COMPANY OVERVIEW

About Us

We are a leading company in the field of exporting and importing marble and granite, offering high-quality products extracted from carefully selected mines. We are committed to providing distinguished service to our global customers, focusing on quality and excellence in every detail of the export process.

Fulong has a growing production capacity and a wide variety of stone finishes. Fulong is in the process of expanding and exporting its products to the Far East Region, Asia, Europe, and the Americas.

OUR PROCESS

Mission

It depends on selecting the best raw materials from reliable queries and ensuring that we provide a wide range of colors and sizes to meet different customer needs.

Our mission is characterized by efficiency and precision at every stage, from manufacturing to packing and shipping, to ensure customer satisfaction and excellence in the global market.

Vision

We seek to be pioneers in the field of exporting marble and granite, distinguished by leadership and quality in the international arena, providing global markets with the best marble and granite products.

We are committed to delivering our products in environmentally friendly ways and contributing to improving societal conditions. We build sustainable strategic partnerships with producers and logistics companies to ensure effective and efficient delivery.

COMPANY VALUES

Our company's values are characterized by taking care of the customer and meeting his needs with the highest quality and most beautiful luxury. We consider innovation and development an essential part of our identity. So we have something different from others.

We understand and respect cultural diversity, and are mindful of communicating effectively with our global customers. Therefore we have speakers of multiple languages such as: English, French, Turkish and Spanish.

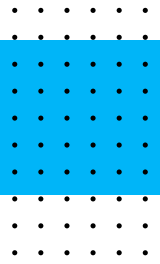

WHAT WE DO

- ☑ Carefully select raw materials from reliable queries.
- ☑ Applying the latest technologies in manufacturing processes to ensure high quality.
- ☑ Provide a variety of products to meet customer needs.
- ☑ Adopting environmentally friendly practices in all aspects of our operations.

BUSINESS OVERVIEW

Core Values

- We are committed to providing high quality marble and granite that exceeds our customers' expectations.
- We seek to achieve sustainable development in our operations.
- We provide exceptional customer service and build lasting relationships with our customers and partners.

Distribution Channel

We distribute our products through an extensive distribution network that includes:

1. We establish trust-based partnerships with distributors in diverse markets around the world.
2. We use online sales channels to facilitate purchases and provide greater customer convenience.
3. We participate in exhibitions and events.

MANAGEMENT TEAM

The company includes a distinguished work team, among whom cooperation prevails to achieve maximum potential.

The work team in Egypt and our other offices have broad capabilities that make them different from others with their experience and competence.

The team is divided into the administration department, finance department, technical department, export department, marketing department, and sales department, in addition to the translation and customer service department.
