Our Story

An emerging private label startup & D2C brand in food & beverages like packaged specialty wellness & herbal tea, tea accessories, coffee, superfoods & other edible healthy products selling through various online ecommerce sites & own company website as well as through offline channels like tea & coffee lounges, corporates, hotels etc. in India & overseas.

The brand name "BREWLYS" denotes the "Make in India with love, for the world" concept and encompasses the highest quality and ethically procured ingredients used in manufacturing the products, initially various herbal & wellness teas.

The founders, coming from a tea planter's family from the Darjeeling region has been passionate about the beverage from ages and thought of adding value to the raw leaves in terms of natural herbs, spices & flowers and making it more health-oriented product which will cater to the Indian customer's health & wellness needs. It is a known fact that a good cup of tea can set the tone for an exceptional day ahead. At "BREWLYS", we are committed to delivering connoisseur grade whole leaf tea from prominent award-winning tea estates like MIM of Andrew Yule, Arya Tea Estate, Belseri, Coonoor etc. which are fresh, have an outstanding flavor, aroma & taste.

We source our tea from tea gardens which follow the best practices in the areas of cultivation, sustainability and labor welfare. Our Tea blends feature fresh, natural ingredients, and we do not use any additives or artificial flavours. We use the best-in-class packaging material at every stage.

Our teas are packed in standup KRAFT brown pouches completely sealed with a zipper which protect & keeps the tea leaves along with the herbs fresh for a long time. Each product comes with brewing instructions & nutritional analysis on the product label.

Why choose us

We believe every tea drinker deserves to know how, where, and when their tea was born. The greatness of a tea lies in its very precise origins. We're redefining the way the world thinks about and enjoys tea by ensuring the leaves are ethically sourced—and hand-picked and packed—every time. We can do this because we know the best teas in India, and we work right at the sources, in the same gardens where the teas we sell are grown.

We're packing up freshness. Tea thrives on freshness—and so do we. We're small and nimble, and we have no middlemen: we make sure every gram of tea we send out are fresher and tastier than anything you've ever had to date. We deliver the most delicious loose leaf teas from Darjeeling, Assam, and Nilgiri to the world every single day.
