# ABOUT COMPANY

Established over 25 years ago, we initiated our journey by importing bearings and steel balls from China and Japan. Early on, we recognized the potential for expansion and swiftly transitioned into exporting, steadily growing from a small-scale venture to a larger-scale enterprise. Today, alongside our advanced bearing manufacturing facility, we proudly export a diverse range of agricultural food products to numerous countries worldwide

# VISION

Our vision is to enhance global connectivity and prosperity by seamlessly importing, manufacturing, and exporting precision-engineered bearings, steel balls, and agricultural products. Through a steadfast dedication to innovation, quality, and sustainability, we aim to become the preferred partner for driving efficiency and reliability across industries worldwide

# MISSION

Our mission is to deliver excellence in import, manufacturing, and export services, providing top-tier precision-engineered bearings, steel balls, and agricultural products to global markets. Through strategic partnerships, continuous innovation, and uncompromising quality standards, we aim to exceed customer expectations while fostering sustainable growth and contributing positively to the communities we serve

# MILESTONE

As an **exporter**, the global market offered various opportunities for our products. For instance, **Himalayan Pink Salt** has been exported by us to multiple countries. **Halal meat**, a significant export, has seen substantial trade, with **Dubai** leading in shipments. **Green Chili Powder, potatoes, wheat, and rice** are also in demand globally, with **Dubai** being a key player in the **export market**. Additionally, **maize corn**, primarily used as **animal feed**, has experienced a surge in exports. Understanding the specific requirements and regulations for each product in the **target export market** is essential for successful trade.

**1996**

Our company initially imported **bearings, steel balls, hacksaw blades, and aluminum oxide sharpening tools** on a small scale. As we gained expertise, we transitioned to exporting these items internationally, becoming a trusted supplier of industrial products.

**2006**

Our company initially **imported bearings, steel balls, hacksaw blades, and aluminum oxide sharpening tools** on a small scale. As we gained expertise, we transitioned to **exporting** these items **internationally**, becoming a **trusted supplier** of industrial products.

**2016**

Having expanded into **manufacturing bearings** with our own factory, we've also diversified our **exports** to include **agricultural food products**. Our goods now reach markets in **Iran, Dubai, and beyond**, solidifying our reputation as a versatile and dependable **supplier across various industries**.

# OUR TEAM

United in purpose, driven by passion, and guided by a shared vision, our team navigates the complexities of global trade with seamless synergy, forging pathways to success one partnership at a time

**SOHAIB KHALID**  
FOUNDER AND CEO

**FAROOQ HAMEED**  
EXPORT MANAGER

**STAY  
INSPIRED.  
NEVER  
STOP  
CREATING.**

# OUR SERVICE

Overall, the company's comprehensive services encompass the **exportation of agricultural food products**, manufacturing of **finished products**, and the **importation of goods**, all with a focus on **quality, reliability, and customer-centricity**.

- **Service 01**

**Export Services:** Leveraging expertise in international trade to export **agricultural food products** to diverse markets worldwide, including countries like **Iran, Dubai, and others**, facilitating global access to **quality agricultural goods**.

- **Service 03**

**Customization:** Offering customized solutions to meet **specific client needs**, including **product specifications, packaging, and logistical requirements**.

- **Service 02**

**Quality Assurance:** Implementing rigorous **quality control measures** at every stage of the **import and manufacturing process** to ensure **consistency, reliability, and customer satisfaction**.

- **Service 04**

**Customer Support:** Providing **responsive and personalized customer support** to **address inquiries, facilitate smooth transactions, and build long-term partnerships**.

# THE PROCESS

Overall, the company's export process is characterized by meticulous planning, adherence to regulatory requirements, and a commitment to delivering high-quality products to customers worldwide.

1

## Process 01

Procurement and Quality Assurance: The company sources agricultural products from trusted suppliers, ensuring they meet stringent quality standards through thorough inspection and testing.

2

## Process 02

Documentation and Logistics: Necessary export documentation is prepared, and the products are properly packaged and labeled. Logistics are coordinated for transportation to the port of export, where customs clearance procedures are completed.

3

## Process 03

Shipping and Customer Delivery: The products are shipped via ocean freight to destination countries, with the company overseeing customs clearance and delivery to customers' specified locations, ensuring satisfaction and feedback collection for continuous improvement.

# OUR GOALS

**Continuous Improvement of Product Quality and Service:** The primary focus is to consistently enhance the quality of both industrial products (such as bearings and steel balls) and agricultural food products, as well as the overall service provided to customers. This goal involves actively soliciting feedback from customers, implementing improvements based on their suggestions, and maintaining open communication channels to ensure their needs and expectations are met or exceeded.

## Goals 01

**Expansion of Market Reach:** Aim to penetrate new international markets for both their industrial products (bearings and steel balls) and agricultural food products. This goal could involve conducting market research, establishing partnerships with distributors or retailers in target regions, and implementing marketing strategies tailored to each market's preferences and regulations.

## Goals 02

**Enhancement of Manufacturing Efficiency:** Strive to improve manufacturing processes and increase operational efficiency in the production of bearings and steel balls. This goal could involve investing in advanced machinery or technology, optimizing production workflows, and implementing quality control measures to ensure consistent product quality while minimizing costs and lead times.
