The Perfect Balance:

Our Sustainable and Safe Wheat Straw Plastic Toy Line

Environmentally Friendly:

By using wheat straw-PP plastic, we can help reduce our reliance on non-renewable petroleum-based plastics, which contribute to pollution and waste.

Sustainability and Safety:

We've done the tests! Our PP-Wheat Straw Plastic Toy Line is 40% wheat straw and 60% safe and durable PP plastic - the perfect balance of eco-friendliness and kid-safety. Our toys won't break or poke, ensuring the highest standards for safety and quality.

Biodegradable and Compostable:

Wheat straw-PP plastic is also biodegradable and compostable under certain conditions, which can reduce waste and help preserve our planet's resources.

The Perfect Balance:

Our Sustainable and Safe Wheat Straw Plastic Toy Line

Verified Sustainability:

- Our Wheat Straw Plastic Toy Line has been tested and verified by PJLA #59423 accredited to ISO/IEC 17025:2017 in radiocarbon C14 standards.
- The test results show that our plastic contains 21% biobased carbon content in the material relative to a National Institute of Standards and Technology (NIST) modern reference standard (SRM 4990C), which originated in the US ASTM D6866-04 standard. This means that we are committed to not only using sustainable materials but also verifying and ensuring their sustainability through rigorous testing and standards.

Together, we can make a difference! Let's choose eco-friendly and sustainable products that are also safe for our children. By doing so, we can create a better future for our kids and our planet. Join us in this mission towards a more responsible and sustainable future.
