, rug, blanket, pillow and hall rug as well as all types of textile and textile products, leather products and all kinds of fabric, weaving, thread, fiber and all kinds of inner and outer clothing.

c- Production, wholesale and retail trade, distribution, import and export of all types of powder and wet paint, natural, synthetic and metallic paints, undercoat, flat paint with or without silicone, inner and outer surface wood, metallic and plastic paints used in production, trade and service sector as well as end-user consumption.

#### 11- OFFICE CLEANING

a- Providing or sub-contracting all kinds of cleaning work related to public and private institutions, homes, office blocks, business centers, mass housings, private buildings, hospitals, social facilities, schools, touristic facilities and inner and outer buildings of hotels and motels, their gardens and boiler rooms as well as personal or corporate entities.

b- Doing or sub-contracting the environmental cleaning and insect, reptile and rodent pest control and disinfection as well as providing cleaning material and equipment, personnel recruitment and labor control.

#### 12 – GLASS

a- Production, wholesale and retail trade, distribution, import and export of all types of glass and glass products, plain glass of all thicknesses and dimensions, double glazing glass, wire glass, frosted glass, colored glass, window and display glasses, car glass and all kinds of mirrors.

b- Doing grinding, beveling, sand blasting, dyeing, staining and decorating of all types of glass and mirrors.

c- Wholesale and retail trade, import and export of raw material, semi-material, auxiliary product, installation and pasting materials used in glass works.

#### 13 – LIVE STOCK

a- Wholesale and retail trade, import and export of all types of livestock. Slaughter of all edible live stock in accordance with the procedures and principles.

b- Stock breeding and animal breeding and raising.

- c- Entitled to rent and manage all kinds of feeding house, hatchery, slaughter house, leather house, tannery, animal fat melting facility, ice house and cold storage facility and butchery.
- d- Breeding and reproducing all tamed or untamed animals such as cats, dogs, all types of birds, turtle, alligator, snake, lizard, chameleon.
- e- Wholesale and retail trade, import and export of animal feed, accessories, bird cage and products and materials containing all necessities.
- f- Opening and managing pensions, farms, hospitals and shelters related to animals.
- g- Wholesale and retail trade, import and export of all kinds of aquarium and aquarium equipment, aquarium fish, fish food as well as air motor, aquarium sand, water heater necessary for aquariums and aquarium ornaments and accessories.

#### 14 – TENTS AND CANVAS

- a- Production, distribution, marketing and assembling of all types of tents and canvas.
- b- Production, trade, distribution and assembling of sea umbrella, sunshades.
- c- Trade, installation, periodic services of materials related to the subject, buying and selling of equipment as well as their import and export

#### 15 – FLORISTIRY

- a- Production, trade, marketing, import and export of all kinds of flower greenhouse works either open or covered.
- b- Production, trade, import and export of all types of inner or outer decorative flowers, cut flower and houseplant. Preparing landscape and watering projects, providing consultancy and service work on matters of landscaping.
- c- Trade, import and export of all types of seed, seedling and shoots related to the subject.
- d- Providing, trade, import and export of all types of germination, rooting and growing media related to the subject.
- e- Wholesale and retail trade, import and export of all types of artificial and natural flower material.
- f- Trade, installation and leasing of all equipment necessary for greenhouse and glass cases.

#### 16 – DURABLE GOODS

- a- Wholesale and retail trade, marketing, import and export of all types of durable goods, refrigerators, washing machines, dishwashers, televisions, videos, tape player, radio, kitchen robots, hair dryers, music sets, oven, water heater, vacuum cleaner, satellite dish, tv tables, small electrical or manual kitchen appliances, kettles, all kinds of electrical or electronic appliances, white goods, car tapes, cd players, DVD, VCD and similar products and their consumables. Providing repair, maintenance and service of these products together with spare part trade.
- b- Trade of all types of bicycles, motorcycles and their spare parts.
- c- Company can do trade of all kinds of heating, cooling, ventilation systems and devices together with electrical and electronic devices as well as their repair and maintenance and installation and project contract deals including import and export and technical service both domestically and internationally.

#### 17 – BURIAL AND FUNERAL SERVICES

- a- Providing funeral and burial services.
- b- Organizing and generalizing all services related to funeral and burial such as burial, prayers, catering, fixed menu food, funeral transfer, etc. both domestically and internationally.
- c- Trade of all kinds of raw material, product and equipment related to funeral and burial services.
- d- Organizing burial and funeral services in accordance with the religious and legal procedures.

#### 18 – IRON & STEEL

- a- Production, wholesale and retail trade, import and export of all types of iron-steel products, sheet metal, zinc, brass, zamak, galvanized sheet, billets, platina, U-iron, L-iron, brackets, pipe attachment parts.
- b- Trade, import and export of all types of pipes, welded pipes and drawn steel pipe as well as their attachment parts.

#### 19 – IRON HARDWARE

- a- Marketing, import and export, wholesale trade of various hardware material.

- b- Production, wholesale and retail trade, import and export of all types of bolts, nuts, threaded rod, attachment part made of iron or steel both domestically and internationally.
- c- Production and trade of all types of sharp set equipment. Providing repair and maintenance of these equipment, trade, import and export of their spare parts.
- d- Production, trade, import and export of all types of industrial semi-product or product, such as drilling bit, diamond drilling bit, reamer, cutting blades, knives, sawing blades, all types of hand tools, emery grinders, emery powder, polishing, shining equipment, construction equipment, crusher of various power and tonnage, cranes, iron steel bending and processing counters, metal process machinery, machine tool for profile cutting and grinding, all types of measuring equipment, welding machines, transformers, motor oil and recirculation pumps, filter pumps, ball roll or roller bearing as well as their various spare parts.
- e- Production, trade and export of measurement, calibration, repair and maintenance equipment, machine tools, appliances and hardware used in all types of industry.
- f- Production, wholesale and retail trade, import and export of any material, semi-product or products related to all types of keys.

## 20 – LEATHER

- a- Production, trade, import and export of all types of raw leather, artificial leather, processed leather, side products, vinyl latex and similar products.
- b- Production, wholesale and retail trade, distribution, import and export of leather product, welt, calfskin and suede from raw leather.
- c- Production, wholesale and retail trade, distribution, import and export of all kinds of clothing made from various leather and chamois such as fur, coat, winter jacket, jacket, vest.
- d- Production, wholesale and retail trade, distribution, import and export of products made from leather such as desk pad, chair, pencil case and book cover.
- e- Production, outsource production, trade, import and export of leather products such as all types of leather, belt, bags, wallets, clothing.
- f- Trade of various buttons, buckles and metal accessories for all types of leather products.

## 21 – EDUCATION SERVICES

- a- Establishing and managing all levels of kindergarten, elementary school, high school, university allowed by the Turkish Republic Laws related to education and training services.
- b- Establishing high school and faculty preparation courses as well as foreign language courses.
- c- Organizing education and training addressed to art and career (computer, typing, accounting, designing, stylist) to support certain skills related to various professions as well as opening and managing private schools and courses.
- d- Opening and managing courses with the purpose of training in football, basketball, volleyball, swimming, cross, ice skating, athletics, chess.
- e- Company can organize and manage domestic driving license courses for the purpose of issuing driving license.
- f- Establishing all types of laboratories for the purpose of education and training and trade, import and export of related materials, equipment, documents and laboratory devices.

## 22 – POWER EQUIPMENT, TECHNICAL AND DECORATIVE LIGHTING

- a- Trade, import and export of all types of electric and electronic control equipment, electronic circuit elements, conductive, semi-conductive and integrated circuit elements, microchips and related binding elements
- b- Production and import and export of electric and electronic panels, machines and small appliances.
- c- Trade, import and export of constant and variable resistance, constant and variable condensers, weak current transformers, electron tubes, diodes, transistors.
- d- Import, export, domestic and international marketing of all types of power equipment and various power motors, coil winding, distribution board, remote control automation facilities, regulators as well as spare parts and accessories of all these and all types of low and high voltage power equipment.
- e- Trade, import and export of all types of chargeable and dry batteries.
- f- Contracting and sub-contracting and commissioning of power infrastructure of all official and private constructions and setting up required organizations for the job.

g- Trade and marketing of all types of lamps, chandeliers, projectors, plexiglass armatures used for the lighting of factories, workshops, production facilities, hotels and similar workplaces, houses, roads, courtyards and sport facilities, ancient and touristic structures and other various buildings, shop windows as well as cement and steel pipes, normal and mercury discharge ballasts, fluorescent bulbs, regulators, transformers, conductors, cables used for outer lighting and various other electrical materials.

h- Trade and marketing of mechanical, electromechanical and technical device, elements and power material used for all types of high, medium and weak power and lighting fittings.

i- Trade of all types of power board, board equipment, lighting armatures, fitting cables and similar equipment.

## 23 – REAL ESTATE, REAL ESTATE CONSULTANCY

a- Buying, selling and brokerage of all types of real estate.

b- Running required studies on the properties to be bought by foreigners under the scope of the law that permits foreigners to buy property and in case the purchase is done, following the required procedures in official institutions and organizations.

c- Brokerage services for buying, selling and renting of all types of land, flat, house, shop, office and other properties.

d- Giving service and running up contracts related to real estate work.

e- Buying, selling and marketing of all types of real estate for someone else's name.

f- Buying, selling and renting all types of real estate both domestically and internationally on commission basis.

g- Buying, selling, renting or self-renting of real estate such as all kinds of property, real estate and especially housing estates, plazas, markets, warehouses, cold storage facilities and touristic facilities like holiday villages, timeshares, apart hotels, motels, camping as well as industrial zones, sports complexes, homes, houses, apartments, offices and land. Finding subdivision and construction position of gardens, plantation and lands and conceptualizing projects if needed. Issuing sharing rights, usufruct, right of residence, property ownership, construction servitude, pre-emptive rights and right of redemption and property obligation on any real estate.

## 24 – INDUSTRIAL MACHINERY

a- Production, trade, import and export and marketing of all types of industrial laundry machines and washing machine products, accessories as well as any kind of product used in laundry machinery and washing machines.

b- Setting up technical service units related to all kinds of industrial laundry machinery and washing machines, their spare parts and accessories.

c- Production, wholesale and retail trade, distribution, import and export of all types of industrial and construction machinery and equipment as well as their spare parts, fittings and equipment.

d- Production, wholesale and retail trade, distribution, import and export of aluminum, wood, PVC processing machines and cutting and drilling machines used in industry.

e- Production, wholesale and retail trade, distribution, import and export of various electrical and electronical machinery as well as their repair and installations.

f- Production, wholesale and retail trade, distribution, import and export of all types of textile machinery as well as their complete set of materials and components.

## 25 – ENERGY

a- Setting up production facility to convert energy sources to electric power upon receipt of required license from Energy Market Regulatory Authority, production of electric power and sales of produced electric power and/or capacity to customers.

b- Production and national and international trade of steam turbines, gas turbines, steam-boilers, motors, generators, power plants -heat stations working with natural gas or petroleum, recyclable energy fuel oil and coal, energy instruments, filters, heat recovery units related to power and heat production.

c- Production and national and international trade of coal preparation, coal washing, lime preparation, filter and desulphurization systems and units for power plants and heat stations.

d- Project making of all types of biological and chemical treatment facility, waste recycling units.

e- Complete or partial production of power plants using wind power to generate power energy

## 26 – MEAT PRODUCTS

- a- Production, process, trade, import and export of meat products (salami, sausage, pastrami, hotdog) obtained from animals.
- b- Setting up integrated plant for the production of meat and meat products.
- c- National and international trade, marketing, packaging, storage, distribution, import and export of all types of raw and original animal intestines and artificial intestine products. Giving and receiving dealerships and opening subsidiaries related to the subject.
- d- Wholesale and retail trade, import and export of all types of calf, cattle, sheep, lamb and goat meat.
- e- Trade, import and export of all types of poultry; chicken, hen, duck, quail and ostrich meat.

## 27 – HOME TEXTILES AND FURNISHING

- a- Trade, production, import, export of all types of furnishing, drapery and curtain tulle, guipure products.
- b- Trade, production, import, export of all types of home textile products and accessories.
- c- Trade, production, import, export, marketing of various furnishing fabric, blankets, quilt, linen, sleeping set, pillow and pillow case.

## 28 – PHOTOGRAPHY, PHOTOGRAPH AND MOVIE MACHINERY

- a- Doing photography work. Setting up photography studios and trading film, camera and all other equipment related to this subject.
- b- Converting all photography work to products by using video, VCD and all computer techniques and recoding with camera and other digital systems as well as printing them through classic photography techniques and selling these products.
- c- Trade of cameras, photography machinery and all types of photograph equipment.
- d- Colored or black & white photo print in all types and dimensions; doing artistic, technique, industrial, fashion and advertisement photograph and slide shoots of all type and level; professional video, film and photo shoots at engagements, weddings, birthdays and other special occasions.
- e- Setting up and managing studios and laboratories. All types of digital photography, computer photo shoot, print, chemical bath work. Trade, import and export of film and chemical bath material to be used in such laboratories.
- f- Trade, import and export of complimentary equipment and devices like barometer, thermometer, hygrometer, chronometer, magnifying glass and altimeter.

## 29 – FAIRS AND EXHIBITIONS

- a- Organizing all types of fairs domestically and internationally and doing publishing, advertising and organization work for the purpose of promoting these activities. Doing congresses, seminars, symposiums and similar events related to this subject.
- b- In order to accomplish its goals, company can buy, sell, rent, lease any kind of real estate; can issue all kinds of real and personal rights on them, take a mortgage, give a mortgage and lift the mortgages. Can issue sharing rights, usufruct, right of residence, property ownership, construction servitude, pre-emptive rights and right of redemption and property obligation on any of company's real estates. Can accomplish any procedure and disposition at land registry office that is related to type classification, subdivision, amalgamation, partition, parcellation of the company's real estates. As per company's goals, can acquire and alienate brand patent letter, know-how and other industrial property rights as well as make license agreement related to them. Can accomplish joint undertaking with real and legal persons or join existing commercial companies concerning the work which falls under the scope of company subjects and can buy and sell their shares, bonds and other securities without acting as brokerage.

## 30 – FOOD

- a- Production, wholesale and retail trade, distribution, import and export of all types of food products.
- b- Opening and managing sales shops with the purpose of wholesale and retail sales related to the marketing of all types of hot, cold, frozen, dried and concentrated food products that carry an effective role in human nourishment and is part of food industry.
- c- Production, wholesale and retail trade, distribution, import and export of all types of baby formulas. Buying and exporting of raw, semi-product and products related to baby formula.

- d- Wholesale and retail trade, import and export of all types of calf, cattle, sheep, lamb and goat meat. Wholesale and retail trade of all types of poultry.
- e- Wholesale and retail trade, import and export of all types of food made of flour, sugar and milk as well as raw fruits and vegetables, cereal products, grain and legumes, cacaos and all types of food products which are powdered, concentrated, canned or brined and all types of fat.
- f- Wholesale and retail trade, import and export of all types of sausage, salami, hotdog, pastrami, roasted meat, sauces, ketchup, tomato paste, mayonnaise sauce, salad sauces and salad bars.
- g- Wholesale and retail trade, import and export of all types of food products made of cultivated and natural mushrooms as well as pickled and frozen food products made of these products.
- h- National and international trade, marketing, import and export of all types of raw and original animal intestines and artificial intestine products.
- i- Wholesale and retail trade, marketing import and export of edible roots, tubers, flowers and products of raw fruits and vegetables and legumes, onion, garlic, sesame, soya, almonds, pine nut products as well as food products like olive, hazelnut, dry grape, tea and cereal.
- i- Trade, distribution, import and export of olives.
- j- Wholesale and retail trade, production, distribution, import and export of all types of olive oil, sunflower oil, corn oil and hazelnut oil.
- k- Trade, marketing, import and export of all fresh and dry food, fruits, marmalades, jam, sugared and non-sugared food, drinks and all food products.

### 31 – SECURITY SYSTEMS

- a- Setting up of security system of all kinds of facility, building and land from sea, air and land.
- b- Preparing computer software and programs for such security systems as well as trade, distribution, marketing, import and export of such ready software programs and operating systems.
- c- Production, trade, distribution, marketing, import and export of all types of security systems and spare parts and accessories.
- d- Production, trade, distribution, marketing, import and export of all types of fire detection, gas detection, robbery alarm, close circuit security and fire extinguishing systems as well as their installation, repair and maintenance.
- e- Production, trade, distribution, marketing, import and export of all types of electronic, optic, audio-visual mechanical devices, cameras and monitors related to security and protection.
- f- Production, trade, distribution, marketing, import and export of all types of spare part and base equipment needed for camera and alarm systems under the scope of subject.

### 32 – BEAUTY CENTER

- a- Establishing, managing, renting and leasing health centers for beauty and esthetic purposes, beauty and esthetic centers, beauty salons as well as facilities giving facials and body care, massage, make-up, laser and needle epilation and similar services.
- b- Wholesale and retail trade, distribution, import and export of all types of wigs made of hair or artificial material as well as their repair and maintenance.
- c- Wholesale and retail trade, distribution, import and export of all types of hair implant and any material related to it.
- d- Doing hairdressing work and skin care, hair care, manicure, pedicure, waxing, solarium and make-up work. all kinds of esthetic health service such as laser epilation, needle laser epilation, varicosity treatment, collagen treatment, cellulite treatment, botox treatment, mesotherapy.
- e- Trade, marketing, import and export of cosmetics, beauty products, body and skin care products, cologne, perfume, shampoo and similar products.
- f- Opening and managing fitness, massage and sauna parlors for women and men.

### 33 – CARPET CLEANING

- a- Setting up, managing, self-renting and leasing carpet washing and cleaning plant and facilities for washing and cleaning of all types of carpet, rugs, pillow and hall rugs.

### 34 – CARPET – RUG

- a- Production, trade, import, export, repair and marketing of all kinds of hand-made and fabricated carpet, rug, prayer rug, quilt, pillow and hall rugs.
- b- Trade, import and export of all kinds of raw material, semi-product and products related to carpet, rug, prayer rug, quilt, pillow and hall rugs.
- c- Building weaving mills and weaving looms for the weaving of products like carpet, rug, prayer rug, quilt, pillow and hall rugs as well as trade, import, export and marketing of components, spare parts and accessories needed for these mills and looms. Producing and sub-contracting all types of weaving and anti-skid, coated hand-woven or machine-woven carpets.
- d- Production, wholesale trade, import and export of hand and machine woven carpets, rugs and prayer rugs made of rope or thread obtained from cotton, wool, silk, linen, bristle, artificial and synthetic fiber, mixture of these as well as other materials.
- e- Trade, import and export of all types of machinery, looms and spare components required for carpet and rug production.

### 35 – AVIATION

- a- Scheduled or non-scheduled air transportation of passengers, shipment, cargo, livestock and all kinds of trade or non-trade commodities from one destination to the other both domestically and internationally. Undertaking any operation related to this purpose.
- b- Trading, renting, leasing, import, export, marketing, representation, exclusive distributorship, brokerage and sub-contracting of all airplanes and other aircraft as well as their motors, components, various parts and equipment, spare parts, tools and tool kits. Building and managing all kinds of facility related to aviation and communication such as airdromes, shelters, parking lots, warehouses, private warehouses and repair shops for the purpose of maintenance.
- c- Production, trade, import, export of all types of airfreight carriers (nonmotorized, jet motor and propeller planes and all types of helicopters) as well as making lease contracts, managing their repair and maintenance, making maintenance and service contracts, production, import and export of spare parts. Leasing them with or without the pilots, acquire and dispose them in various ways. Supplying domestic marketing and maintenance service, training employees who will work in the service units, signing domestic or international deals to run these operations.
- d- Execute all types of aircraft, shipment and cargo operations such as maintenance, repair flight control and technical service by itself in the operating ports, sub-contract these to someone else and offer the same operational services to other aircraft owned by real and legal persons.
- e- Doing cargo transportation with air transportation carriers, performing loading and unloading operations of cargo to the aircrafts and taking them to customs warehouse or storage.
- f- Selling all types of tickets and airway bill for airlines belonging to itself or others as well as for real and legal persons dealing with airfreight. Also, sub-contracting these operations and setting up ticket sales offices for this purpose.
- g- Ambulance flights by airlines (Performing flights in between operative airports for the purpose of carrying sick and wounded and the passengers accompanying them).
- h- Advertisement flights by airlines (Performing flights for the purpose of panoramic shoots from air or distributing advertisement material from air).
- i- Performing control flights over pipe line (petroleum lines) and high voltage power lines (power lines) and taking photos from air.
- i- Performing sports-oriented aviation activities, making, importing and exporting model planes and organizing contests.
- j- Giving flight courses of any kind related to aviation, training flight students, giving educational service for piloting, flight engineering, air-traffic controller technicians, parachuting, hostess-ship and similar subjects.
- k- Building up facilities related to airports and runways, maintaining these in operating condition as well as sub-contracting them.
- m- Supplying ground operations services such as boarding and vacating to corporate aircraft at the airports

### 36 – SOUVENIRS, TOYS AND BIJOUTERIE

- a- Production, trade, import and export of all types of touristic and souvenir gifts made of metal, wood, glass, ceramic, chinaware, stone, candle, plastic, paper, polyester, fabric and leather.
- b- Wholesale and retail trade of all types of promotional products
- c- Trade, marketing, import and export and inland trade of all types of toys.

- d- Production of all types of electronical and mechanical toys as well as building up factories or facilities to produce them.
- e- Production, trade, import and export of ornaments such as necklace, earrings, bracelet, ankle bracelet, belt and etc. either hand-made or fabricated from metal, wood, plastic, rubber or non-precious stones.
- f- All types of contract labor, production, wholesale trade of all bead, ornament, lucky charm and bijouterie goods.
- g- Designing production, import and export of all types of artistic goods and accessories.
- h- Trade, auction and decoration of all types of old and antique goods, hand-craft items, sculptures, paintings, calligraphy work of art, manuscript works.
- i- Doing sculptural work by using fiberglass, wood, glass, metal material and all types of natural stones.

### 37 – HEATING – COOLING AND NATURAL GAS SYSTEMS

- a- Production, wholesale and retail trade, distribution, import and export, dealership and brokerage of heating, cooling and ventilation devices, radiators, room heaters, air conditioners, combi boiler, air pressure tanks, central heating and cooling devices that are working with electric power, solid fuel, liquid petroleum gas and similar fuels in the houses and work places.
- b- Executing the plan, project and commissioning of various heating, ventilation and air condition systems, fire safety utilities, steam and boiling oil utilities, water conditioning utilities, industrial utilities, automated control systems, cooling utilities as well as their isolation and insulation work.
- c- Domestic and international production, wholesale and retail trade, distribution, import and export of machinery, equipment, spare parts, components, semi-products, products and facilities related to the subject of all types of cooling, heating and air condition systems.
- d- Installation of all types of air condition, combi boiler, ventilation, heating, cooling facilities, cold room warehouses and heat pumps as well as production, wholesale and retail trade, distribution, import and export of related equipment, measurement control devices and materials.
- e- Installing natural gas pipelines from nation-wide natural gas networks to houses, apartments, work places, industrial and similar facilities as well as installing burners, radiator boilers, room heaters. Executing installation, maintenance, repair work of house, work place and industry equipment that work with natural gas as well as trade, import and export of all types of tools and equipment, pipes, valves, fittings, machinery and spare parts required for these installations and service.
- f- Performing natural gas projects and applications in industrial facilities, houses, schools, hospitals, universities and all public and private buildings.
- g- Performing mandatory projects and applications required for building energy performance feasibility and ID document.

### 38 – LIGHT AND SOUND SYSTEMS

- a- Trade, self-renting, leasing, import, export, production, installation and commissioning work of equipment and materials related to all types of sound, light, visual systems.
- b- Organization planning, establishing performer connections, arranging sound systems and organizing artistic events.
- c- Trade, installation, import and export of sound, light and visual systems in any setting related to company's subject, music instruments, radio television studios, transmitting stations, transmitters, receivers, broadcasters, cable TV, video conference close circuit TV systems, data transmission systems as well as material, side components, spare parts and equipment for these systems.
- d- Providing technical and repair service for music instruments, equipment, audio visual devices as well as supplying their spare parts.
- e- setting up any kind of system related to musical instruments and audio-visual devices; offering projects, consultancy and engineering services as well as trade of devices related to this.
- f- Participating to organizations related to all kinds of music, sound and light devices as well as trade, import and export under the scope of company subject.
- g- Providing research, study, plan, project, controllership and technical consultancy on company target and subjects.
- h- Trade, import and export of all types of computer and computer-related products.

### 39 – BEVERAGES

- a- Production, trade, distribution, marketing, import and export of all types of alcohol, low-alcohol and non-alcohol beverages, energy drinks, fruit juice, vinegar, grape juice, all types of mineral water, natural water, all kinds of still and fizzy mixed drinks.

- b- Trade, bottling, distribution and marketing of all types of drinking and spring water.
- c- Building up water stations, establishing facilities related to this.
- d- Setting up research analysis facilities related to the subject; measuring water hardness, employing technical staff.

#### 40 – MEICINE AND PHARMACY WAREHOUSE

- a- Wholesale trade, storage, packaging, import and export of all types of chemicals, human-use, veterinary and agricultural medicines.
- b- Opening pharmacy warehouses, acquiring medicine license, leasing medicine license.
- c- Wholesale trade, inland trade, import and export of medicine produced domestically or abroad. Inland trade, import and export of wholesale medicine, medicine raw material, surgical material, serums, hormone vaccines, baby food and care products, hygienic products.

#### 41 – COMMUNICATION – TELECOMMUNICATION

- a- Acquiring dealerships of communication and telecommunication services run by public and private person and institutions as well as managing these dealerships.
- b- Trade, import and export of telephones and all types of communication material and equipment as well as their spare parts.
- c- Wholesale and retail trade, service and maintenance, marketing of all types of telephones, communication devices, cell phones, wireless telephones and telephone switch boards as well as sub-contracting these activities. Executing all kinds of activities related to telecommunication.
- d- Serving as dealers of GSM operators, giving out dealerships, issuing lines, selling lines, turning lines on and off, buying and selling of related services, issuing invoices and collecting due invoices on behalf of GSM operators.
- e- Trade, import and export of mobile phones, wireless phones and telephone switch boards as a well as all related accessories.

#### 42 – LABORATORY WORK

- a- Setting up asphalt, pavement, cement and construction material laboratory; running tests with fresh and frozen cement to determine the cement quality.
- b- Executing the analysis and testing of all types of construction and masonry material (stones, soil, bricks, iron, wood, etc.) send by private and corporate institutions and persons for the purpose of quality control, according to the related standards and specifications.
- c- Determining mixing ratio for different quality concrete by doing various trials with material samples (aggregate, cement, water additive) to be used in concrete production.
- d- Perform and sub-contract the performance of all type of ground study trials.
- e- Issuing technical opinions, giving research and application services and reporting on subjects covered under the scope of the company.
- f- Trade, import and export of laboratory materials related to the subject.

#### 43 – CONSTRUCTION AND VEHICLE PAINTS

- a- Production, trade, import and export of all types of industrial and construction paints, interior and exterior surface protective paints, synthetic, acrylic and cellulosic paints as well as paint side products.
- b- Production, import and export of all types of paint material and side materials as well as metallic paints, automobile paints, ground coat, plastic paint, oil paint and satin paint, thinner, putty and similar products and side products.

#### 44 – THREAD AND GINNERY

- a- Production, trade, import and export of types of industrial sewing and industry threads.
- b- Production, twisting, finishing and bleaching of all types of cotton threads and threads made of natural or fabricated or synthetic fiber and threads made from their mixture, polyester artificial silk threads, wool threads, dyed threads; production of skein, lace coil, netting yarn as well as production, trade, import and export of wood, plastic or cardboard bobbin and spool that these threads are winded.
- c- Setting up, self-renting, leasing, turn-over of any type of ginnery as well as exporting ginnery-related equipment and machinery from abroad.

- d- Buying of all types of raw material, semi-products and products related to agriculture. Processing or sub-contracting the processing of these bought raw materials, semi-products and products and doing their domestic or international marketing and sales or organizing these marketing and sales activities through intermediate companies.
- e- Building up all types of thread factories, trade, import and export of the thread machines and side equipment and components required for these factories to be built.

#### 45 – ISOLATION AND INSULATION

- a- Trade, production, import and export of isolation materials
- b- Trade, import and export of isolation machines, equipment, tools needed for production of isolation materials.
- c- Doing roof isolation, exterior insulation for every type of house, factory, workshop and similar buildings. Doing exterior wall coating with heat insulation.
- d- Production, wholesale and retail trade, distribution, import and export of heat and water insulation materials of all buildings.

#### 46 – LAND AND SEA MOTORS

- a- Inland trade, import and export of land, water and sea motors, electrical motors, water pumps and their spare parts and components.
- b- Building up shipyards, repair-shops, workshops, cradles, boat yards and dry docks for performing the mechanic, electrical, electronical, electromechanically and various technical services of domestic and foreign ships, tankers, vessels, coasters, submarines, motors, boats and all sea freight and passenger carriers.
- c- Ship agency business, supply and sub-contract the supply of fuel, food and materials to the ships.
- d- Yachting business. Building yachts, self-renting and leasing them.

#### 47 – STATIONARY

- a- Trade, marketing, import and export of all kinds of stationary.
- b- Trade, marketing, import and export of all kinds of office and school stationary.
- c- Trade, import and export of all kinds of books, magazines, paper, document, school equipment and materials. Trade, import and export of all kinds of stationary promotional goods.
- d- Trade, import and export of pencils, pens, fountain pens, eraser, ruler, caliper, paper clip, glue, ink, clear tape, duct tape, crayons, dry paint, water color, markers, pushpins, notebook, pocket note books and various stationary.
- e- Trade, import and export of all kinds of paper and paper-originated goods, semi products and products.

#### 48 – CHEMICAL MATERIALS AND CHEMICAL PAINT

- a- Production and trade of various chemical material and all types of additional chemical materials and products, semi-products and raw material used in their production.
- b- Production, trade, import, export, brokerage, distribution, marketing, subcontracted laboring and inland trade of all types of powder and wet paints, natural, synthetic and mechanical paints, ground coat, flat paint with or without silicone, interior and exterior wood, metallic, plastic paints as well as all kinds of chemical material like ink and similar which are being used primarily in chemical industry and also production, trade and service sectors and end-user consumptions.
- c- Production, trade, import, export, brokerage, distribution, marketing, subcontracted laboring and inland trade of organic and inorganic chemical material, automobile and industrial oils, resin, paint, thinner and other thinners, glues, chemical catalyzers, chemical materials and fertilizers being used with all kinds of industrial, agricultural and commercial purpose.
- d- Production, wholesale and retail marketing, distribution of artificial fertilizer.
- e- Production, trade, import, export, brokerage, distribution, marketing, subcontracted laboring of all types of cleaning goods, liquid, powder and solid detergent types, ptero-chemical products, domestic and industrial gas.
- f- Trade, import, export and marketing of all types of textile chemicals.
- g- Trade, import, export and inland commerce of all types of chemical materials used in agriculture, food and other areas.

#### 49 – APPAREL

- a- Production, trade, import and export of all types national and international garments, apparels and accessories.
- b- Production, trade, distribution, import and export of apparel goods made of wool, cotton, silk, artificial and synthetic fiber and similar material.

- c- Production, wholesale and retail trade, distribution, import and export of clothing such as all types of apparels, denim, pants, jeans, sweat pants, shirts, jackets, coats, skirts, sweaters, ties.
- d- Tailoring of all types of women and children bridal gown and engagement dresses; production, wholesale and retail trade, distribution, import and export of bridal head ornaments, gloves, underskirt and similar goods. wholesale and retail trade, distribution, import and export of all kinds of fabric, guipure lace, veil, satin and other materials related to bridal and engagement gowns.

#### 50 – DRY CLEANING, CLOTHS CLEANERS, DYEHOUSES AND LAUNDRY

- a- Doing washing, cleaning, drying, ironing and dying services of all types of apparels and textile products.
- b- Doing dyeing, washing, printing work and labor outsourcing of all types of textiles and textile products, leather goods, all type of fabric, woven thread fiber, all types of underwear and outer wear products and raw materials.
- c- Dry cleaning, washing, polishing, dyeing, ironing and starching of all types of dress, underwear, curtains, carpets, linens, quilts, table cloths and textile products.
- d- Performing or outsourcing the press, ironing work of collars of all types of clothing, doing outsource ironing, doing the cutting, molding and pressing work of the fibers and related materials.
- e- Performing all kinds of dry cleaning, ironing and packaging.
- f- Building and managing all types of dyeing, chemical finishing, bleaching, ironing and printing facilities.
- g- Doing or outsourcing buttonhole, button work of all types of clothing.
- h- Building, outsourcing and managing the dry cleaning and laundry facilities to perform dry cleaning and washing work.
- i- Trade, marketing, import and export of all types of chemical material needed to accomplish these operations.

#### 51 – CULTIVATED MUSHROOMS

- a- Cultivated mushroom production as well as micelle and compost production related to cultivated mushrooms as well as trade, marketing, import and export of pesticides for protection and disease prevention purposes.
- b- Production, marketing, import and export of all kinds of cultivated mushroom products like dry mushrooms and canned mushroom.
- c- Performing and outsourcing all kinds of laboratory research related to cultivated mushroom and greenhouses as well as trade, import and export of materials and equipment related to this subject.

#### 52 – RESTAURANT

- a- Operating all kinds of restaurants, cafes, cafeterias, café-bars, night clubs, discos. Self-renting and leasing these facilities as well as buying, selling, self-renting and leasing equipment and devices related to the subject.

#### 53 – MINING

- a- Extracting, processing, buying and renting of underground and above-ground mines and natural sources on the condition of acquiring the required permissions.
- b- Acquiring mining permit, exploration, request for operating rights, taking over the mining rights of negotiable operating rights.
- c- Operating all types of mines, marble, stone, lime quarries, clay quarries, coal pits on the condition of complying with the related legislation.
- d- Exploration, extraction, processing, trade, import and export of all products under the scope of mining on the condition of complying with the legislation.
- e- Exploration, extraction, processing, trade, import and export of all types of cuttable and polishable stones, marble, granite, diabase, travertine, onyx, basalt on the condition of complying with the legislation.
- f- Exploration, extraction, processing of semi-precious and precious stones on the condition of complying with the legislation.
- g- Exploration, extraction, processing, trade, import and export of company industrial raw materials, clay groups, kaolin, diatomite, feldspar, quartz and quartzites, talc, pyrophyllite, borax, calcite and all other products under the scope of mining on the condition of complying with the legislation.
- h- Exploration, extraction, processing, semi-precious and precious stones, opal, beryl groups, emerald, diamond, ruby, spinel, agate and petrified agate, all silica group stones on the condition of complying with the legislation.
- i- Opening and operating all types of coal mines on the condition of complying with the legislation.
- i- Trade, import and export of coking coal, barbeque coal and cannel coal.

j- Trade, marketing, import and export of all types of forest products, mainly wood, which are used as fuel.

#### 54 – METALWARE

a- Production, trade, import and export of all types of metalware.

b- Undertaking all kinds of aluminum joinery, aluminum door, window and shutter work; outsourcing the job to other companies.

c- Production, trade, import and export of all types of metal, acrylic stand, display stands, metallic stand, shopping carts.

d- Casting, import, export of all types of zamak alloys, zinc, aluminum.

e- Production, trade, import and export of all types of fittings such as metallic rings, hooks, chains, bolts, screws, cap nuts and sleeves.

f- Processing, import and export of all types of metal, colored metal and metal raw material and mines domestically and internationally.

g- Production, import and export of all types of radiators and heating boilers domestically and internationally.

h- Production, export and wholesale of all types of gray cast iron.

i- Production and wholesale of all types of mold element.

ı- All types of lathes and levelling work related to part production as well as outsourcing the work.

j- Machining and production, import and export of all kinds of raw material, semi-product, product related to this sector as well as spare parts, machinery, equipment and materials, all types of sensitive measurement devices, hand tools, equipment and machine tools.

k- Production, trade, import and export of all types of industrial kitchenware.

#### 55 – MACHINERY AND EQUIPMENT

a- Trade, marketing, import, export and inland commerce of all types of industrial and heavy-duty machinery as well as related spare parts, equipment and components.

b- Production of aluminum, wood and PVC processing machinery, cutting and drilling machinery.

c- Production of hydraulic machinery, hydraulic systems, hydraulic power units, hydraulic cylinders, pneumatic, hydraulic, automated machinery and electronic machinery and equipment.

d- Production, repair and installation of various electrical and electronical machinery and equipment.

e- Production of all types of textiles finishing machines (stenter machine, fabric preparation machine, fabric reversing machine, dyeing machine, centrifuge, wet fabric opening machine, dry fabric opening machine, Squeezer machine, cutting, drying, sanforizing machine); production, trade, import and export of electrical, electronical da panels of these machines as well as all their equipment and components.

f- Production, wholesale and retail trade, marketing of all types of elevator machinery and equipment.

#### 56 – PRINTERY – PUBLISHING

a- Activities of printery, publishing, packaging, offset printing as well as performing all types of printing work and serving as contracted printery following the official agreements.

b- Design, publishing, reproduction, distribution, marketing, promotion and exhibition of work of art and opinion in any environment.

c- Publishing, domestically and internationally broadcasting selling and marketing of periodicals such as daily, weekly, monthly or long-term or timeless newspaper, magazine, book, encyclopedia, booklet, pamphlet in Turkish or in foreign language.

d- Organizing the publishing of announcements in timely or timeless media outlets like newspapers, magazines, books.

e- Performing printing work for the publishing of all types of books, magazine and newspaper; setting up and operating printery.

f- Performing all types of print, typesetting, silk-screened printing. ID coating, stamp, doing book and document binding and outsourcing all these.

g- Typesetting and printing of all kinds of pamphlet, poster, business card, invoice, delivery note, expense slip, receipt of payment and similar products.

h- Trade of paper, film, paint, chemical agents and mold delicate offset printing plate materials, machinery and equipment.

i- Production, wholesale and retail trade, distribution, import and export of raw paper, delicate paper and banded paper.

- i- Trade, import and export of paper bags, packaging paper, newspaper paper, book-notebook-card-envelope and wall papers, xerox machine paper, computer paper, self-copy paper, cash register paper and phone paper, telex rolling paper and materials, decoration papers, all papers and their second hands.
- k- Trade, import and export of goods related to paper and printery.
- l- Import and inland commerce of all types of books, magazines, pamphlets and similar things published abroad.
- m- All types and dimensions of printer press, offset, leather express printing, baths, colored, black and white leather print, monolithic photo, video and photo shoots, printing, film bathing, black and white negative, direct print from slide, card bath, color leather print, tabs, studio and industrial shoots, exhibition photos, slide bath.
- n- Trade of printery goods; printery dyes, binding material and chemical materials.
- o- Setting up serigraphy, leather printing workshops and printery laboratories.
- ö- Production, trade, import and export of products from all types of paper, cardboard, corrugated cardboard, packaging box, packaging materials, cardboard box.
- p- Import, export, wholesale and retail trade of all medical and chemical elements and various raw materials, natural and synthetic metallic and powder dyes required for the production of raw papers.

## 57 – MEDICAL

- a- Wholesale and retail trade, distribution, import and export of all types of medical devices and their spare parts, laboratory equipment, orthopedic devices and materials, x-ray devices and materials, surgical materials, radiology and nuclear medicine material, sterilization material needed by the hospitals, clinics, polyclinics, laboratories, doctor offices and health institutions. Supply of service and maintenance as well as trade, marketing, import and export of all related components and spare parts.
- b- Trade, import, export and contracting of all types of medical products.
- c- Trade, import, export, brokerage and contracting of all types of medical glass and plastic equipment and material.
- d- Trade, import, export, domestic and international marketing of all medical orthopedic and surgical materials, domestic and foreign plaster casts and dressings, all types of ordinary and valuable minerals, devices used in dentistry and treatment procedures as well as other devices and equipment used in denture making together with their components and spare parts.
- e- Trade of all types of x-ray film and devices; supply and organization of related technical service and offering consultancy under the scope of the subject.
- f- Wholesale and retail trade, distribution, import and export of all kinds of teeth, dentures made of metal, plastic and porcelain.
- g- Wholesale and retail trade, distribution, import and export of all kinds of denture and dentistry material and equipment.
- h- Wholesale and retail trade, distribution, import and export of orthopedic shoes, boots, sandals, insoles, prosthesis, devices, corsets, compression socks, artificial knee joint, elbow working esthetic hands, walking device, crutches and various orthopedic products.

## 58 – FURNISHING

- a- Trade, sewing, ironing and installation of curtains, sunshades and tulle.
- b- Production, trade, distribution, marketing, import and export of woven and knitted fabrics, curtains, spreads, furnishing material made of natural and artificial threads as well as wall papers combined with paper made from thread and pillows, quilts, beds and similar products.
- c- Production, trade, distribution, marketing, import and export of cotton, wool thread, textile and industry goods, hosiery industry products and fabrics.
- d- Production, trade, distribution, marketing, import and export of various natural and artificial fibers as well as raw, semi-product and product versions of various threads made from these fibers.
- e- Production, ironing, starching, drying work of raw, semi-product and product items and various textiles production related to its subject, either through third parties or companies.
- f- Trade, distribution, marketing, import and export of related accessories such as tapes, ribs, claps, buttons, snap fastener, zippers, labels, undercoat, interlining, adhesive undercoat, tassel, ruffle, brass accessories and various material.
- g- Production, trade, import, export, receiving and giving dealerships of towels, bathrobes, bed linens, rugs and their equipment.
- h- Embroidery, lace and guipure trade.

## 59 – ARCHITECTURE - ENGINEERING

a- Project designing and contracting all kinds of architectural plans and projects. Applying them, undertaking technical responsibility, project management and executing all kinds of construction and residential usage license procedures in related official institutions. Redesigning and application of the existing projects. 3-dimensional model drawing, landscape projects and their applications, decoration and restoration, building survey and repair. Participating to national and international project contests. Drawing and application of the plans and projects bought abroad or doing this in corporation with another company. Doing all kinds of geodesy and photogrammetry engineering work as well as licensed Mapping and cadastral Engineering Office work, doing graphical and numerical maps with any method and scale, cadastral maps, photogrammetry and remote sensing work, setting up urban and geographical data systems, survey and operation maps, urban and rural land and estate settings, land subdivision and plans, current map, zoning plan and local zoning plan and their drawings, executing maps and plans for application, subdivision, amalgamation, renunciation for road and registry. Performing all kinds of land measurement, ground control point erections as well as conducting project and application work of highway and power transmission lines, sewage projects, bridge and dam projects and applications. Doing land application work of all types of projects and conducting the related land registry and cadastral technical service and processes. Providing consultancy service on mapping and zoning legislation.

b- Conducting and subcontracting all types of construction engineering projects on national and international basis as well as approval of projects, renovation or renewal of existing projects. Conducting or subcontracting the design, project, approval, plan/project control of all kinds of hotel, motel, school, bank, hospital, station, gas station, business center, plazas, houses and any other public and private buildings both on national and international basis.

c- Offering and receiving all kinds of engineering and architectural service, undertaking technical responsibility, organizing progress payments, executing or subcontracting the temporary and final acceptances as well as opening offices and business for the purpose of engineering and architectural work on national and international basis.

## 60 – FURNITURE

a- Production, trade, marketing, import and export of furniture and decoration materials, office and home furniture made of wood or metal, all types of kitchen cabinets and kitchen decoration work, bedrooms, living rooms, dining rooms, teen rooms, armchair, table, chair and other various furniture.

b- Undertaking the furniture decoration work of any kind of facility.

Production, marketing, inland commerce of all types of wood stairs, wood stair rail, home and office products made of wood and any wood product. d. Company can buy and sell all types of furniture polish, do all types of furniture polishing and import furniture polish.

c- Preparing the stands for promotion and display areas in national and international fairs, exhibition, shows and similar events.

d- Trade, import and export of all kinds of forest goods and products needed for furniture production.

## 61 – CANDLES

a- Production, storing, packaging, wholesale and retail trade, import and export of all raw material, semi-product and products used in candles and candle industry.

## 62 – HARDWARE

a- Trade, import, export, production of construction materials, iron, copper, sand, gravel, stone chips, cement, lime, bricks, roof tiles, ceramic, glazed tile, tile, pavement, mosaic products, bricks, stone, marble, floor covers, paint, hardware products. Acquiring and appointing dealers and distributors and establishing dealerships of its own.

b- Building workshops of factories for the production of all types of construction and hardware equipment and material. To rent these buildings or to lease them to someone else, operate them and perform national and international trade of these products.

## 63 – OPTICS

a- Production, trade, marketing, import and export of all types of eye glasses, ophthalmic glass, contact lens and frames.

b- Trade, import and export of all types of ophthalmic glass and frames, sun glasses and ophthalmic equipment.

c- Trade, import, export, self-renting and leasing of glasses case, eye glass cleaning cloths and similar products.

d- Trade, import, export of devices, equipment and their spare parts needed for the assembly of all types of ophthalmic glasses, frames and sun glasses as well.

## 64 – ORGANIZATION

- a- Organizing national and international artistic events, attending to such events in this field as well as organizing artistic and scientific activities and events with paintings, sculpture, ceramics, photography, films, graphics and hand crafts.
- b- Organizing and hosting all kinds of promotion services, public relations activities, animation programs at touristic facilities, animation, organizations and floor shows.
- c- Offering all kinds of animation services, arranging organizations. Promotion of all types of facilities such as health centers, shops, restaurants and archeological sites as well as signing commission agreements. Providing public offering on national and international basis or promotion and marketing through third parties.
- d- Attaining revenue by stating promotion cost or commission price on the agreements. Providing consultancy and support related to its subject.
- e- Import and export of equipment and materials required for conducting these activities.
- f- Organizing and arranging various theaters, seminars, congresses as well as commercial training, symposium, meeting, exhibition, opening, cocktail, invitation, party, celebration, contest, wedding, concert, recital, launching of any business and sector groups. Performing or subcontracting all of their promotion and advertisement business. Company can its own decoration work for cocktail, wedding, opening animation and fun organizations related to its subject.
- g- Production, design, contract production of exhibition stands, boards, printed material, billboards, posters, banners, catalogs, promotional goods and souvenirs; renting, sales import and export of these items.
- h- Conducting activities of local or foreign real person, public and private legal persons concerning the secretarial, media and public relations, advertisement, internal organization, training, publishing and launching of new projects as well as offering consultancy on matters related to its subject.
- i- Setting up or renewing corporate identity, brand positioning, brand renewal, brand research, brand and competitor surveys, media analysis, creating integrated communication strategy and plan for companies and institutions of any sector.
- l- Designing, developing, applying market survey and sponsorship activities as well as all types of marketing and advertisement campaigns addressed to all institutions, establishments and companies on national and international basis. Undertaking, distributing, marketing, selling, renting, installing, operating, renewing, importing and exporting turn key or partial projects based on the contract to be made.

## 65 - FOREST PRODUCTS

- a- Supply of all types of forest products, in raw material, semi-product or product format nationally and internationally; processing of these to be converted to semi-product or product to be sold to domestic or foreign markets, even in unprocessed format.
- b- Production, trade, marketing, import and export of all types of forest products and industrially made products such as wood and logs as well as trade, import and export of their finished goods such as MDF, particle board and chipboard.
- c- Production of products such as hardwood, chipboard, hardboard as well as trade of any material used in their production.
- d- Trade of any equipment, tools and devices required for all types of woodwork and joinery work. Building or renting the existing log and hardwood process facilities, workshops, factories as well as furnacing facilities, warehouses for the purpose of achieving forest good oriented productions. Buying all types and kinds of machinery equipment and materials needed in these facilities either from domestic or foreign markets.

## 66 – AUTO REPAIR MAINTENANCE

- a- Providing repair, maintenance, paint services of all transportation vehicles as well as trade, import and export of all types of material, spare part and service related to these works.
- b- Performing all types of repairs, maintenance, spare part supply, modernization and routine technical service works of all types of motorized, motorless, electrical, electronic road vehicles such as cars, trucks, pick-ups, bus, minibus and similar.
- c- Building and operating washing and oil services for automotive sector as well as wholesale and repair trade, distribution, import and export of material to be used.

## 67 – AUTOMOTIVE SPARE PARTS

- a- Trade, import and export of all kinds of motorized vehicle.
- b- Domestic and foreign production and trade of bus, minibus, truck, pick-up, tractor, taxi cars, motorcycles, bicycles, trailers and similar land, air and sea vehicles as well as heavy duty industrial machinery such as graders, road rollers and

etc. and loading and unloading machinery related to automotive industry. Acquiring related dealerships, exclusive representations and agencies, performing import, export, wholesale and retail trade.

c- Trade, import and export of interior and exterior tires and rims.

d- Acquiring dealership and exclusive representations of internal and external tire manufacturing plants for land, air and sea vehicles, built either locally or abroad. Opening and operating their technical services.

e- Opening, operating and subcontracting auto galleries.

f- Trade, import, export and production of all types of transportation vehicle spare parts.

g- Production or contract production, trade, import and export of all automotive sector related mechanical, electrical, electronical motors and supplementary equipment as well as other functioning accessories.

h- Production, trade, import and export of all types of auto steering wheels.

i- Production, trade, import and export of all types of batteries for motorized land vehicle

ı- Acquiring exclusive distributorship, dealership and agency of auto spare part producers both inland and abroad by signing agreements.

## 68 – TOYS

a- Production, wholesale and retail trade, distribution, import and export of all types of toys.

b- producing all types of electronic and mechanic toys and building up factories and facilities for this purpose.

## 69 – SPECIAL EDUCATION

a- Opening and managing private daily or boarding kindergartens, elementary and secondary schools, dormitories and courses related to education-training in cultural and technical subjects.

b- Opening and managing university preparation courses, high school and secondary school mid-levels, preparation courses for science and military high schools, Anatolian high schools and colleges.

c- Opening and managing foreign language, computer programming and usage, typing, accounting, distant training support, driving and similar courses.

d- Opening and managing all types of private education institution or prep school.

e- Opening and managing nursery, kindergarten, elementary school, secondary school, high school, occupational and technical high schools and boarding houses.

f- Opening and managing private schools for Turkish and foreign languages.

g- Opening and managing special license courses and technical courses with occupational schooling.

h- Performing all kinds of publishing and printing work for conducting the company mission and subject.

i- Performing the distribution of education – training related publishing as well as newspapers, books, magazines and similar publishing for conducting the company mission and subject.

ı- Recording, publishing, distribution and marketing of all types of laboratory material and videos related to education.

k- Company can organize education-training and social contests.

## 70 – PRIVATE HEALTH

a- As long as required permits covered under Health Services Fundamental Law # 3359 and legislations related to this law as well as any other related law are granted, the company can establish private health centers, open hospitals, polyclinics, examination offices, medical centers, medical labs and analysis labs and offer health services.

b- As long as required permits are granted from related officials, the company can set up, operate, self-rent, lease, transfer, buy and sell all kinds of first aid courses, health facilities, health cabinets, maternity hospitals, prothesis treatment centers, hospitals, health clinic, examination offices, private health boarding houses, private check-up centers as well as supportive and supplementary facilities that relate to human health such as medical analysis laboratory, x-ray and blood centers.

c- Setting up and operating diagnosis and treatment centers, physiotherapy, rehabilitation units as long as they are under the roof of hospitals which serve human health.

d- Tomography, computerized tomography and scintigraphy scanning, bone density measurement, mammography, various x-ray graphics, MR, ultrasonography and doppler, magnetic resonance imaging, various endoscopic analysis as well as all types of medical diagnosis, analysis and examination made with radioactive material and equipment on the condition that required permit is granted from related officials.

e- Setting up and operating physiotherapy, oncology, hemodialysis and medical rehabilitation unit facilities.

f- Opening up and operating examination offices, clinics, hospitals related to eye health services.

g- Opening health centers, examination offices and laboratories for oral and dental health.

h- Conducting family doctor services.

i- Upon making agreements with the private and public institutions and establishments, conducting all types of training and first aid training, health services to the employees and local and foreign guests staying at the hotels. Giving consultancy and organizing events related to the subject.

i- Conducting the diagnosis, treatment and post-treatment care of people and diseases as well as all rehabilitation supply services. Offering all kinds of services aimed at first aid and preventive medicine as well as opening examination offices and clinics for this purpose.

k- Trade, self-rent, leasing, import and export of all types of equipment, device, computer required for examination offices, laboratories, diagnosis, treatment, surgery and post-surgery care and follow-up services as well as first aid training. Furthermore, rent, trade, import and export of all types of motorized or motorless vehicles, buildings, land, commodities, equipment, clothing, food, medical consumable to serve this purpose.

l- In order to achieve company goals, follow-up of all state-of-art medical and technical developments, develop new technologies and to participate to local or foreign research, conferences for this purpose. Communicating with scientific institutions and persons related to the subject and making sure that the employees at work are trained.

l- Achieving investments related to company goals and subject as well as offering scientific studies, training organizations related to the given services and all types of training and consultancy services to individuals and companies.

m- Conducting transportation of blood products, medicine, organ, sick and injured domestically or abroad. Trade, leasing, import and export of all types of land, air and sea transportation vehicles, ambulances, helicopters, planes and components for this purpose.

#### 71 – COTTON, LINEN, HEMP, GUNNY-BAG, SISAL, FIBER PRODUCTS

a- Production, import, export and trade of artificial and synthetic cotton.

b- Production, import, export and trade of all types of gunny-bags (made of jute, embroidery, plastic and nylon).

c- Production, import, export and trade of all types of tents, canvas and tent materials.

d- Production, import, export and trade of fiber made from polypropylene raw material.

e- Production, sub-contract, import, export and trade of all types of rope and sail.

f- Production, sub-contract, import, export and wholesale and retail trade of all types of rags being used in industry, agriculture and service industry and are made of thread derived from cotton, wool, linen, silk, artificial and synthetic fibers.

#### 72 – PETROLIUM – FUEL OIL

a- Doing trade and building loading and unloading, storing, distribution, filling facilities of all types of petroleum and petroleum products such as fuels like gasoline, diesel fuel, gas oil, fuel oil, solvents, jet fuel as well as mineral oils and greases. Setting up, operating gas stations and service stations.

b- Serving as the dealer of “Petrol Ofisi” and similar companies

c- Transportation, storage, preservation of all types of liquefied petroleum gas (LPG), oxygen gas, argon, ethane, helium and other noble gases as well as building their filling facilities.

d- Opening LPG sales stations. Providing related services. Converting gasoline cars to LPG as well as import and export of all required materials needed for this.

e- Trade of all kinds of bottled gas, undertaking and giving bottled gas dealerships. Digging wells, running drilling work, project drawing and contract drawing, explore petroleum and gas fields, make deals, rent and purchase, make sales, make partnerships with different third parties or institutions.

#### 73 – PLASTIC AND RUBBER

a- Production, import and export of all elastic, rubber and plastic sheet products and materials related to them.

b- Trade of plastic raw materials.

c- Production and sales of plastic molds and machinery

d- Production, import, export of plates, forks, spoons, glasses, “ayran” and yogurt cups, water cups, food and beverage cups, plastic cups like bottles and caps as well as kitchen ware like basin, bucket and drum, all made of powder, granule or sheet plastic.

e- Production, import, export of plastic material like hoses, covers, awning, pipes, valves, articulation components, watering systems, gutters, brackets, screws, plastic fences that are made of plastic and being used in farming and agriculture.

- f- Production, import, export of all kinds of materials like pipes, joinery, doors, windows, fly nets, decoration items and ornaments, tables and chairs, all made of plastic and related to construction and housing.
- g- Production, sales, marketing, import and export of all types of raw material, semi-product and product related to plastic packaging products.
- h- Production, import and export of conveyor belts, roller coating tapes, Teflon and polyester conveyor belts, power transmission belts, plastic belts, variator belts, timing belts, infinite belts, V belts, plastic and steel conveyor chains and equipment, mechanical power transmission and articulation components, all made from PVC, plastic, polyurethane, felt and rubber.
- i- Collecting all types of plastic waste and converting them to granules.
- l- Production, import, export and trade of polyester storage and tubs
- j- Production, import, export and trade of polyester sheets.

#### 74 – ADVERTISEMENT

- a- Doing advertisement work through television, radio, press, publishing, movies, magazines, posters, all types of electrical and electronic technical device and internet. Building studios, design workshops for this purpose; Doing and contracting all kinds of written, audio, illuminated and visual promotion and announcement work.
- b- performing advertisement and electronic trade (e-trade) through internet. Filing patent and copy rights. For the purpose of advertisement; internet web page designing, setting up web pages, advertisements and e-mail boxes, registering company name and acquiring domain, broadcasting, setting up internet service providers, renting them, set up connections via internet.
- c- Company can supply illuminated and non-illuminated signs as well as doing design and writing print job on promotional material and plates for the purpose of advertisement. Can prepare the needed logos for this purpose and can make commercial investments. It can self-rent and lease big illuminated billboards.
- d- Company can take commercial and non-commercial advertisements. Can display or contract the display of these advertisements on vehicles. Undertaking, doing or contracting all documents, films, tapes, CD, videos, photos, slides, books, magazines, newspapers, pamphlets, catalogs, maps, billboards, boards, posters, illuminated or non-illuminated poster and advertisement works related to announcements and advertisement.
- e- Providing various advertisement, promotion and publicity service. Working as advertisement and promotion agency, signing advertisement agreements with domestic and foreign radio, television and printed media companies. - g- Providing the advertisement, promotion and organization of movies, concerts, theaters, art and fun shows, musicals, folkloric shows, ballet shows, quiz shows and similar that would take place domestically or abroad.
- h- Trade, import and export of all types of raw material, semi-product and end-product used for this purpose.

#### 75 – CLOCKMAKING

- a- Production, trade, import and export of all types of electronic, electrical and mechanic table, wall and wrist watches.
- b- Production, trade, import and export of any material, spare part and equipment related to watch making.

#### 76 – HEALTH SERVICES

- a- Building and operating private hospitals, polyclinics, dispensaries, laboratories, health centers and facilities, health cabinets, maternity wards, dental (dentistry) and prosthesis treatment centers.
- b- Setting up and operating diagnosis and treatment centers, physiotherapy, rehabilitation units and check-up centers as long as they are under the roof of hospitals which serve human health.
- c- Providing and organizing all kinds of medical help, examination, health and medical service. Employing specialized doctors.
- d- Tomography, computerized tomography and scintigraphy scanning, bone density measurement, mammography, various x-ray graphics, MR, ultrasonography and doppler, magnetic resonance imaging, various endoscopic analysis as well as all types of medical diagnosis, analysis and examination made with radioactive material and equipment on the condition that required permit is granted from related officials.

- e- Setting up and operating physiotherapy, oncology, hemodialysis and medical rehabilitation unit facilities.
- f- Setting up and operating medical analysis laboratories.
- g- Setting up and operating all kinds of private hospitals, inpatient and day patient diagnosis and treatment centers, dental laboratories and research laboratories, clinic and polyclinics related to oral and dental health. Self-renting or leasing facilities built for this purpose.
- h- Setting up, operating, refurbishing, self-renting and leasing of examination offices, clinics and hospitals for eye health services. Conducting local and foreign patient accompany processes.
- i- Providing contact lens, cosmetic lens application services. Import, export and marketing of these.
- j- Research on psychology field and providing training and treatment services both locally and abroad. Setting up related polyclinics and clinics.
- k- Setting up and operating clinics for the purpose of solving mental issues, helping personality development and improving living standards.
- l- Company can provide all kinds of animal treatment, care, surgery and vaccination as well as accommodation services. Can provide x-ray, ultrasound, blood and urine tests, MR, scintigraphy, computerized tomography, all types of biochemical analysis, ambulance service for the purpose of related diagnosis. Can conduct trade, production, import and export of all types of animal products, feed, accessories, care material, medicine and vitamins.
- m- Providing inner-city, domestic and international funeral transfer services and conducting embalming procedures. Trade, import and export of all types of medical material and other components needed for this job.
- n- Can employ subject-related doctors, assistants, nurses and various other health workers, can transfer them to other health facilities, can employ health workers on regular or contract basis in its own or other facilities.
- o- Providing or contracting the providing of ambulance services.
- ö- Making diagnosis and treatment targeted agreements with foreign companies within the scope of its subject, giving out and taking exclusive representations, agencies as well as participating to tenders related to its subject.
- p- Investing in any kind of health facility and medical device as well as operating them.
- r- Buying, renting and importing of ambulances, helicopters and planes for the purpose of transferring patients locally and internationally.

## 77 – SANITARY AND HEATING SYSTEM MATERIALS AND DEVICES

- a- Installing natural gas pipelines from nation-wide natural gas networks to houses, apartments, work places, industrial and similar facilities as well as installing burners, radiator boilers, room heaters. Executing installation, maintenance, repair work of house, work place and industry equipment that work with natural gas as well as trade, import and export of all types of tools and equipment, machinery and spare parts required for these installations and service.
- b- Production, trade, import, export, exclusive distributorship and brokerage of heating, cooling and ventilation devices being used in houses and offices and that works with electricity, solid fuel, liquified petroleum gas and similar fuels together with their spare parts.
- c- Executing the plan, project and commissioning of various fire safety utilities, steam and boiling oil utilities, water conditioning utilities, industrial utilities, automated control systems, cooling utilities as well as their isolation and insulation work as well as participating to national and international tenders.
- d- Production, trade, import and export of bathroom and kitchen accessories such as tiles, floor tiles, sinks, toilets, bath tubs, armatures, water faucets.
- e- Import, export and inland wholesale trade of main and supplementary components used in the production and installation of all types of water purification, waste water systems and water tanks as well as all types of machinery and equipment related to the subject.
- f- Preparing air, gas, drinking and waste water treatment projects, building up treatment facilities, conducting storage, rehabilitation and recycling of solid waste.
- g- Production, trade, import and export of all kinds of chimney and chimney equipment used in industrial facilities and heating systems.

## 78 – CINEMA RADIO AND TELEVISION

- a- Conducting all types of news agency job both domestically and internationally.
- b- Production or contract production of television and music programs; providing service to broadcasters, producers and communication organizers on international basis. To ensure that advertising and promotional programs and products are published by all kinds of broadcasting tools.

- c- Conducting the display, marketing and distribution of all kinds produced or imported cinema, TV, video films as well as participating to national and international prized or non-prized festival, funfairs, fairs and markets.
- d- Setting up, self-renting, leasing and operating film studios
- e- Setting up all kinds of audio-visual recording studios, giving out and taking representations, buying and selling of related properties like copyrights and patent rights. Providing all kinds of consultancy in cinema and TV fields.
- f- Conducting the organization of agents, productions and figurations
- g- Buying and selling of copyrights for every work of art.
- h- Building industrial facilities, studios, laboratories, sets and workshops in order to conduct the work under company subjects as well as buying, renting existing facilities and studios and making all type of contracts and partnership with their owners.
- i- Broadcasting of all types of advertisement and promotion programs and products through all types of encoded or unencoded broadcasting media (satellites, paid transmitters, reflectors and similar) as long as they comply with the legislation rules of the radio and television establishment and broadcasting regulations.
- l- Export and temporary import of all operating materials (camera lighting, display, measurement, maintenance, archiving, encoding, subscription management systems, decoders, audio recording, montage, film cassette) including radio and TV transmitters that are required by the film, video and close/open television studios.
- k- Producing, providing, gathering and marketing of all types of production services such as program, documentary, news, clip and commercials, either live or recorded for the television and radio stations that work on international, regional and local level.

#### 79 – SITE MANAGEMENT

- a- Providing services such as janitor services, pool and garden cleaning and control, landscaping, tree planting and germination as well as all types of repairs and maintenance work, shopping service, bill payment service and similar to the tenants and house owners.
- b- Professional site management and operation services; technical operating management, maintenance, control and repair of mechanical applications such as air pressure tank, ventilation, generator, elevator, alarm, heating, air conditioning and sanitary systems.
- c- Conducting the site-apartment managing services related to houses, homes and mass houses.
- d- Making the yearly site or building cost and payment plan.
- e- Preparing the proportional payment plan related to the site or apartment expenses, to be used if wanted
- f- Collecting maintenance fees related to the shared expenses of the sites being served and spending it on related accounts.
- g- Preparing the site's common heating expense plan
- h- Conducting or contracting all types of maintenance and repair work of the site's common living areas. Conducting other repair and similar work if requested by the site and the users of the common living areas.
- i- Determining the expenses that have to be shared in sites and site-like living areas and calculating the monthly maintenance fees.
- l- Conducting modernization work that would facilitate the life of site habitants.
- k- Renting and cancelling the rental contract related to third persons based on given power of attorney.

#### 80 – WATER PRODUCTS – PETS

- a- Trade, import and export of all types of sea and fresh water products. Building integrated facilities for the production of these products.
- b- Trade, import and export of fish nets and threads as well as various accessories like ropes, sinkers, cork, fishline rod, oilcloth, canvas used in fishing.
- c- Production, trade of fish oil including canned format.
- d- Setting up all types of bird breeding farms
- e- Trade, import and export of aquariums and aquarium fish, aquarium components and accessories, cager birds and their cages and cage accessories as well as feeding material of aquarium fish, cage birds and pets.

#### 81 – SPORTS EQUIPMENT

- a- Trade, import and export of all kinds of sports equipment.

b- Trade, import and export of subject-related football, basketball, volleyball, table tennis, handball, athletics, wrestling, swimming, boxing, tennis, golf equipment.

## 82 – DAIRY PRODUCTS

a- Production, trade, storage, packaging, boxing, marketing and distribution, import and export of milk and milk products.

## 83 – SUGARY PRODUCTS, CANNED FOOD AND BEVERAGES WITH AND WITHOUT ALCOHOL

a- Trade, packaging, distribution and marketing of all types of water and spring water. Trade, production, import and export of water drum and water pump. Building filtration laboratory and filling facilities for this purpose.

b- Opening water stations and building facilities related to this.

c- Setting up research analysis facilities related to the subject; measuring water hardness, employing technical people or being partners to the existing facilities or taking in partners.

d- Production, trade, marketing and export of all types of drinks with or without alcohol, still and fuzzy beverages, fruit nectars, concentrates and pulps, natural spring and mineral water.

e- Production, import and export of all types of sweets and sugary products, chewing gum, biscuits, chocolate and chocolate products, waffle varieties.

f- Production of food products such as ice cream, pudding, rice pudding, baklava, Turkish delight, grape syrup (“pekmez”), jam varieties, chestnut candy as well as wholesale and retail trade, import and export of all raw and supplementary materials related to them.

g- Building, renting and operating canned food, packaging industry and cold storages related to the company subjects.

h- Company can work as package store (off license) in compliance with the current legislations. Trade, import, export, marketing, wholesale and retail trade of related products. i- Company can work as dealers of gambling and chance games in compliance with the current legislation and laws. Can open and operate business related to these.

i- Production, wholesale and retail trade, packaging, marketing, import and export of tea products (black tea, green tea and tea bags and tea extracts, essences and concentrated formats).

## 84 – AGRICULTURE

a- Production, processing, trade, packaging services, import and export of all types of fresh, dry, frozen vegetables, fruits, flowers, legumes, cereals and agricultural products.

b- Production, trade of vegetable, fruit seeds, seedlings, shoots and all types of cropland and ornament plants.

c- Production, trade, import and export of canned, paste, marmalade, jam, syrup, grape syrup (“pekmez”), vinegar format of all types of agricultural products.

d- Conducting technological consultancy work related to all agricultural subjects, developing landscape improvement and agricultural projects, contracting and controlling projects and investments.

e- Trade of packaging, pipes, watering equipment and other products made of all types of glass, cardboard, plastic and other materials and being used in agriculture.

f- Trade, self-rent and leasing, maintenance, import and export of motors, motor-pumps, electro pumps, centrifuge pumps, vehicles, tractors and equipment as well as all types of equipment, machinery, spare parts and accessories related to farming.

g- Building, using, taking over, transferring, buying and selling, self-renting and leasing of movable or non-movable facilities, grape yards, gardens, lands, greenhouses, farming technologies related to the subject. Exercise all kinds of real and personal disposal over these.

h- Conduct all types of seed development, growing and improvement work

i- Import and export of all types of greenhouse and greenhouse technologies, providing domestic and international consultancy on this subject and conducting all kinds of greenhouse management.

ı- Developing olive gardens, trading and renting them.

k- Trade, import and export of all kinds of organic and chemical fertilizers and pesticides, home pesticides, veterinary medicine, environmental health medicines, all types of chemicals agents related to farming and agriculture as well as hormones related to analysis, plant growth regulators and all kinds of chemical and natural fertilizers.

l- Trade, import and export of turf soil.

## 85 – AGRICULTURAL ANALYSIS LABORATORY

- a- Running all kinds of soil, leaf, water, fertilizer and any chemical analysis and reporting the results. Providing consultancy and setting up and operating laboratories for this purpose.
- b- Running all types of environmental and food analysis, getting results, providing consultancy and setting up and operating laboratories for this purpose.
- c- Setting up and operating calibration laboratories related to the subject
- d- Production, import, export, trade and marketing of all types of chemical agents, hormones, natural fertilizers, organic fertilizers, germination agents, plant root developers, all types of materials used in agriculture.
- e- Production, import, export of all kinds of pesticides, chemicals, fertilizers, plant growth regulators, organic, inorganic and any type of chemical agents as well as trade and marketing of all types of pesticides, chemicals, fertilizers, plant growth regulators, organic and any type of chemical agents produced or imported by others.

## 86 – TRANSPORTATION

- a- Transportation by means of all types of yachts, cruisers, marinas, hydrofoil, cargo vessel, tanker, passenger ferry, planes, buses, trucks, pick-ups, cars, minibuses, midi buses, trailers, tow trucks, motorcycles, inner city minibus as well as inner city, domestic and international transportation by sea, land, air vehicles. Operating, contracting, self-renting and leasing of all these.
- b- Providing service related to sea, land and air vehicles as well as providing their food, water, fuel, spare parts, accessories and maintenance of their tires and supply of their component needs.
- c- Conducting freight and commodity shipment with all types of land, air and sea transportation vehicles both on national and international basis as well as working as freight forwarder and agency.
- d- Buying, selling, self-renting and leasing of all types of transportation vehicle related to the company operations.
- e- Company can conduct inner city and intercity bus, shuttle and freight operations with respect to personnel, worker, student, passenger and all kinds of freight transportation of public and private institutions on receipt of permission from relevant authority. Can buy, operate, sell, self-rent and lease equipment, material and vehicles related to the subject.
- f- Providing air crafts and ambulance service.
- g- Conducting inner city and intercity and international passenger transportation with all types of air, sea and land vehicles.
- h- Conducting student and personnel transportation.
- i- Selling any type of tickets for all transportation means such as plane, bus, ship and setting up ticketing offices for this purpose.
- j- Conducting all types of ship and yacht operations, chartering ships and yachts.
- k- Providing all types of motorized vehicle service for commercial purposes.
- l- Conducting freight and commodity shipment with all types of land, air and sea transportation vehicles both on national and international basis as well as working as freight forwarder and agency.
- m- Buying, selling, self-renting and leasing of all types of transportation vehicle related to the company operations.
- n- Conducting cargo, package and envelope transportation on national and international basis. Providing courier service with or without vehicle.
- o- Transportation, loading and unloading of any type of cargo by means of air, sea and land.

## 87 – TEXTILES GARMENTS

- a- Production, trade, distribution, import and export of textile goods made of wool, cotton, silk, artificial and synthetic fiber and similar material.
- b- Production, import, export, wholesale and retail inland trade and marketing of woven and knitted fabrics made of all types of silk, cotton, wool and synthetic natural fibers and other threads.
- c- Production, wholesale and retail inland trade, marketing of clothing such as all types of apparels, denim, pants, jeans, sweat pants, shirts, jackets, coats, skirts, sweaters, ties. Preparing creations, organizing fashion shows, getting and giving dealerships, agencies, exclusive representations as well as setting up workshops, factories and opening shops serving this purpose.
- d- Production, import and export of male, female, children knitwear made from all types of wool, orlon and synthetic threads.
- e- Tailoring of all types of women and children bridal gown and engagement dresses; trade, labor, import and export of bridal head ornaments, gloves, underskirt and similar goods.

f- wholesale and retail trade, import and export of all kinds of fabric, guipure lace, veil, satin and other materials related to bridal and engagement gowns.

g-Production, import and export of all kinds of female, male, children underwear, night gowns and pajamas from cotton and synthetic fabric.

h- Production, trade, import and export of all types of socks for women, men and children.

i- Production of all types of woven and woven products.

i- Production, wholesale of woven label as well as production and trade of printed labels.

k- Production, import and export of all types of seat belts, parachute harness, gun sling, cartridge belt, belts, bag colons, colon ribbon, reinforcement-tape, tape, dressing, hub rubber, hosiery rubber varieties, footwear braid and tape, male and children suspenders and all types of narrow woven varieties.

l- Embroidering of textile products and contracting the embroidery work.

m- Production, trade, import, export and marketing of all types of machinery, device, equipment, material, spare parts and accessories used in all kinds of textile and garment industry as well as their consumables.

## 88 – TELECOMMUNICATION

a- Trade, import, export and distribution of all types of components needed for providing communication services.

b- Trade, production, repair and maintenance, import and export, inland commerce, marketing, dealership, distributorship and exclusive representation of all kinds of cellular and mobile phones, switchboards, wireless telecommunication devices and their spare parts and accessories.

## 89 – CLEANING SERVICES

a- Interior and exterior cleaning and waste collection of all private and public institutions, municipalities, mass house and sites, industrial and agricultural facilities, plazas and office buildings as well as streets and boulevards. Building waste disposal and purification-sorting facilities.

b- Trade of all types of cleaning agents and equipment as well as cleaning devices.

c- Conducting the pest control and disinfection of all type of houses, office blocks, buildings, business centers, hotels, mass housing, private and public hospitals and all open areas. Trade, import and export of pesticides, devices and equipment needed for pest control.

## 90 – CLEANING AGENTS

a- Production, wholesale and retail trade, distribution, import, export of all types of cleaning agents and materials, liquid-powder-solid detergent varieties, concentrated detergents, liquid soap, soap, softener and similar products, petrochemical products and domestic and industrial gases.

b- Production, wholesale and retail trade, distribution, import and export of all kinds of raw material, semi-product related to the company subject.

## 91 – ANGORA WOOL WEB GOAT HAIR RAG

a- Production, wholesale and retail trade, import and export of all types of men shaving brush.

b- Trade of oil paint, whitewash brush made of all types of synthetic, vegetal and animal hair; trade of raw material and supplementary material related to these products.

c- Trade, import and export of angora wool web.

d- Production, wholesale and retail trade of all types of wigs, hair, beard and mustache.

## 92 – MEDICAL DEVICES – EQUIPMENT AND DENTISTRY EQUIPMENT

a- Trade, import, export of all types of medical devices and their spare parts, laboratory equipment, x-ray instruments and equipment, surgical equipment, radiology and nuclear medicine materials, sterile materials that are needed by the hospitals, clinics, polyclinics, laboratories, doctor offices and health facilities.

b- Setting up dental prosthesis laboratories; Production and repair of all types of teeth and dentures from metal, plastic and porcelain.

c- Trade, import, export, exclusive distributorship, contracting and inland trading of various dentistry equipment and materials as well as conducting technical service.

d- Wholesale and retail trade, distribution, import and export of orthopedic shoes, boots, sandals, insoles, prosthesis, devices, corsets, compression socks, artificial knee joint, elbow working esthetic hands, walking device, crutches and various orthopedic products.

#### 93 – SOIL PRODUCTS, CEMENT

a- Stone crushing work and sand production from stone. Purchase and installation of machinery and equipment related to this.

b- Production, sales of ready-mixed concrete and elements, ready-mixed concrete carriage, self-renting or leasing the built ready-mixed concrete stations.

c- Production of all types of concrete pipe, clay tile, curbstones, chimney ring and briquette. Trade, import, export and marketing of semi-products and products used in their production.

d- Building all types of stone, sand, lime, soil, clay, stone chip pits; operating, self-renting or leasing them.

e- Production, trade, import and export of construction material, especially bricks, roof tiles, filler, firebrick, furnaced sand and cement.

f- Opening pits to obtain the raw material of ceramic and porcelain soil as well as building facilities to process them.

g- Production of any types of raw material to be used in the manufacturing of all types of bathtubs, tubs with hydromassage, bath cabinets, shower cabinets, urinals, toilet bowl, toilets, kitchen sink, their separations and construction elements made from ceramics

#### 94 – TRAFFIC CONSULTANCY

a- performing traffic consultancy work; conducting all kind of work related to buying, selling, transferring and registering all types of vehicles as well as lost registry license issuing or renewal procedures, license plate issuing or renewal.

#### 95 – HOSIERY

a- Production, wholesale, retail trade, distribution, import export of all types of lace, thread varieties, scallops, ribbons, rubber, fabric stabilizer, embroidery frame, knitting needle, hook, embroidery, snap fastener, scissors, curtain tape, tailor stone, measuring tape, touch and close fastener, braid ribbon, shoulder pad, cuff links and button varieties.

b- Production, wholesale, retail trade, distribution, import export of all types of bone, plastic and metal zippers and zipper side components.

#### 96 – TOURISM TRAVEL AGENCY

a- Self-renting, leasing, taking over, handing over, constructing , buying, selling and operating accommodation, recreation, sightseeing, entertainment and food & beverage places such as hotel, motel, camping, hostels, holiday villages, resting houses, thermal centers, beaches, cafeterias, restaurants, tea gardens, coffeeshouses and hookah cafes as well as full touristic facilities, swimming pools, public baths, steam baths, touristic areas, parking lots, water sports, outdoor sports, mountain tourism, thermal tourism, outdoor and indoor sport halls, night clubs, mountain, sea and other water sports and attractions, rafting, water ski, swimming and activities related to other mountain and water sports as well as facilities and operations.

b- Acquiring agency certificate as per Travel Agency Act, no:1618, building up tourism agency, arranging accommodation of local and foreign tourists, organizing tours.

c- Company can set up, operate, take over, hand over tourism agencies for the purpose of providing tourism service both on national and international basis, can open and operate subsidiaries of the existing agencies, conduct local and international tourism organizations, organize sightseeing tours, can sell tickets of such tours organized by other agencies, can take reservations related to these, can provide consultancy service for passenger transportation, tour and guide services, transportation, accommodation and related subjects, can take reservations or sell or buy land, sea and air transportation tickets.

d- Conducting yacht operations and yacht tourism, supplying all type of needs of domestic and foreign yachts, cooperate with other companies for these types of supply chains.

e- Self-rent of renting of all types of bicycles, motorcycles and cars for the purpose of tourism.

f- Conducting or contracting the air, sea and land transportation and transfer processes required for the tourism services on both national and international scale.

g- Organizing national and international artistic events, participating to activities related to this purpose. organizing artistic and scientific activities and events with paintings, sculpture, ceramics, photography, films, graphics and hand crafts.

h- Organizing and hosting all kinds of shows, animation, events and entertainment programs at touristic facilities.

i- Trade, import, export and leasing of mountain tourism, tableland tourism, land and air sports equipment and instruments.

ı- Operating in any kind of outdoor, underwater and water sports, buying of equipment and material related to underwater diving and water sports, using all types of equipment and material required for them as well trading, import and export of all related material.

k- Serving for the purpose of all types of outdoor, underwater sports and sportsman health. Trade, import and export of devices and material required for this purpose.

l- Trade, marketing, import and export of all types of souvenirs made for touristic purposes using copper, brass, sepiolite, marble, crystal, wood, ivory, glass, melamine and precious metals

m- Wholesale and retail trade, marketing, import and export of all types of souvenirs and jewelry made for touristic purposes using silver.

n- Selling any type of tickets for all transportation means such as plane, bus, ship and setting up ticketing offices for this purpose.

o- Conducting all types of ship and yacht operations, chartering ships and yachts.

ö- Renting all types of motorized vehicle service for commercial purposes.
