

DELECTAA

Experience the Ceylon magic

OUR STORY

At DELECTAA, we bring the essence of Sri Lanka to the world, inviting you to embrace the magic of Ceylon in every product and service we offer. Born from Sri Lanka's rich natural heritage, DELECTAA started its journey as a trusted exporter of premium organic products. Over time, we have grown into a global brand, continually exploring new horizons and expanding into diverse and innovative ventures.

Our Mission

“Enriching lives through a diverse range of organic products that embody the spirit of Sri Lanka, with a commitment to innovation, sustainability, and ethical practices. By empowering local communities and fostering responsible partnerships, the focus remains on promoting wellness and ensuring a harmonious balance between people and the planet.”

Our Vision

“To be the leading provider of organic tropical products, promoting sustainability, fair trade, and enriching the lives of our stakeholders.”

The background features a repeating pattern of palm trees and the words "PURE", "100% RAW", "No SUGAR", "REAL", and "ULTRA-FRESH" in a handwritten style.

KING coconut (*Cocos nucifera*),
a variety of
COCONUT
that is native to Sri Lanka.

King coconut water is one of the fastest growing export commodities in Sri Lanka during the last decade. Rich nutritional profiles of sugars, vitamins, minerals and amino acids with profound therapeutic values have made king coconut water a popular functional beverage worldwide. Crafted from the liquefied pulp of native king coconuts, our coconut water undergoes a meticulous process of liquefaction, filtration, and bottling to bring you an exceptional beverage. Beyond its tantalizing taste, king coconut water offers a myriad of health benefits. It serves as a natural source of hydration, energy to brain and body health provides a wholesome burst of energy benefiting both your mental and physical well-being. VINI king coconut water is also a rich source of antioxidants, ensuring you receive a natural and revitalizing energy boost.

350mL

Main differences between Coconut water and King Coconut Water

Coconut Water

comes from the green coconut

Common in many tropical regions

Contains electrolytes but in lower concentrations

A mildly sweet and sometimes nutty flavor

King Coconut Water

Extracted from the orange-hued king coconut

A variety unique to Sri Lanka.

Richer in essential electrolytes like potassium, magnesium, and calcium, making it more effective for hydration.

Naturally sweeter, smoother, and more refreshing in taste

COCONUT PRODUCTS

PRODUCT

Organic Extra Live Virgin Coconut Oil
(Centrifugally separated from fresh coconut milk)

SOURCE

Raw coconuts hand picked from
certified organic plantations in
Sri Lanka

USES

Healthy solutions for skin and hair
application Ideal for direct
consumption
Ultimate premium cooking oil

STORAGE & SHELF LIFE

Store in a cool and dry place, away
from direct sunlight, a natural product
will solidify below 24°C (75°F)
Product gets 2 years of shelf life from
the date of manufacture (20° to 24°C)

PACKING

200ml/300ml/500ml /1000ml Glass
Jars, 20L Pail, 200L Drums, 1000L Tote

NUTRITION FACTS

| Typical values as | Per 100g |
