Flower Pots & Gardening Accessories

Welcome to our family-owned business! Nowadays, we are a member of a family of companies that are producers and exporters of different types of plastic Flowerpots, Gardening equipment, and Pets accessories. We have 11,000 square meters closed and 3,000 square meters open production area. All of the closed area's roofs top covered with solar energy units. With more than 30 skilled production persons we are trying our best to make the best products from recycling materials. We are using recycled materials as raw materials, and we have zero waste production.
