

# Company Profile

A person wearing a dark cowboy hat and a denim jacket is seen from behind, looking up at a large, intricate wooden structure that resembles a ship's hull or a complex architectural framework. The scene is dimly lit with a blue tint.

“  
Sustainability, fashion expertise, fair production and flexibility  
along the manufacturing chain are the key resources  
that empower us to deliver the finest services to our partners  
”

# Dryze creates custom-made solutions for every need

# Who We Are

Dryze International was founded by Hasan Ahmad Sheikh, who refined his expertise based on more than 15 years in various textile industries across the globe. Hasan has single-handedly cultivated a broad network of factories and suppliers worldwide which makes Dryze International the perfect sourcing partner.

Quality, Trust, Consistency are very important to us at Dryze International. In conjunction with a savvy understanding of fashion and design, we provide the finest value with a stylish sensibility which keeps pace with the latest trends by offering sustainable sourcing in the fashion apparel industry and facilitating all kinds of textile products. Our strong connection with one of the top-quality manufacturers around the globe ensures that we sustain high production standards through our team of on-site inspection agents and international trade specialists.

# How We Do It

Exploring the latest market trends is one of the ways that Dryze International stays ahead in the market. We work on premium fabrics, modern designs and the trendiest colors of the season where we supply our clients with tailor-made solutions for their unique needs at the best value possible.

# Recycle, Regenerate Resale & Reuse

“

*Let's nurture the nature so  
we can have better future.*

”

## Sustainability

Dryze International passionately works on sustainability as it is a major factor in the global industry. We are committed to tapping innovation potential and promoting sustainable development using technology to create products.

Our strategies range from sustainable designs to innovative materials and processes for the optimization of resource consumption and recycling to achieve the collective goal of saving our planet Earth.

# Fashion

“  
We have always  
recognized the  
importance of  
quality and attention  
to detail.  
”

We classify trends, create designs and source sustainable fashion products.  
Dryze International's expertise ranges from high-end fashion to casual denim and active wear.

A photograph of a clothing rack filled with shirts, alternating between black and white. The shirts are hanging on black hangers. The image has rounded corners and a soft, slightly desaturated color palette. The text 'APPAREL' and 'PORTFOLIO' is overlaid in the center in a white, serif font.

# APPAREL

PORTFOLIO

**Hoodies &  
Sweatshirt**

**T- Shirt & Polo**

# TOWELS

- Hand • Bath • Face
- Beach • Bathrobe

Dryze International believes in the quality of manufacturing based on the investment in continuous research of the changes that take place in the international apparel industry.

This is why we travel the world to learn about manufacturing techniques while further refining our processes and quality management.

# Innovation

Our in-depth product understanding and manufacturing efficiency through our team of business managers, product developers, designers, sales personnel and quality assurance staff ensures the finest standard of product and quality innovations in the continent.

# Product

We understand our clients' product needs regarding look, fit, feel and aesthetics. We bring these various aspects together for the production of high-quality products with relentless fabric research, modern design, and quality proof production.

# Reliability

Our partner factories play a leading role in the accomplishment of our goals in the manufacturing of eco-friendly garments for our clients and therefore we have to fully and unconditionally commit to our Code of Conduct. Our partnered factories are 100% BSCI-approved and undergo regular audits and checks to ensure compliant working environments.

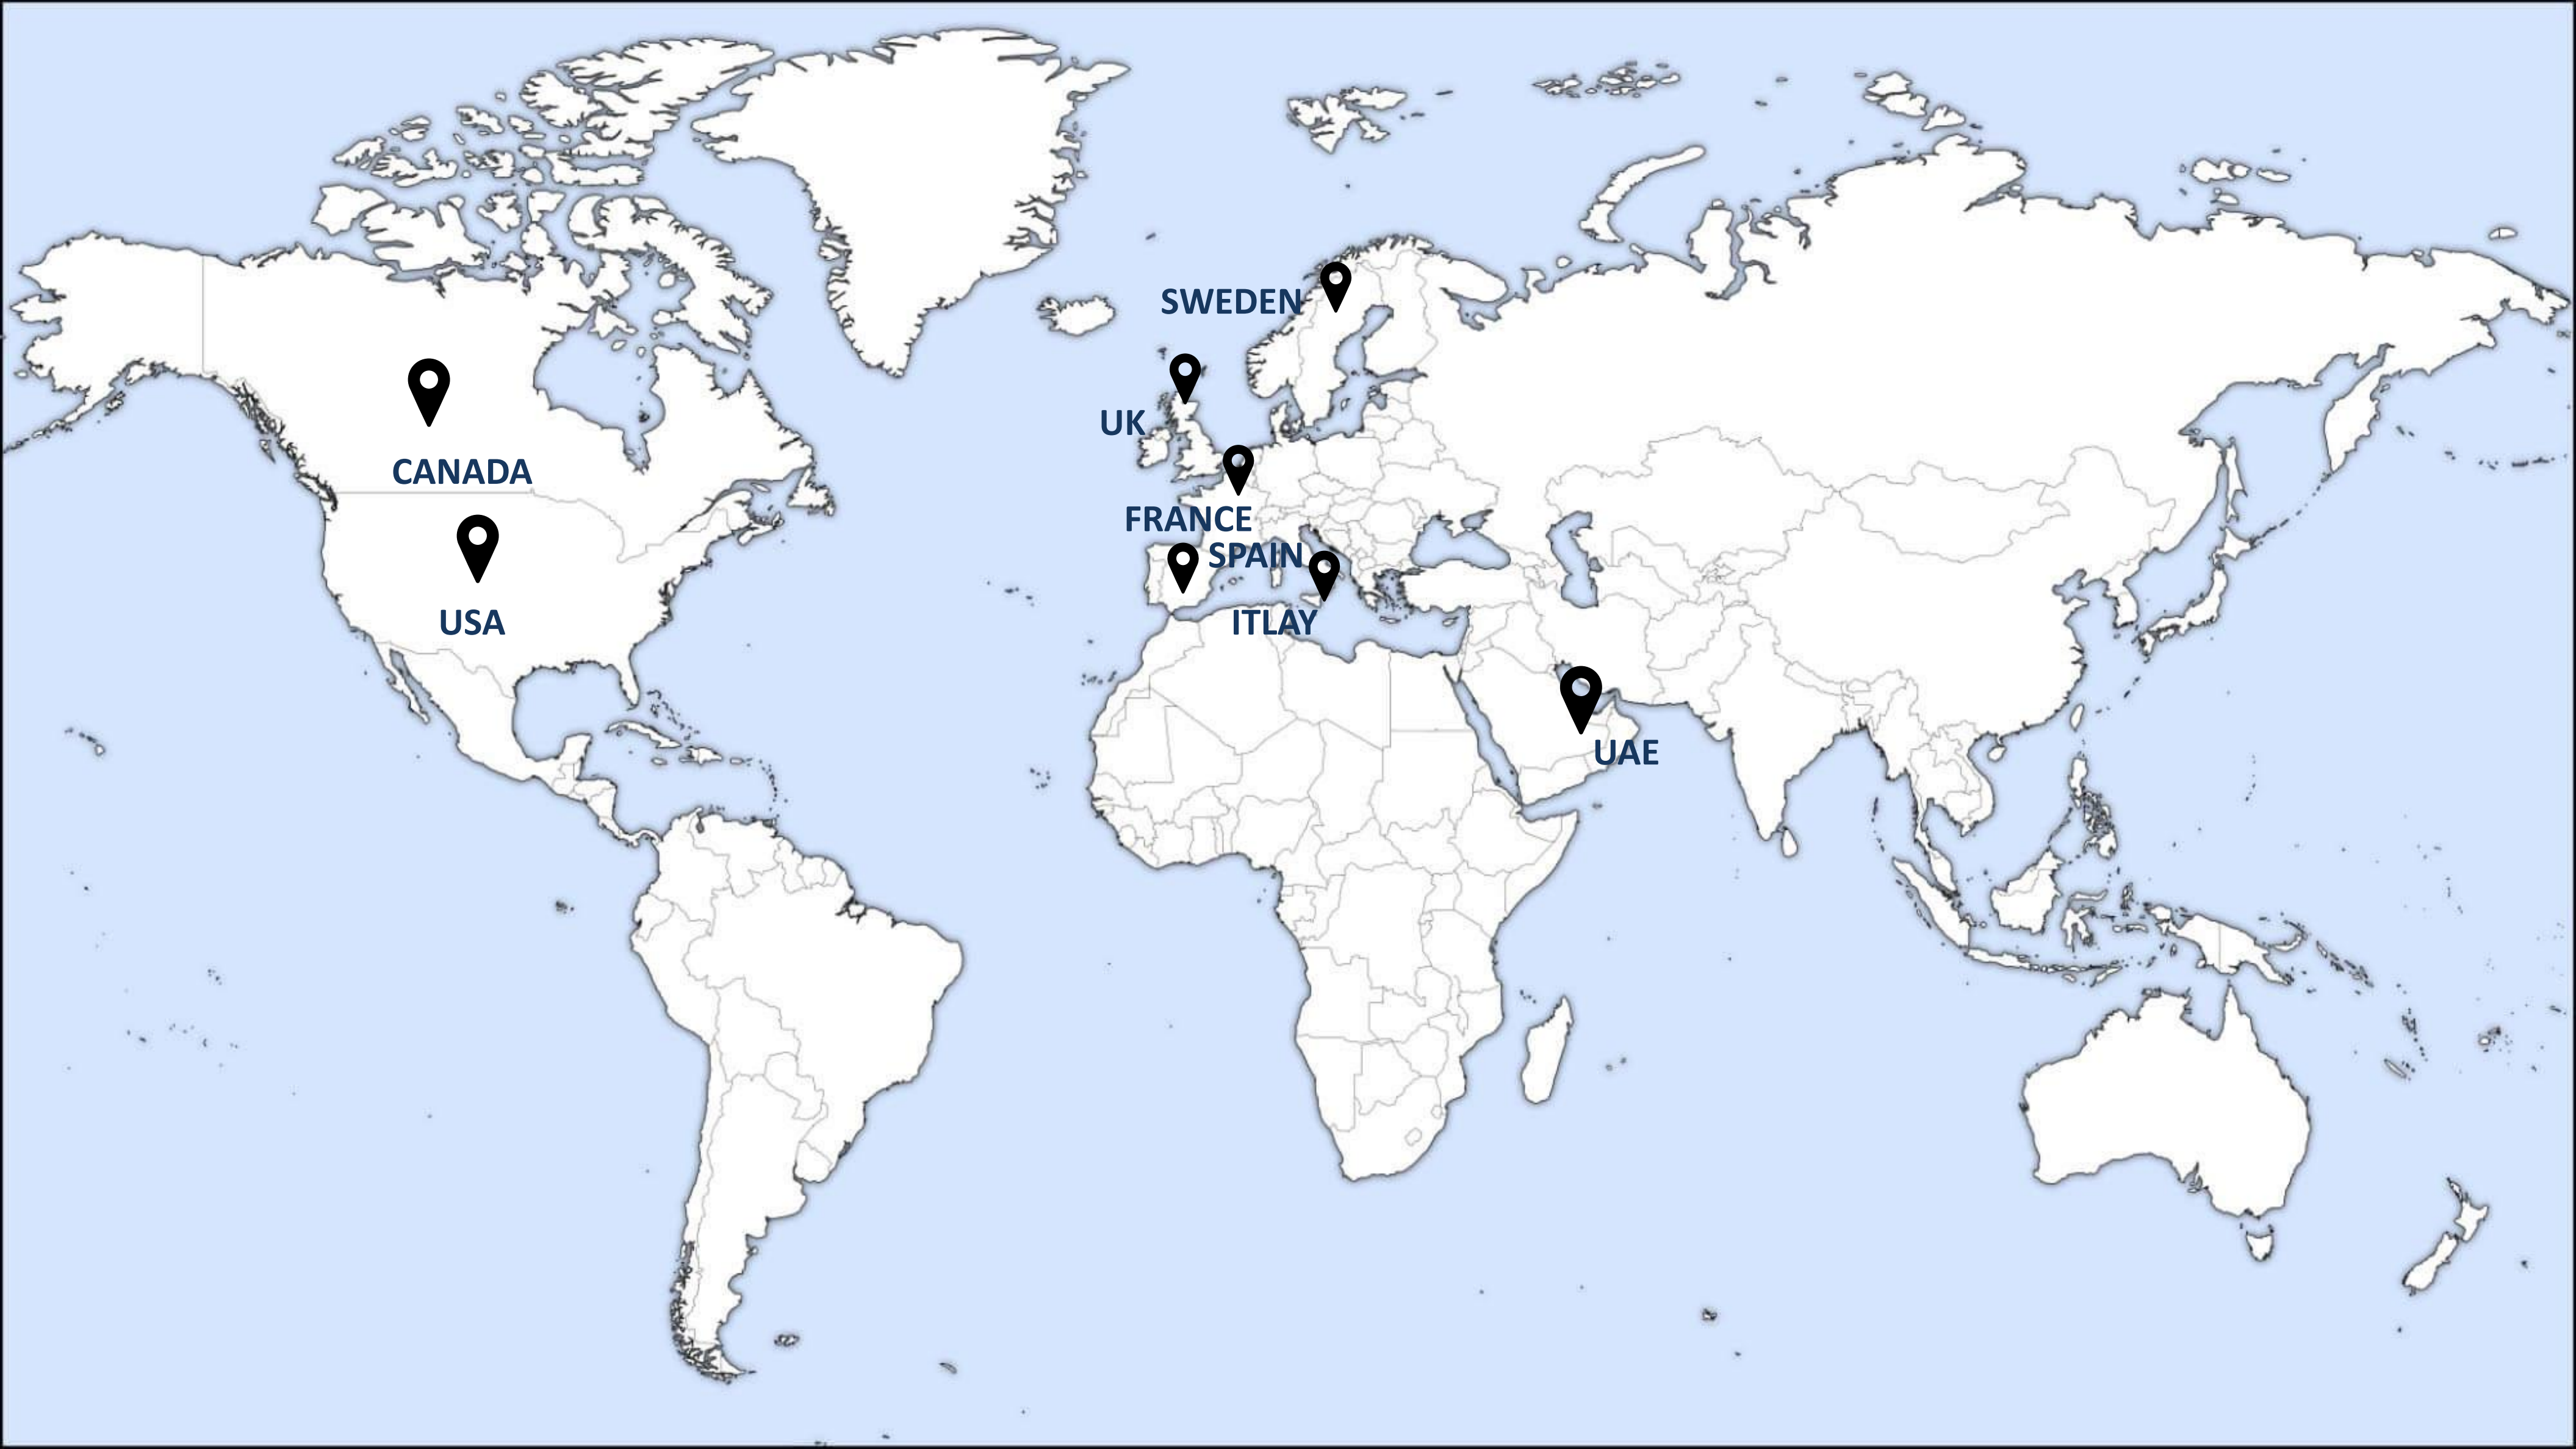

# Ethics

With years of experience, we have realized the negative environmental and social impacts the textile industry can have when run unethically. By adopting sustainable business practices into our core values we handpick our supplies from top tier factories which fall in line with our beliefs and morals.

We at Dryze International believe in constant regulation of our products quality, reliable relations with our supplier as well as inspiring and supporting them to grow alongside us.
