ABOUT US

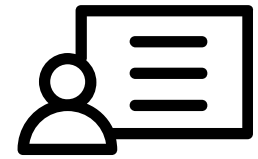

GUONN is the expression of our company, GEMS LOJİSTİK PAZARLAMA ve İTH.İHR.SAN TİC LTD ŞTİ, expanding into a new sector with a team specialized in logistics and technology, built on many years of experience. Initially, we will present to our valued customers our innovative, simple yet eye-catching women's bag models, followed by other products on this page.

As a registered and patented brand, GUONN will soon take its place on virtual sales platforms, social media, and leading chain stores in our country.

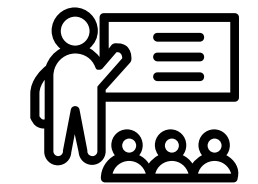

In fact, when starting this journey, we shaped our company and brand policies not as sellers, but by seeing ourselves as consumers. Of course, we are aware that our path is long and challenging. For this reason, we have developed an innovative model that is open to competition, research-driven, and adaptable to innovation. Our team structure, administrative, and financial framework are aligned with the requirements of the modern era, and over time, we will improve our company and brand based on both positive and negative feedback we receive.

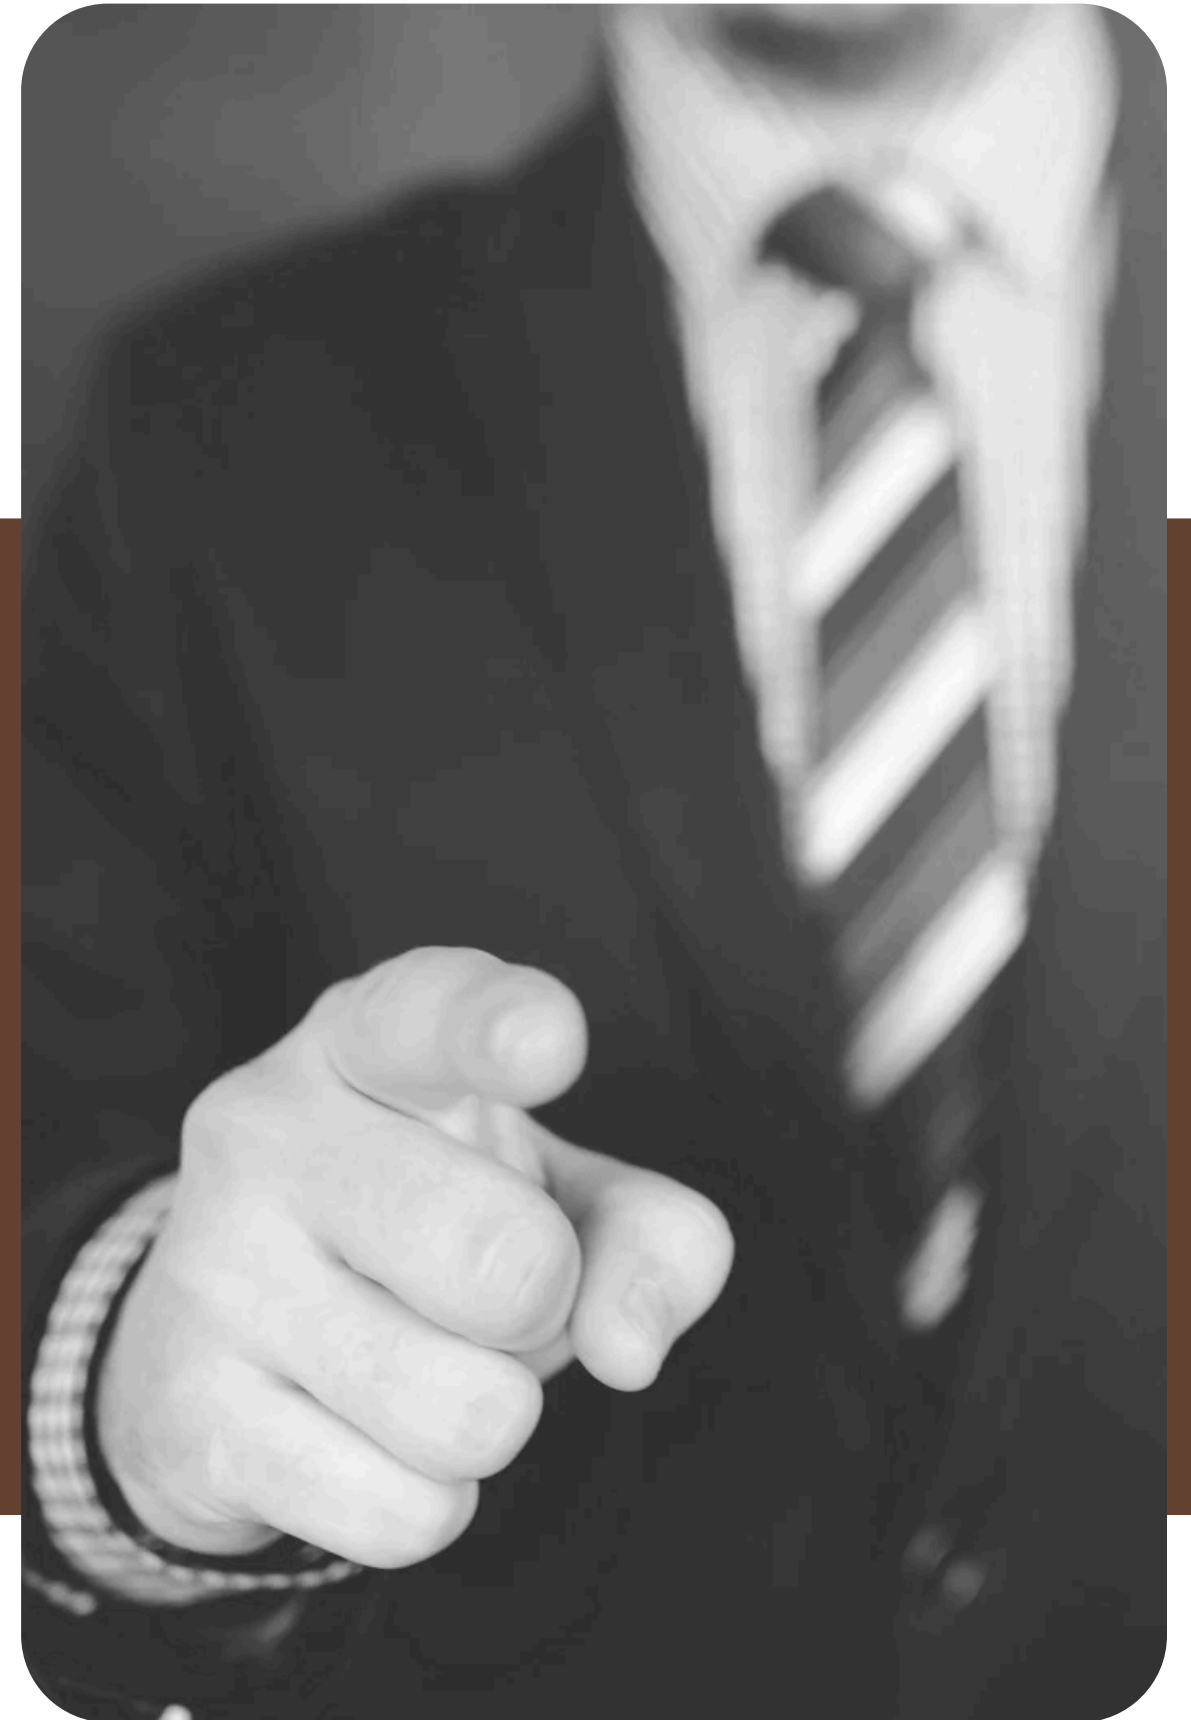

OUR AIM

The objective is to establish partnerships with 5 clients within one year.

To open branches in 15 countries worldwide.

WHY US?

01 We are a company with high goals.
