Intelligent welding line KUKA automatic spot welding

Intelligent factory produces smart products

Industrial 4.0 truck global sample factory ——Shandong super truck factory

First 8-vehicle flexible collinear production line in the world “Seven-axis robot+cross bar” transmission system

Reduce welding energy consumption for 40% Automation rate of mainline design: 100%

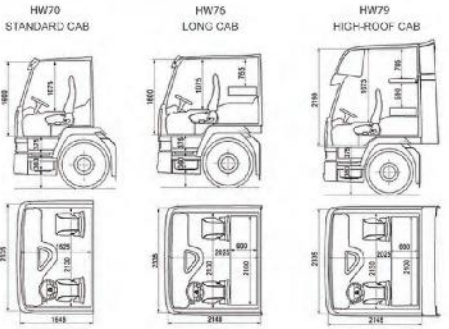

Vehicle paint spraying automation rate: 100%

Major Product

Common models and main configurations of HOWO

Vehicle model		Tractor, tipper, mixer, cargo truck and special vehicles chassis	
GVW (T)		16-41	
Drive mode		4x2, 6x2 (rear steering, double steering), 6x4, 8x4	
Cab		HW70 HW76 HW79	
Engine	Model	WD615, WD610	D12, T12
	Displacement (L)	9.726	11.996
	Power (Ps)	265-363	300-440
	Emission standard	Euro II—Euro V	
Fuel	Model	F-W13710, HW15710, HW19710(A), HW19710T, HW19712, HW19710(B)	
	Control mode	A01T (PS-330), emission standard of above Euro II, III, IV	
Transmission	Model	1. Gearbox gear and aluminum alloy gear options; 2. 271 base truck is optional; 7 (600) drum, 9 (600) drum	
	Control mode	Single reduction drive axle: MCY15, HW12, HW16	
Rear axle	Model	HW15, HW16, HW19	
	Control mode	Leaf spring suspension, air spring suspension, Hendrickson HL-V rubber suspension	
Suspension		ZF-8045	
Steering gear		2450 Hydraulic spring clutch	
Clutch		260, 300, 400, 600, 700 (depending on the vehicle models)	
Fuel tank (L)		11, 30-73, 12, 60-70, 12, 60-74, 11, 60R20, 12, 60R20, 12R22.5, 2450R22.5, 315R22.5	
Tyre		11.00-20, 12.00-20, 12.00-24, 11.00R20, 12.00R20, 12R22.5, 2450R22.5, 315R22.5	

Professional Logistics Solution

Common models and main configurations of A7

Vehicle model	Tractor, tipper, mixer, cargo truck and special vehicle chassis									
GVW (T)	18-41									
Drive mode	4x2, 6x2 (w/air lifting), 6x4, 8x4									
Cab	A7-P, A7-G, A7-W, A7-V, A7-B									
Engine	Model	D10, T10		D12, T12						
	Displacement (L)	5.7, 6.6		11.3, 12.6						
	Power (PS)	200-380		360-440						
	Emission standard	Euro II — Euro V								
Transmission	Fuel	Diesel, natural gas								
	Model	HW13/10, HW15/10, HW19/10A, HW19/12, HW19/12, HW27/16A, HW32/16A								
	Control mode	AMT (FCI-300), emission standard of above Euro II, MT								
	Remarks	1. Overload gear and auxiliary shifting are optional. 2. 2H transmissions are optional								
Axle	Front axle (T)	7 (fiber drum), 8 (steel drum)								
	Rear axle	Single reduction drive axle: MCY10, HW12, HW18 Full reduction drive axle: S-13, H-G13, MC13								
Suspension	Leaf spring suspension, air spring suspension, Hendrickson H-V rubber suspension									
Steering gear	ZF800A									
Clutch	D132 diaphragm spring clutch									
Fuel tank (L)	260, 320, 400, 600, 720 (arranged as per vehicle models)									
Type	11.00-20, 12.00-20, 11.00R20, 12.00R20, 12R22.5, 7.50R22.5, 3.15R22.5

Strategic Objectives

Focus on commercial vehicles, positioned as a provider of complete series of commercial vehicle products and service solutions for logistics,engineering and passenger transportation, promote the technical innovation of commercial vehicle business, and maintain its position as a leader of commercial vehicles in China; become a globalized leading enterprise of commercial vehicles in China in 2020;

Future

To meet the future

Seek smarter solutions and redefine the relationship between people and cars.

Originality

Originality innovation

Integrate global resources and promote the growth and reform of the automotive industry.

Technology

Breakthroughs technology

Provide the optimal product solutions with scientific and technological genes.

Open

The open heart

Focus on users' value demands and integrate into the world with an open mind.

Now

Focus on the present

Focus on the present, stand on solid ground, look far ahead from a high plane, and move on unremittingly.
