

One-Stop PVD Solution By King E

What We Do?

King E VTFM provides a one-stop solution for vacuum coating customers, including: overall planning of coating plant, equipment, consumables, parts selection, customization, procurement and after-sales service, including vacuum coating before and after treatment processes, such as substrate cleaning, anti-fingerprint processing.

Our products include complete sets of PVD machines and their spare parts, including vacuum pumps, power supplies, flow control systems, vacuum measuring systems, vacuum pump oil, etc. We produce our own targets, including various types of arc targets, column targets, plane targets, and also develop and customize targets according to customer needs.

In addition to providing customers with all the hardware of vacuum coating systems, we also provide free coating process guidance and coating problem solving for our customers to help our customers get the highest profit return.

In short, as long as you can think of all the problems in vacuum coating, you can get solutions here.

- ✧ PVD machine
- ✧ Vacuum pump & oil
- ✧ Power supply
- ✧ Vacuum measuring system
- ✧ Mass flow control system
- ✧ Valves
- ✧ Sputtering target
- ✧ Thermal evaporation material & evaporation boat
- ✧ Anti-fingerprint
- ✧ Jigs
- ✧ Chemicals
- ✧ The others

PVD Machine

We have our own PVD equipment factory, can customize PVD coating machine according to customer requirements, widely used in metal, plastic, glass and other decorative coating. We can also according to customer requirements on behalf of customers to purchase the designated brand of PVD coating machine. Because of our strong purchasing capability in China, we can provide customers with cheaper purchasing prices and provide good after-sales service.

Vacuum Pump & Oil

Turbo molecular pump, diffusion pump, Roots pump, rotary vane pump, slide valve pump, mechanical pump, rough pump, holding pump..... So many pumps, can you distinguish clearly? Don't worry. We will help you to find correct pump to achieve vacuum required.

Brand Available: Lebold, ULVAC, Nanguan, CUI MAN, etc.

Turbomolecular pump

Diffusion pump

rotary vane pump

Roots pump

Vacuum pump oil

Diffusion pump oil, mechanical pump oil, vacuum silicon grease oil, etc.

Brand Available: GONGHUA, HFV, etc.

Power supply

Arc target power supply, MF power supply, Turbo molecular pump power supply.

Brand Available: SZZR, PILOT, SHENGPU, etc.

Vacuum measuring system

WE ONE STOP SOLUTION FOR PVD AND PROVIDE PVD CONSULTANCE FOR FREE!

Brand Available: ZHAC, 清华同方, etc.

Mass flow control system

Brand Available: SevenStar, SHY, INHA, etc.

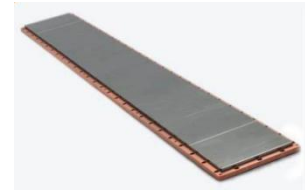

Valves

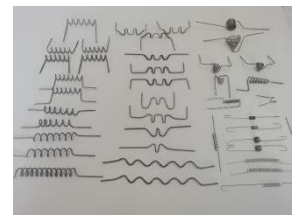

Sputtering target

Arc target, MF column target, plane target

WE ONE STOP SOLUTION FOR PVD AND PROVIDE PVD CONSULTANCE FOR FREE!

Thermal evaporation material & evaporation boat

Anti-fingerprint

Jigs

Customized as per customer requirement

Chemicals

Titanium removing agent

Chrome removing agent

Grease & Oil removing agent

PVD coating shielding oil (blue oil)

The others

Arc source

Sight glass

Silicon grease

Arc target coil

Rubber ring & Gasket

Vacuum leak detector

Magnetic induction heating
