# Silicones and Elastomer Blends

PRODUCT	INCI NAME	BENEFITS/APPLICATIONS
Dimethicone Fluid (0.65, 1, 2, 5, 10, 20, 50, 100, 200, 350, 1000, 12500 cst) 	Dimethicone	Act as an Emollient Provides Silky Texture and Soft Feel Enhances Spreadability and Shine
Cyclomethicone Fluid 	Cyclomethicone OR Cyclopentasiloxane	Provides Quick Drying Lightweight and Silky Feel Frizz Control and Adds Shine to Hair
Dimethicone Silicone Gum Blend 	Cyclopentasiloxane and Dimethiconol	Long Lasting Wear Barrier Formation and Water Resistance Provides Matte Finish
Silicone Elastomer Blend 	Cyclopentasiloxane, Dimethiconol, Dimethicone Crosspolymer, Phenyltrimethicone Blend	Hydration and Conditioning Effect Provides Desirable Finish to Product Blurring Imperfections
Silicone Elastomer Blend 	Cyclopentasiloxane, Dimethiconol, Dimethicone Crosspolymer, Diphenylsiloxy Phenyl Trimethicone	Detangling Benefits Makes Hair More Shiny, Glossy & Luster Heat Protection & Non Oily Finish
Silicone Elastomer Blend 	Cyclopentasiloxane, Dimethicone Crosspolymer	Silky Texture & Lightweight Feel Compatibility with other ingredients Shielding Properties
Amino Functional Silicone Emulsion 	Amodimethicone and Trideceth -12 and Cetrimonium Chloride	Enhanced Conditioning Effect Frizz Control and Smoothness Improved Manageability
Amino Functional Silicone Emulsion 	Trimethylsilyl Amodimethicone, Laureth – 7 & 5	Deep Conditioning Excellent Cleansing Properties Enhances Foam and Lather

# Silicones and Elastomer Blends

PRODUCT	INCI NAME	BENEFITS/APPLICATIONS
Amino Functional Silicone Emulsion 	PEG 7 Amodimethicone, Laureth 7	Effective Conditioning Cleansing Benefits Thermal Protection
Phenyl Modified Siloxane 	Diphenylsiloxyl Phenyl Trimethicone	Luxurious Feel and Non-Greasy Finish Minimizing Imperfections Stabilization of Products
Phenyl Modified Siloxane 	Phenyl Trimethicone	Enhances Product Texture Formulation Flexibility Water Resistance and Long Lasting Wear
Dimethiconol/Silanol Emulsion 	Dimethiconol TEA – Dodecylbenzene - sulfonate	Conditioning Properties Cleansing Action and Foam Stabilization Improved Hair Appearance
Silicone Polyethers 	PEG – 12 Dimethicone	Acts as an Emulsifier and Skin Barrier Provides a Silky, Lightweight Texture Thermal Protection
Dimethicone (and) Amodimethicone Emulsion 	Dimethicone, Amodimethicone, Laureth – 23, Polyquaternium – 10 Laureth 4	Deep Conditioning & Moisture Retention Detangling, Smoothing and Frizz Control Benefits Antistatic Properties

# Emollients/Moisturizers

PRODUCT	INCI NAME	BENEFITS/APPLICATIONS
Coco-Caprylate/Caprate 	Coco-Caprylate/Caprate	Skin Softening Improves Absorption of Actives Lightweight & Nongreasy Feel
C12-C15 Alkyl Benzoate Myristyl Myristate Cetyl/Octyl Palmitate 	C12-C15 Alkyl Benzoate Myristyl Myristate Cetyl/Octyl Palmitate	Provides Silky, Smooth Skin Feel Enhances Spreadability Solvents Capabilities
Caprylic/Capric Triglyceride 	Caprylic/Capric Triglycerides (CCTG)	Skin Softening & Moisturizing Antiperspirants & Antioxidant Used as Solvent in Color Cosmetics
Isopropyl Palmitate Isopropyl Myristate 	Iso Propyl Palmitate Iso Propyl Myristate	Provide Smooth Applications Improves Stability & Texture Solvent Capabilities
Shea Light 	Shea Butter Ethyl Ester	Provides Effective Moisture Enhanced Skin Conditioning Improves Texture & Quick Absorption
Sodium PCA Potassium PCA Lauryl PCA 	Sodium L-pyroglutamate Sodium L - pyroglutamate Lauryl L-pyroglutamate	Excellent Humectant Supports Skin Barrier Function Enhances Skin Elasticity
Betaine 	Betaine	48Hours Moisturization Claim Skin Barrier Protection Improves Skin Elasticity
Trehalose 	Trehalose	Excellent Strengthening Properties Anti Aging Benefits Enhances Product Stability

# Surfactants & Conditioning Agents

PRODUCT	INCI NAME	BENEFITS/APPLICATIONS
Coco Mono Ethanolamide	Cocomide MEA (CMEA)	Mild Cleansing Action
Lauramide DEA	Lauramide DEA	Thickening and Stabilization
Coco Diethanolamide	Coco Diethanolamide (CDEA)	Conditioning Effects
		Compatible with other Ingredients
Cocoamidopropyl Betaine	Cocoamidopropyl Betaine	Mild Surfactants
Cocobetaine	Cocobetaine	Foam Boosting Properties
		Soothing Benefits
Sodium Lauroyl Sarcosinate	Sodium N-Lauroyl Sarcosinate	Biodegradable and Ecofriendly Surfactant
		Enhances Foam and Lather
		Mild Conditioning Effect
Lauryl Glucoside	Lauryl Glucoside	Glucose based Sulfate Free Surfactants
Decyl Glucoside	Decyl Glucoside	Gentle and Non Irritating
Coco Glucoside	Coco Glucoside	Rich Foam and Stable Lather
		Soft and Smooth Feel after wash
Sodium Alpha Olefin Sulfonate	Sodium C14-16 Alpha Olefin Sulfonate	Effective and Economical Surfactant
Sodium Lauryl Sulfate (P/L)	Sodium Lauryl Sulfate (P/L)	Excellent Foaming Property
Sodium Lauryl Ether Sulfate 30% & 70%	Sodium Lauryl Ether Sulfate 30% & 70%	Strong Cleaning Effect
		Versatile Formulation

<b>Tranexamic acid</b> 	Tranexamic acid	<b>Hyperpigmentation Reduction</b> <b>Supports Skin Barrier Function</b> <b>Reduce Skin Inflammation and Redness</b>
<b>Niacinamide</b> 	Pyridine 3- Carboxamide	<b>Improves Skin Barrier Function</b> <b>Anti-Aging Benefits</b> <b>Minimizes Pore Appearance</b>
<b>Ferulic acid 98%</b> 	Oryza sativa	<b>Powerful Antioxidant</b> <b>Improves Skin Texture</b> <b>Protects Against UV Damage</b>
<b>Alpha Arbutin</b> 	4-Hydroxyphenyl-alpha-D-glucopyranoside	<b>Skin Brightening Property</b> <b>Enhances the skin's hydration</b> <b>Antioxidant properties</b>
<b>Salicylic Acid</b> 	2-Hydroxybenzoic Acid	<b>Regulate Sebum Production</b> <b>Prevents clogged pores</b> <b>Used for Acne Treatment</b>

# Preservatives

PRODUCT	INCI NAME	BENEFITS/APPLICATIONS
DMDM Hydantoin 	DMDM Hydantoin	Effective Against Gram Positive & Negative Bacteria Effective at low concentrations
Imidazolidinyl Urea 	(±)-alpha-Hydroxyphenylacetic acid	Prevents Microbial Contamination Broad-Spectrum Preservation Gentler on the skin
Kathon CG 	Methylchloroisothiazolinone and Methylisothiazolinone	Effective Antimicrobial Properties Low Concentrations for High Efficacy Stable in Various Formulations
Phenoxyethanol 	Phenoxyethanol	Inhibits the Growth of Bacteria, Fungi, and Yeast Mainly Used in Fragrance Formulations to Stabilize and Fix Scents
Triclosan 	Triclosan	Antiseptic and Antimicrobial Agent Mainly used in Household Cleaners and Antibacterial Cleaning Products Effectiveness in Oral Care
Methylparaben IP/BP	Methylparaben	Broad-Spectrum Preservation Cost-Effective Ease of Formulation Compatibility with Various Ingredient Milder than Many Alternatives
Propylparaben IP/BP	Propylparaben	
Ethylparaben IP/BP	Ethylparaben	
Butylparaben IP/BP	Butylparaben	
Sodium Methylparaben IP/BP	Sodium Methylparaben	
Sodium Propylparaben IP/BP 	Sodium Propylparaben
