## OUR STRENGTH

- Well qualified and experienced staff at all level of work
- Located near the international port Mundra and Kandala, India
- Uninterrupted power supply and well connectivity with most commercial centre

# CLICKS OF INFRASTRUCTURE

## PRODUCT RANGE

- Plain and multicolor PP/HDPE make woven fabric
- Plain and flexo printed woven bags/sacks
- Multicolor bags/sacks
- BOPP bag
- Fertilizer & chemical bags
- Cement bag
- Bags for agriculture
- Bags for atta, maida, etc

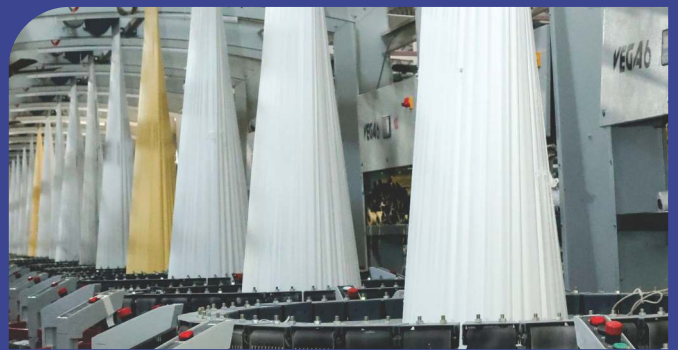

FILLER PLANT (1 NOS.)

RAW MATERIALS

TAPE EXTRUSION LINES (4-LINE)

CIRCULAR LOOM (240 NOS.)

LAMINATION PLANT (1 NOS)

BCS PLANT

TAP WINDER

FLEXO - PRINTER

BALE PRESS

LAB INSTRUMENT

## INFRASTRUCTURE :

---

- 150000 square feet shed for manufacturing process, stock of raw and finished materials.
- 125 litre capacity filler master batch making plant – 1 Nos.
- 600 KGPH capacity Tape Extrusion Line, JP make – 4 Nos.
- 6 shuttle, VEGA-6/VEGA-LF-609 (Jumbo) model circular looms – 240 Nos.
- Lamination Machine Model JP 80 CR 1600 with BOPP matching facility – 1 Nos.
- Automatic BCS machine line with Gusseting, cutting and stitching – 2 Nos.
- 6 color flexo roll to roll printing machine – 1 Nos.
- 60 Ton capacity bale press
- Tensile strength tester, MFI tester, Ash content tester

## MANUFACTURING PROCESS INFRASTRUCTURE :

---

- Preparation of filler master batch
- Mixing of raw materials
- Production of tapes
- Weaving of tapes
- Lamination of woven fabric
- Printing of woven fabric roll
- Gusseting, cutting, stitching and balling of bags
- Storage of finished goods and dispatch.

## WHY SANTURO POLYFAB LLP :

---

- Multiple assortment under single roof
- Customization
- Competitive rate
- Timely delivery
- Durability & reliability
- Available in various sizes, colors, designs

## PRODUCT RANGE :

---

- Plain and multicolor **PP/HDPE** make woven fabric
- Size : **12"** to **58"**
- **2 gm** to **6 gm** ( DNR **440** to **1300** )
- Plain and flexo printed woven bags/sacks
- Multicolor bags/sacks
- All Type of Laminated Bag & Unlaminated Bag
- Fertilizer & chemical bags
- Cement bag
- Bags for agriculture
- Bags for atta, maida, etc

## OUR QUALITY

At **Santuro Polyfab LLP.**, we are a team of professionals driven by quality. a santuro polyfab llp is an **ISO 9001 : 2015** and **ISO 14001 : 2015** certified company. At our factory, we have established a sophisticated testing facility and the manufacturing unit is equipped with a range of ultra modern machinery to produce high quality **PP Woven** and other allied products under strict supervision.

A team of highly qualified staff looks after all these operations and ensure that each and every finished product we manufacture adheres to the quality objectives we have set for ourselves. Only the best quality raw materials (PP, HDPE, BOPP, etc.) are used and products are dispatched only after thorough final inspection. This extent of quality consciousness is the secret behind our achievement as a major player in the Tubular Fabric, bags of BOPP, Fertilizer, Chemical, Cement, Agriculture, atta, maida etc market.
