EGYPTIAN CURBSTONE

Curbstone is a material made from Egyptian Granite that is used for more than one purpose. It is characterized by strength and solidity, withstands heat and humidity, and is also environmentally friendly as it reduces thermal emissions. This is what many people need when building public roads and residential areas.

Used in: parks, sidewalks, roadways, pathways, bordering pathways/ Steps and retaining edges.

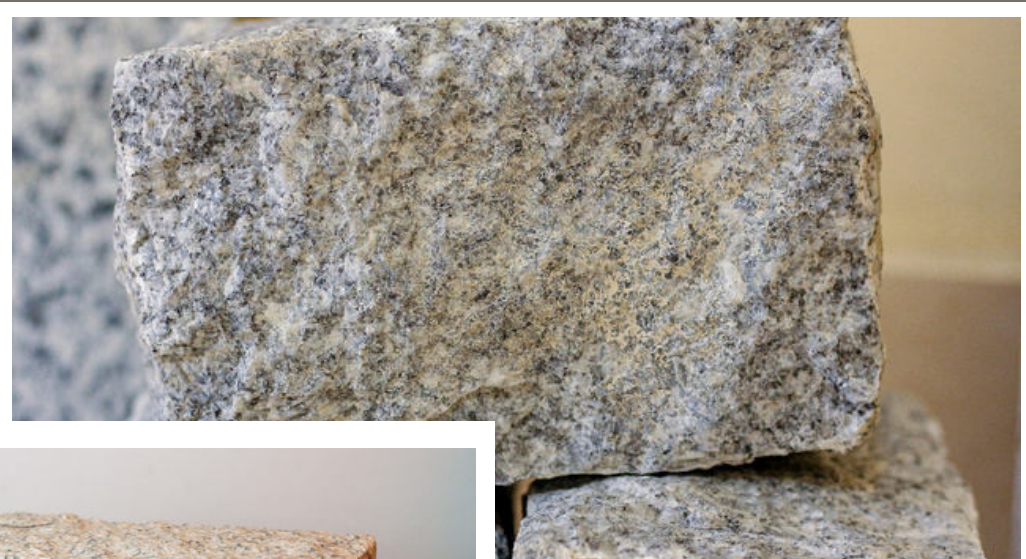

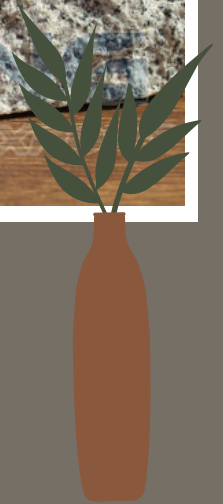

It helps organize the road, drain water, and prevent cars from leaving the pavement at dangerous points.

It is also a factor in beautifying roadsides.

Types: Gondola, New Halayeb, and Gray.

Finishes: Polished, Flamed...
