TOGETHER TOWARDS SUSTAINABILITY

Meet Glorius Sun Fashion Garments

Glorius Sun Fashion Garments Ltd is a distinguished entity within the fashion landscape, distinguished by its commitment to innovation, quality, and sustainability. Since its inception, the company has established itself as a beacon of creativity, consistently delivering cutting-edge designs and superior apparel. What sets Glorius Sun apart is not only its aesthetically pleasing garments but also its unwavering dedication to environmentally friendly practices and responsible sourcing of materials. By prioritizing sustainability, the company not only reduces its ecological footprint but also sets a commendable example for the industry at large. Glorius Sun's extensive range of clothing caters to a diverse clientele, offering styles suitable for various tastes and occasions. Each garment reflects meticulous craftsmanship and attention to detail, ensuring both style and durability. With a strong foothold in both domestic and international markets, Glorius Sun Fashion Garments Ltd continues to push boundaries and redefine standards in the ever-evolving world of fashion.

① BSCI

The Business Social Compliance Initiative (BSCI) is a leading global business-driven initiative for companies committed to improving working conditions in their supply chains. It aims to promote fair labor practices and improve working conditions worldwide by providing a common code of conduct and a framework for companies to assess and monitor their suppliers' social performance.

② SEDEX

Sedex, short for Supplier Ethical Data Exchange, is a membership organization that provides a platform for companies to manage and share ethical and responsible sourcing data across their supply chains. It enables businesses to gather information on labor standards, health and safety, environmental practices, and business ethics from their suppliers.

③ OEKO TEX

Oeko-Tex is an independent certification system for textiles and related materials, focusing on ensuring that products are free from harmful substances. It consists of several certification standards, including the Oeko-Tex Standard 100, which tests for harmful substances in textiles at all processing stages, and the Oeko-Tex Standard 1000, which evaluates environmentally friendly and socially responsible production processes.

④ ILO

The International Labour Organization (ILO) is a specialized agency of the United Nations that sets international labor standards, promotes social justice, and fosters decent work opportunities for all. Established in 1919, the ILO develops and promotes international labor standards through its tripartite structure, which includes representatives from governments, employers, and workers.

⑤ ORGANIC CONTENT STANDARD

The Organic Content Standard (OCS) is a certification standard that verifies the organic status of textiles and garments. It ensures that materials used in products are organically grown and processed, meeting strict environmental and social criteria. OCS emphasizes traceability, transparency, and responsible sourcing throughout the supply chain. This standard helps consumers make informed choices about sustainable and organic products in the fashion and textile industry.

THE CYCLE

By Glorius Fashion

● The Yarn

We sent out our Knitting & Dyeing department to seek out the best yarn for our clients to make their dream garments. They procure the kinds and varieties of fabric yarns for the order. The yarn is sent to knitting and dyeing as per the construction and the color client requires.

● The Design

Our best fashion designers work together to make you the perfect garments of your need and make a proto for your visual delight. Then the designers go for the three phases of sampling- fit sample, PP Sample and Shipping Samples. Once PP samples are approved our K & D department works to make knitting and dyeing in bulk.

● The Size Set & Cutting

From your approval, our CAD Master will go into his station for the preparation of size sets for cutting the Inhouse fabrics. Soon the fabric will be on the cutting table and our cutting master ride the machines to cut through the fresh fabric to make it suitable for sewing. From here your product starts to grow into fully complete body.

Sewing and first Quality

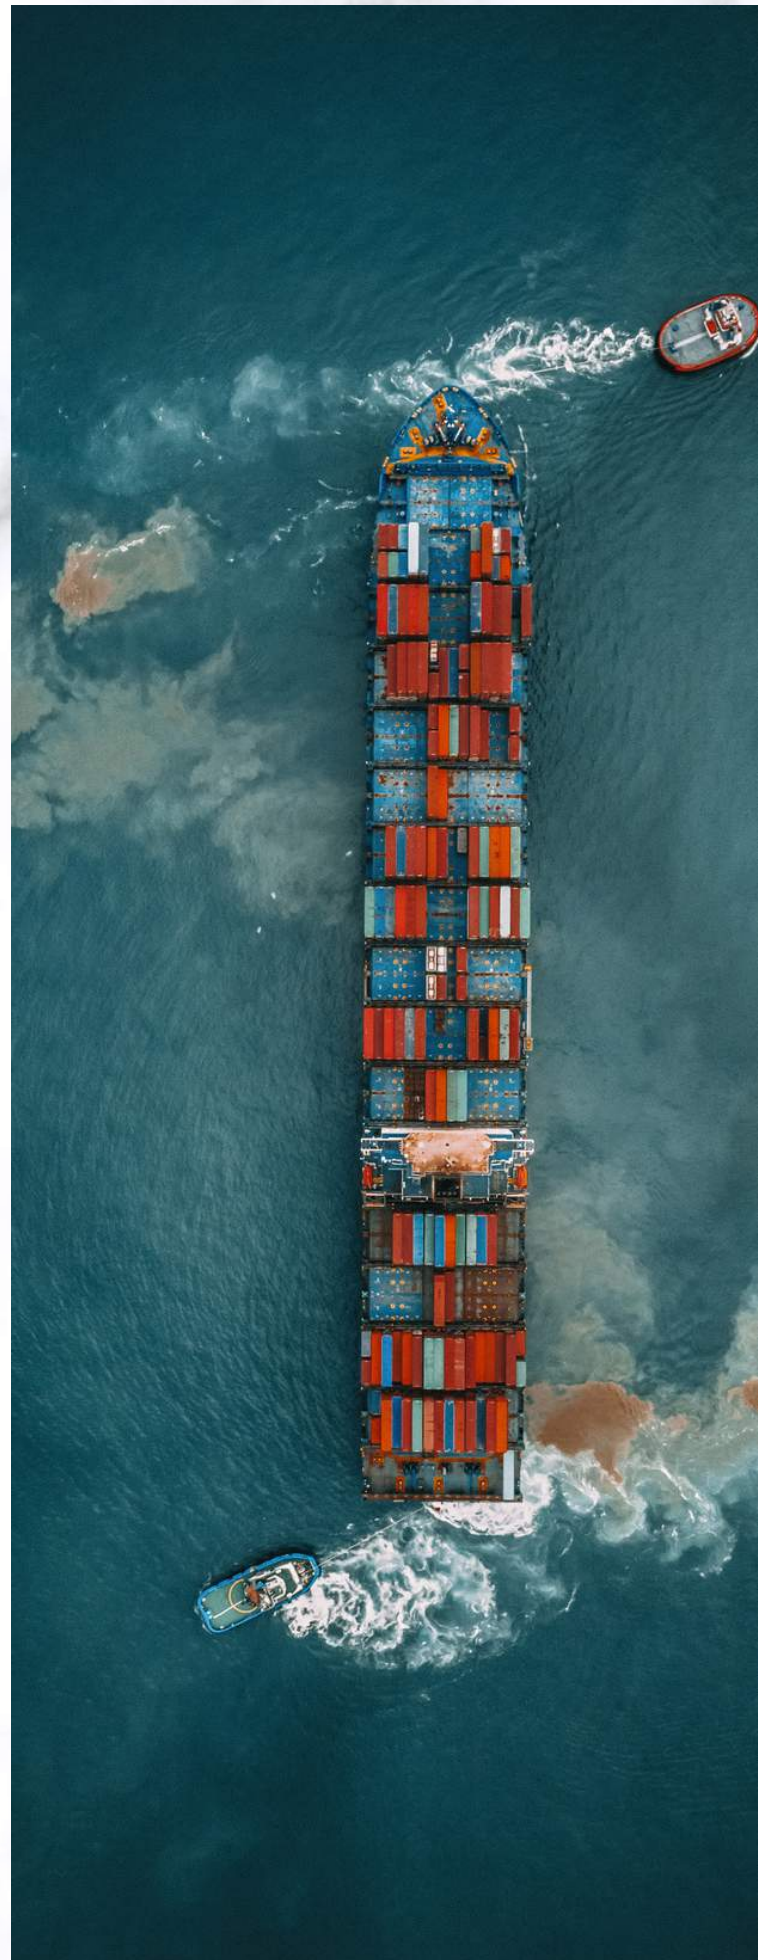

The fabric cut will be passed to the sewing section where skilled workers will start the procedure to sew the fabrics to form a complete body. Accessories and other labels will be attached and then the product is taken to the Quality table to check the workmanship.

The Finishing

The QC passed complete body will come down to the finishing section, where they will iron the body and then a second inspection starts to check the quality, there after the garments go through different packing, finally into the cartons and Ready to be shipped.

The Shipping

The finished goods and the cartons are ready to sail the sea or to fly the sky to reach its owners who are our clients. Via forwarders or directly in door to door set up

GLORIUS FASHION

VISION & MISSION

"Glorius Sun" was the name reformed from Glorious Sun as the 'O' letter had to be withdrawn due to issues during Joint Stock Registration. At that time, we opted to retain the name as Glorius Sun Fashion Garments Ltd. Glorius Sun embodies not just a name but the collective dream of my family and friends. Our journey began in 2008 in the Ready-Made Garment (RMG) industry. Prior to that, since 2006, we had been operating as a trading house, encountering challenges in the bureaucratic registration process. Finally, in 2008, we successfully secured registration as a Joint Stock Company.

I refer to this organization as a dream shared by many because our aim was to establish a sustainable industry. Despite the global pandemic, we persevered. While some left, we press on with fellow dreamers, pursuing our future goals. Currently, it operates solely as a family business; my two brothers, sister, and I continue this journey towards our aspirations, viewing success as an ongoing endeavor.

Today, Glorius Sun Fashion Garments Ltd boasts its own garment manufacturing factory, printing department (comprising digital and manual printing), embroidery and sequin setup, and a knitting unit. Recently, our brand "Urban & Wild" was launched with the aim of reaching every corner of the universe, offering quality and affordable fashion for trend-conscious individuals, encompassing not only clothing but also footwear and accessories. We also operate our own trading house, providing comprehensive support to customers worldwide, including merchandising, sampling, quality control, design, and financial assistance, available 24/7. Our quality control team comprises experts from reputable firms such as SGS, ITC Inspection, and Asian Inspection. We prioritize customer satisfaction and maintain an open-door policy for interaction.

As the Managing Director, I, Md. Rubayet Ahmed, oversee the organization. With extensive experience in RMG, I am committed to supporting customers with any issues. Our organization prides itself on a lack of bureaucracy, eliminated from our inception. In addition to managing operations, I specialize in merchandising, sourcing, and providing instant financial solutions. We are dedicated to sustainable development, with plans underway to establish an environmentally friendly factory. This includes utilizing renewable energy sources such as biogas, solar roofing tiles, wind power, and organic farming within the factory compound. We are implementing aquaponics food production, rainwater harvesting systems, and planting microforests to enhance native flora and achieve a negative carbon balance.

Our initiatives extend beyond the factory walls to include staff quarters, nursing units, an in-house doctor, schools, and skill development programs for staff families, orphans, and economically disadvantaged individuals. We are committed to recycling and minimizing waste, utilizing CYCLO yarn and plastic waste yarn in our production processes.

Our vision is clear, and every customer who engages with us not only obtains garments but also contributes to the fulfillment of countless dreams. We invite others to join us on this journey towards sustainability. Let's embark together.

MD RUBAYET AHMED

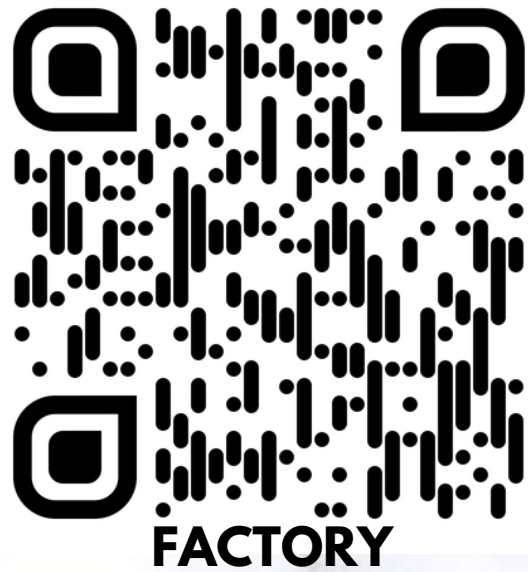

URBAN
WILD

URBAN
& WILD

Introducing Urban n Wild, the fashion brand by Glorius Sun Fashion Garments Ltd., where style meets sustainability. Our ethos revolves around creating trendy, eco-friendly clothing that allows you to express your unique urban flair while caring for the planet. From chic streetwear to outdoor essentials, Urban n Wild merges fashion with conscience, empowering you to make a statement both in style and environmental responsibility. Join us on the journey to redefine fashion with purpose.
