POLINE

COMPANY
PROFILE

THE DOOR TO NEW DIMENSIONS

F O U N D A T I O N S T O R Y

THE FOUNDATION OF
EVERY GREAT BUSINESS IS A

CLEAR AND COMPELLING PURPOSE

India and the whole world are becoming emerging markets since the COVID-19 pandemic. We were eyeing the niche market and industry where India had very thin chances to enter, which can give us an edge if we get successful. Earlier, China dominated the market selling all the necessary equipment used in gas connections in Surat & PAN India. During the research, The campaign “ Make in India” by the honourable Prime Minister Shri Narendra Modi, inspired us, and also the campaign “Vocal for Local” gave us the strength to venture into this segment. So from here, we got the inspiration to start this company. Apart from this, the mission of the Government of India is to provide gas connection facilities in every part of India, be it a village or city, by 2050 and make people's lives easier. So we see a huge growing market with many new business opportunities in this sector. This can also be said to be a fundamental reason that we started a VALVE MANUFACTURING COMPANY named POLINE TECHNOLOGIES PVT LTD. in 2018, to increase our business in this developing new market so that we can play an important role to support this mission of the Government of India, and thereby play a vital role in contributing to the people and society. We hope that our products & services would make life easier not just for Indians but also for people across the world. Therefore, in the coming future, we are moving rapidly toward our vision of becoming a leading company in this industry.

A B O U T U S

CUSTOMERS DESERVE TO KNOW MORE ABOUT US
AS THEY ARE NOT JUST OUR CLIENTS, BUT

PARTNERS IN OUR JOURNEY TOWARDS SUCCESS

Four years ago, in 2018, We founded a brass valve manufacturing unit in Surat, Gujarat. Poline Technologies Pvt. Ltd was a contract manufacturing company back then, but since 2021, Poline Technologies Pvt. Ltd has successfully evolved into a full-service brass valve manufacturing company.

Poline Technologies Pvt. Ltd is part of the prestigious Gunatit Group of Enterprises. We manufacture high-quality brass valves and offer our services across India.

Our success record over the last several years has been exactly proportionate to all of the hard work put in by our founders and our dedicated crew.

We are a part of the government project Make in India and have received a certificate from Start-Up India. Our company has improved in many areas, from manufacturing a greater range of items to creating an ideal supply system throughout India. Our achievements have only inspired us to do better and continue to serve our clients with passion.

OUR PILLARS

IS AT THE HEART OF A LEADING COMPANY'S
