

LUBRICANTS

LIFE WITHOUT FRICTION

CORPORATE PROFILE

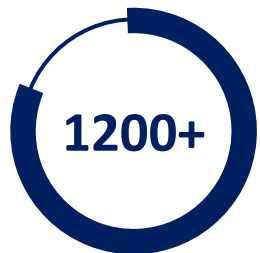

www.eiffellubricants.com

THE COMPANY

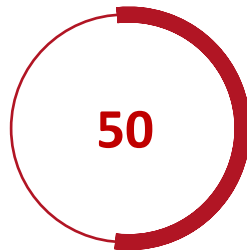

The Burj Eiffel Int. Lubricants IND LLC was founded in **2004** and has established itself as a leading lubricant and grease manufacturer in more than 50 countries across the globe.

We are committed to delivering unique products and services in a highly competitive and dynamic market. Our success and growth are truly dependent on clients as prospective partners.

With extensive technical expertise and relentless efforts, the company has made a name synonym to **"Quality"**. Since then, Eiffel Lubricants has grown from strength to strength and has established itself as an organization focused on **quality, innovation and customer centricity**.

LEADING PROVIDER OF ENGINE OIL

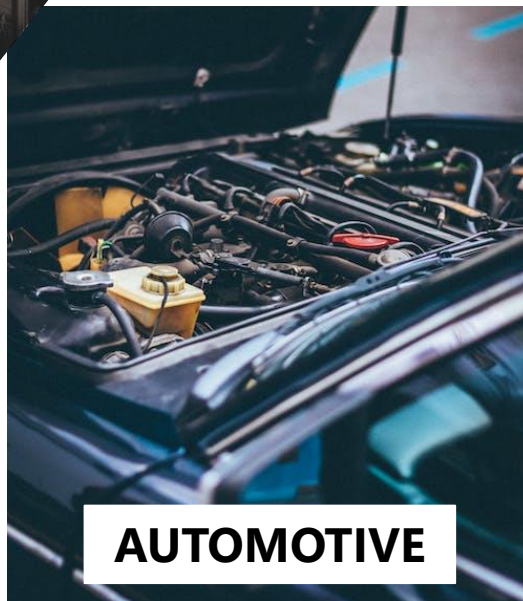

COMMERCIAL

MARINE

AUTOMOTIVE

INDUSTRIAL

LUBRICANTS
THAT **EMPOWER**
ENGINES

Our Range of High-Quality Products

AUTOMOTIVE LUBRICANTS

To ensure your vehicle's engines are always protected

COMMERCIAL ENGINE OILS

Make sure your truck's engine is protected during long journeys

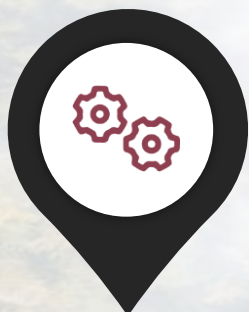

BRAKE FLUIDS

For the safety of your personnel, ensure your brakes are functioning with the help of our brake fluids

TRANSMISSION FLUIDS

Lubricate the metal parts and bearings in your vehicle's transmission

GEAR OILS

Keeping gears lubricated during all conditions

MARINE LUBRICANTS

To keep everything moving in all types of sea conditions

MOTORCYCLE OILS

Protect your Motorbike with our range of 2T and 4T oils

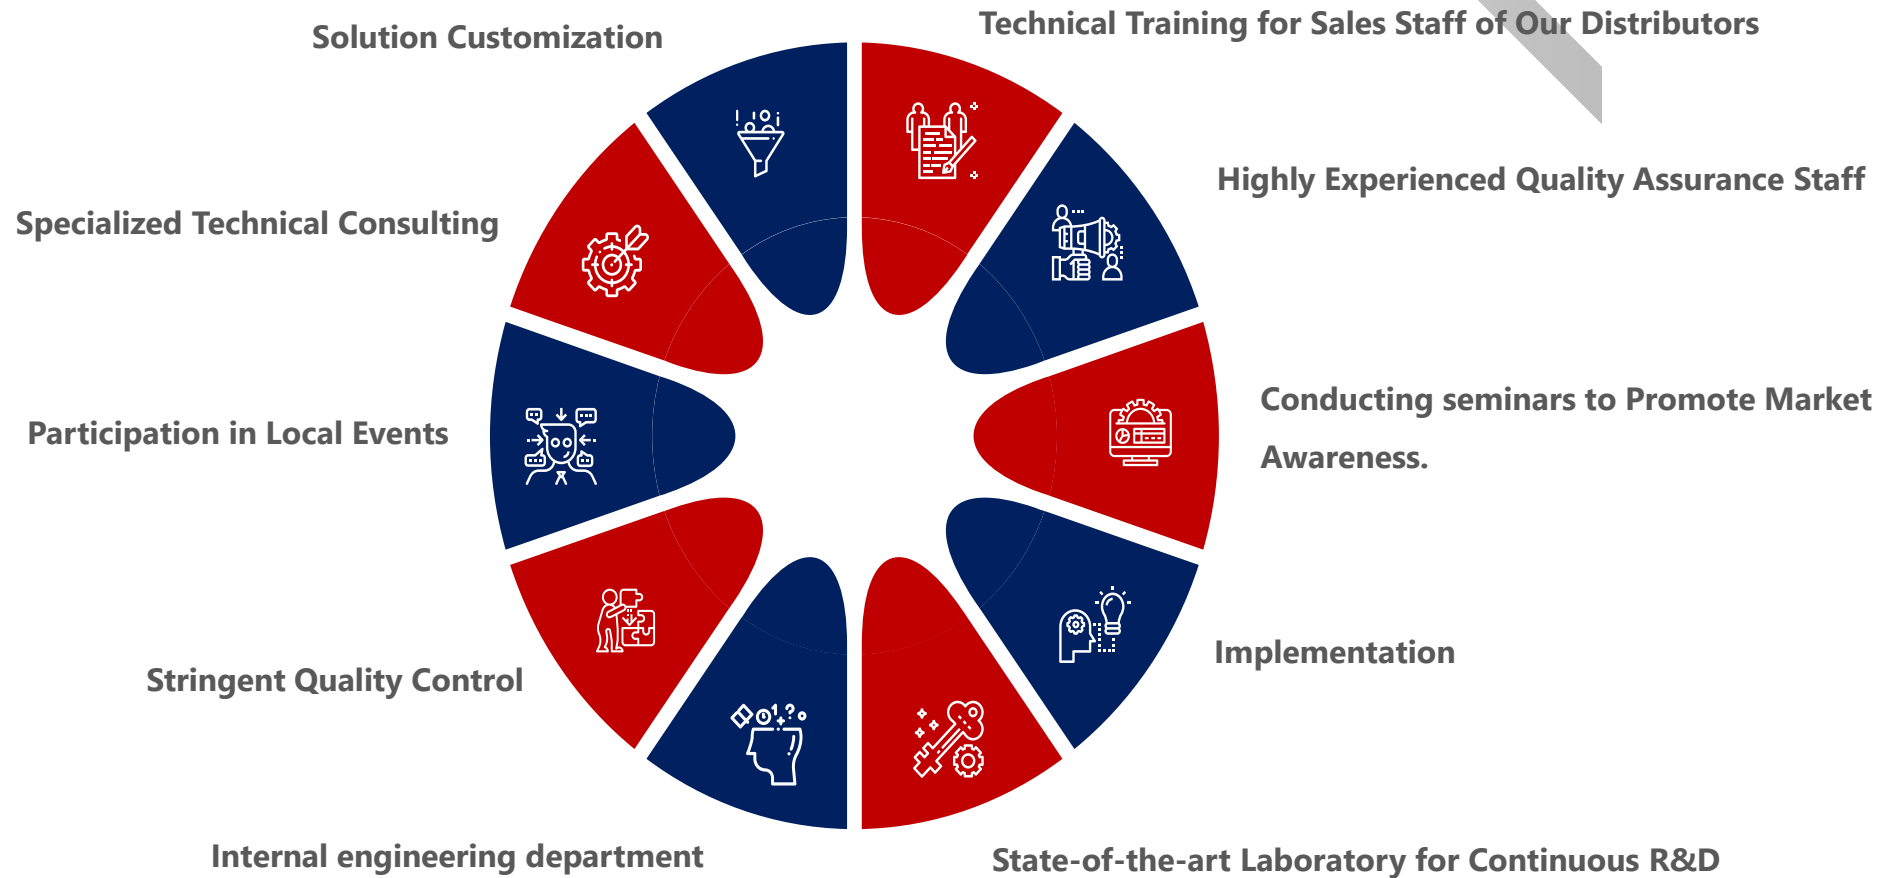

INDUSTRIAL LUBRICANTS

Industrial vehicles tend to face more and tear, hence require the right kind of lubrication

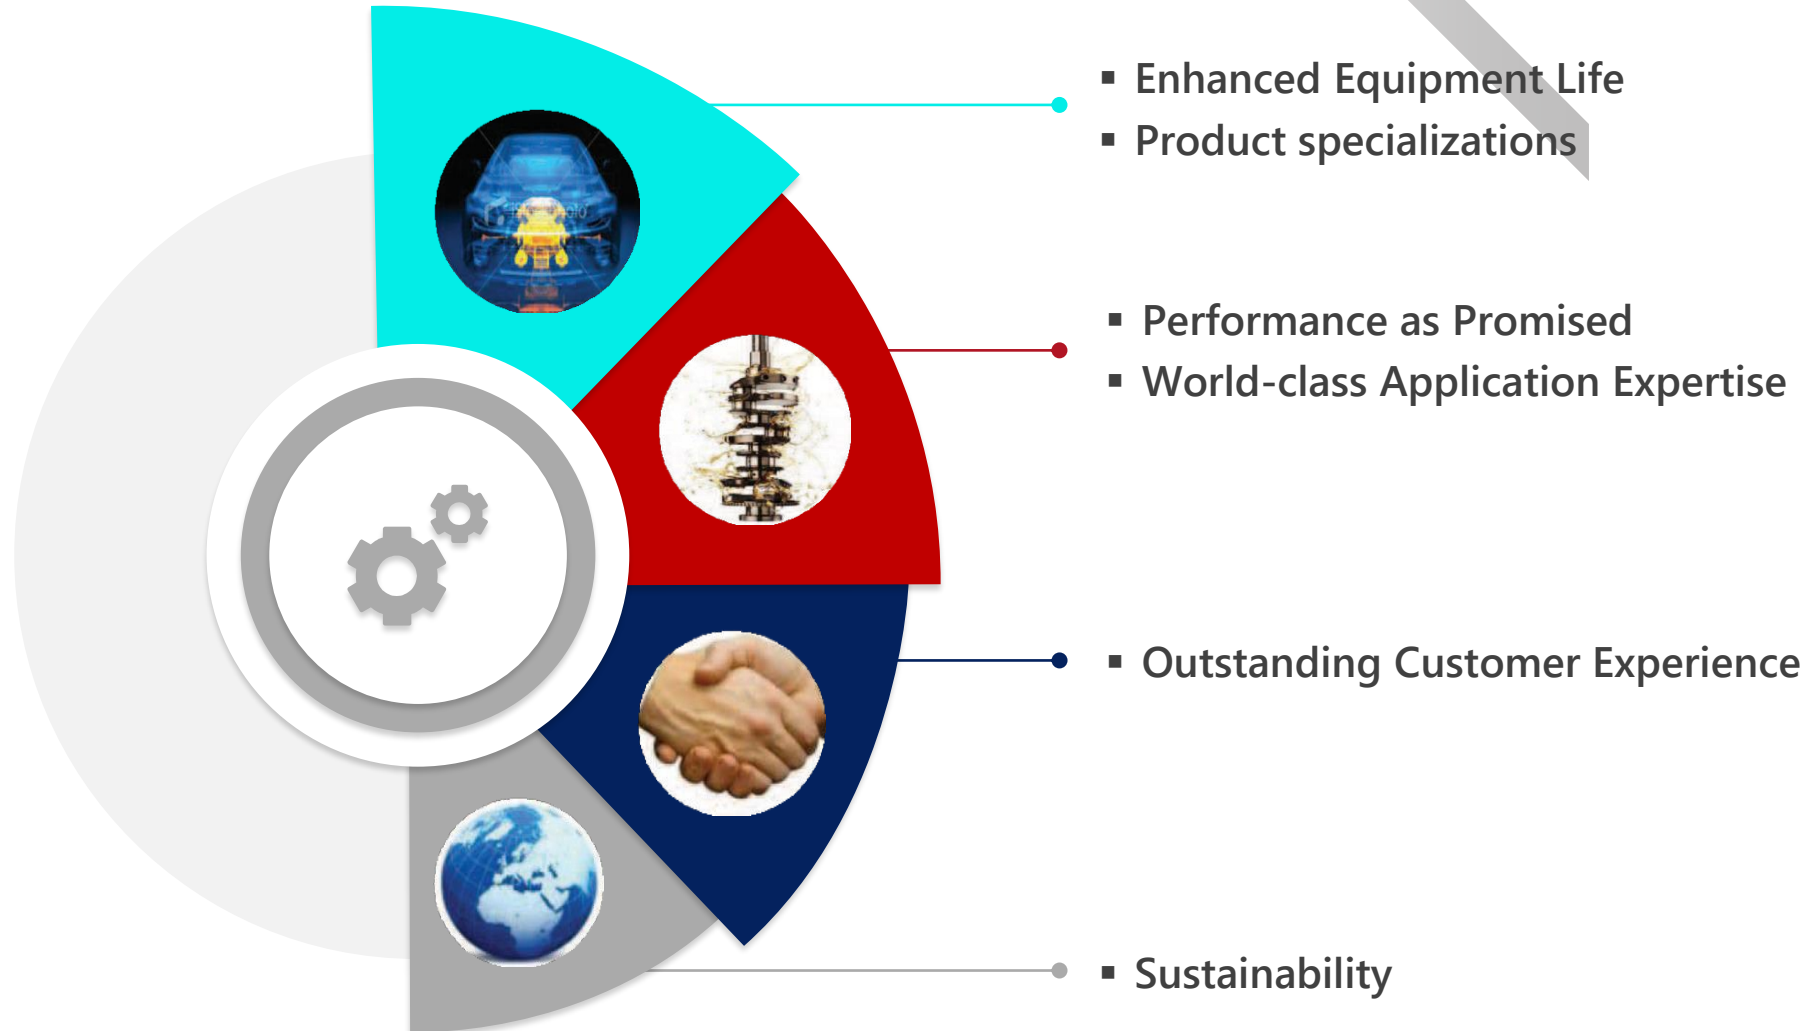

WHY EIFFEL?

Your satisfaction is our motivation.

ELEVATING EXCELLENCE: OUR CORE QUALITIES

High-performance Lubrication Solution

PERFECT BLEND, GREAT PERFORMANCE

Eiffel's state-of-the-art R&D center in U.A.E., along with our in-depth understanding of the market, have created products that have the perfect blend to globally enhance engine performance

Product Portfolio-Automotive (Transmission Oils)

Eiffel Multi Transfluid ATF

Protection and performance

Low temperature pumpability and circulation	★★★★
Good cold start performance	★★★★
Oxidation & thermal stability	★★★★
Wear protection	★★★★
Shear stable viscosity index improvers	★★★★
Extends transmission life	★★★★

For all up-to-date information, please consult the on-line Eiffel lubricants Product Data Sheet Library

Applications

- Optimum frictional characteristics due to presence of friction modifiers
- Good compatibility with various seal materials found in transmission system.
- Suitable for use in automatic transmissions of car & light trucks and On-highway & Off-highway heavy duty automatic transmissions

<https://www.eifellubricants.com/product/multi-transfluid-atf-dxiii/>

Multi Transfluid
ATF DXIII

RANGE: Transyn ATF DX III Transyn ATF DX VI

Product Portfolio-Automotive (Transmission Oils)

Eiffel Transyn CVTF

Protection and performance	
Low temperature pumpability and circulation	★★★★
Good cold start performance	★★★★
Oxidation & thermal stability	★★★★
Wear protection	★★★★
Shear stable viscosity index improvers	★★★★
Extends transmission life	★★★★

For all up-to-date information, please consult the on-line Eiffel lubricants Product Data Sheet Library

Applications

- Eiffel Transyn CVTF is a high performance continuous variable transmission fluid, formulated with high quality fully synthetic base stocks
- Good compatibility with various seal materials found in transmission system.
- Suitable for use in automatic transmissions of car requiring CV transmissions

Transyn ATF CVTF

<https://www.eiffellubricants.com/product/transyn-atf-cvtf/>

RANGE: Transyn ATF DCTF

Product Portfolio-Automotive (Transmission Oils)

Eiffel Transyn ATF AL4

Protection and performance

Low temperature pumpability and circulation	★★★★
Good cold start performance	★★★★
Oxidation & thermal stability	★★★★
Wear protection	★★★★
Shear stable viscosity index improvers	★★★★
Extends transmission life	★★★★

For all up-to-date information, please consult the on-line Eiffel lubricants Product Data Sheet Library

Applications

- Applications like electronically controlled convertor clutches, 4HP20 and ZF 5HP19 gear boxes and transmissions where LT 71141 is recommended
- Good compatibility with various seal materials found in transmission system.
- Suitable for all automatic, semi-automatic transmissions or torque converters in passenger cars and commercial vehicles,

Transyn ATF AL4

Product Portfolio-Automotive (Brake Fluids)

Eiffel Brake Fluid

Protection and performance

Brake and clutch performance	★★★★★
High boiling point	★★★★★
Safe and consistent brake performance	★★★★★
Corrosion protection	★★★★★
Improved life and reliability	★★★★★
Reduced leakage and loss of brake fluid	★★★★★

For all up-to-date information, please consult the on-line Eiffel lubricants Product Data Sheet Library

Applications

- Supreme performance hydraulic brake fluid based on polyethylene glycol ether technology to provide a high level of brake and clutch performance in automotive and commercial vehicles.
- They are designed to meet or exceed the general requirements of most builders of automotive disc, drum and anti-skid brake systems in vehicles requiring DOT 3 or DOT 4 level performance.

Industrial Circulating Oil Range

Eiffel Turbo Heavy series

Eiffel Turbo Heavy series are high performance heavy duty circulating oils formulated with high quality base stocks and advanced additive technology, to provide exceptional equipment protection and reliability in applications lubricated by circulating systems which are operating under moderate to severe conditions.

Outstanding thermal & oxidation stability prevents varnish & sludge formation and helps in extending life of oil and filter. Excellent water separability reduces sludge build up and improves efficiency of timing valves.

 Dear Mr. Väst,																	
Based on the information given by your company and our analysis, PORSCHE is giving its approval according to the Porsche oil category A40 (currently valid for petrol engines) in accordance with the Center's literature to your motor oil Eiffel Oils Lubricants 9440 SN . We will include your oil in the next issue of our "Technical Information Motor Oil".																	
This approval will expire on September 30, 2023 , if no extension is requested before in good time. This approval will expire before the end of the above mentioned period if the approved formulation is changed or if negative failure results are recorded for any reason at Porsche dealers it may be necessary.																	
You may inform your customers about this approval ("PORSCHE A40") in a descriptive, non-advertising manner in neutral and objective terms. The certificate can also be used as evidence for the fulfillment of other manufacturers' specifications. Any further reference to Porsche or the use of the crest and logo type of Porsche is strictly prohibited.																	
Yours sincerely,
