FAQ

IN MANY YEARS OF BUSINESS, K-TIMBER HAS RECEIVED MANY QUESTIONS FROM CUSTOMERS ABOUT PRICE AND QUALITY

Why is the PRICE of wood at other suppliers 50 USD cheaper than K-TIMBER? Why is the PRICE of wood at K-TIMBER higher than the market average?

K-TIMBER always asserts that: "The percentage of wood waste and heartwood of K-TIMBER is almost non-existent. We guarantee that the wood meets FAS quality standards with a good wood ratio of up to 90%"
