The Registration Number of the factory is **0537/HW/X/2024** Date **16th Nov 2024**
The Classification No. of the factory is **25999**
The Licence No. of the factory is **24250**

Date of Amenability	Capacity (HP/KW)	Manpower	Fees Paid (Rs)	Payment Date
28th Oct 2024	50(HP)	50	8500 (Eight Thousand Five Hundred Rupees)	25th Oct 2024

The licence shall remain in force till **27th Oct 2027**.

Santana Banerjee
Joint Chief Inspector of Factories

This Registration Certificate is Computer generated and does not require any signature. For authenticity of this Certificate, please scan the QR Code on the top right corner.

CERTIFICATE
This is to Certify that

GENEX TECH INDUSTRIES LLP

3RD FLOOR, 10/C MIDDLETON ROW, KOLKATA - 700071,
WEST BENGAL, INDIA

has been independently assessed and is compliant with the requirements of:

ISO 9001:2015
(Quality Management System)

This certificate is applicable to the following product or service ranges:

- DESIGN, MANUFACTURE, SUPPLY, INSTALLATION AND COMMISSIONING OF INTEGRATED COCONUT PROCESSING MACHINERY.
- DESIGN, MANUFACTURE, SUPPLY, INSTALLATION AND COMMISSIONING OF INDUSTRIAL DRYERS FOR FOOD AND CHEMICAL INDUSTRIES.
- DESIGN, MANUFACTURE, SUPPLY, INSTALLATION AND COMMISSIONING OF FOOD PROCESSING MACHINERY AND AGRO BASED PLANTS.
- MANUFACTURE AND EXPORT OF ELECTRICAL POLE LINE HARDWARE MATERIALS AND ACCESSORIES.
- MANUFACTURE AND EXPORT OF MEDICAL EQUIPMENTS AND HOSPITAL ITEMS.

Certificate No.: **SPC23Q5722**

Date of Initial Registration: 03-05-2023
1st Surveillance audit on or before: 02-05-2024
2nd Surveillance audit on or before: 02-05-2025
Date of Re-Certification: 03-05-2026

GENEX TECH INDUSTRIES

Genex is an ISO 9001:2015 and ISO 14001:2015, WHO-GMP Certified Company, and is also registered under Startup India. Recognized by the Government of India as an export house, Genex operates globally, with its food processing machinery deployed in over 40 countries. Our commitment to excellence is reflected in the advanced infrastructure we've meticulously developed, enabling us to manufacture and deliver state-of-the-art machines known for their intelligent design and impeccable construction.

Genex holds prestigious recognition from the Engineering Export Promotion Council under the Ministry of Commerce, affirming its position as a leading exporter of food processing machinery. With a substantial share in the global export market for food processing machinery and related spare parts, Genex has become a trusted name in the industry.

The company has the capability and resources to undertake turnkey projects for manufacturers, with numerous overseas installations to its credit. When it comes to acquiring top-notch food processing equipment, your search ends with Genex. Our machines are not only sophisticated but also embody the dedication and passion we invest in creating products that hold a distinct place in the industry.

WHY US

Prestigious successfully turnkey projects for food processing executed by the company in more than 40 countries worldwide.

Strong back ground in offering a single window solution for various value chains.

Cost effective affordable solutions provided for the food processing industry

Expert in manufacturing of food and pharma processing machinery.

Supreme production and infrastructure facilities in India

Very sound technical and engineering team

Right technology and latest machinery

Large network of sale and services through our office and authorized representation worldwide.

OUR RESOURCES

In a world where technology is developing quickly, we have made investments in cutting-edge infrastructure that will provide our clients with better & more efficient machinery. Engineers with experience work with us to execute a variety of production tasks accurately. Every step of the product development process, where our quality is most important, is strictly governed by industry standards and best practises to guarantee that each and every product satisfies the highest quality requirements globally.

OUR FACILITIES

In India, GENEX has 100000ft2 of integrated industrial space dedicated to full-fledged production.

INFRASTRUCTURE

Our manufacturing facilities are outfitted with cutting-edge tools and machinery, including lasers, German bending machines, & CNC gas cutting tools. Each plant has a separate machining unit where all machines are made on-site. To provide precise, high-quality production and finishing, there are many welding stations.

R & D

We frequently achieve newer milestones with the assistance of our R & D team's highly qualified engineers and professionals. Our business is constantly developing, evolving, and designing brand-new cutting-edge machines that enable us meet and surpass the expectations of our diverse clientele worldwide. Our infrastructure is what fuels our manufacturing and exporting operations. We have enough room to handle several commercial processes, including processing, packaging, sales, and logistics.

GENEX has established a strong background in offering a single window solution for various food processing value chain for vegetables, fruits, Pharma & coconut processing. Our presence globally has exposed us with a lot of experience, technology know-how, process know-how for various food processing industries.

Our role starts from harvesting, processing, post process storage, handling, preservation, shelf life enhancement, packing and value addition.

We offer complete range of solutions by implementing the right technology and incorporating the latest machinery.

MAJOR FOOD PROCESSING VALUE CHAIN SOLUTIONS BY GENEX

Full Turnkey Projects

**Dehydration
Plant**

**Complete Equipments for Washing
Pasteurization & Blanching**

**Grinders &
Pulverizers**

**Oil Expellers
and Filters**

**Various kind of
Graders & Sorters**

**Packing & Metal
Detection Systems**

Our core essence and expertise lies in economical and affordable turn-key solutions for fully automatic and semi-automatic dehydration process lines for all type of vegetables, fruits, spices and herbs. This includes pre-processing equipment such as washing, blanching, cutting etc. and post processing line such as cooling, grading and packing.

We offer a wide range of energy efficient continuous dryers for various types of agro produce.

We offer turnkey projects and customized solutions for various capacities and products.

THE MORE COMMON PROCESS LINES WE HAVE SETUP ARE FOR:

Turmeric

**Tomato
Ketchup**

Onion

Tea

**Fruits Juice &
Concentrates**

**Spices, cloves
cardamom etc.**

Ginger

Garlic

Coconut

**Leafy
Vegetables**

**Vegetables like
Carrot, Cabbage,
Beans etc.**

**Fruits like mango,
pineapple, tomato,
papaya, apple, etc.**

**Virgin Coconut Oil
& other Oils derived
from plants & herbs**

Pharma

DEHYDRATION PLANT

REFRACTANCE WINDOW DRYER

FoodPro Continuous Refractance Film Drying uses low temp. & short-time continuous process to dry delicate, heat-sensitive products. Drying takes place at atmospheric pressure to retain product color, flavour, aroma and nutritional content. Product quality is comparable to and, in some instances, better than that achieved by freeze-drying. This is done at significantly less capital and energy cost.

APRON DRYER (BAND DRYER)

Our single stage conveyor dryer options are specialized machinery used in applications like, desiccated coconut, fruits, vegetables, chips, granules, cereals, grains, seaweed, tobacco corn flakes, wheat flakes, animal feed, snacks and pigments.

FLUIDISED BED DRYER

GENEX is a manufacturer and exporter of heavy duty combination fluid bed dryers in India. We utilize the latest technology and advanced engineering to design such dryers that exceed the expectations of customers. Our cutting-edge designs ensure enhanced outputs with stupendous efficiency.

CONVEYOR DRYER

We are a leading multi pass conveyor dryer manufacturer with state-of-the-art products. Our multiple pass dryers setups contain several single pass dryers stacked together. We deliver to the needs of businesses who intend to scale up outputs without having to invest in additional floor space. Our multi pass dryers offer all the salient features of single pass conveyors, besides greater convenience and ease of use.

HEAT PUMP DRYER

Our state-of-the-art Heat Pump Dryer for food. This innovative appliance is designed to quickly and efficiently dry fruits, vegetables, herbs, and meats using advanced heat pump technology. With a large capacity and user-friendly controls, it's perfect for home cooks, gardeners, and small-scale producers. Say goodbye to wasteful and time-consuming traditional drying methods and say hello to the future of food preservation. Order your Heat Pump Dryer today!

PADDLE DRYER

Paddle dryers are used to dry wet cakes, pastes, and thick slurries like sludge. The hollow paddles and jacket are heated by the flow of the heating medium, such as steam or hot oil, through them. After making contact with the paddles and container wall, the moist material dries. The paddles' shape prevents product sticking and makes them self-cleaning. The moisture is removed from the product as it travels from one end to the other. Thermal fluid or steam is often used as the heating medium.

ROTARY DRUM DRYER

Genex rotary drum dryer is a type of industrial dryer that is used to reduce the moisture content of a material. It typically consists of a rotating cylindrical drum that is partially enclosed and heated. The material to be dried is fed into the drum and as it rotates, it comes into contact with the hot surfaces of the drum and the hot air that is circulated through the drum. The moisture in the material evaporates and is removed from the drum through an exhaust system.

SPRAY DRYER

The Genex Spray Dryer ensures efficient powder production with uniform particle size. Ideal for food, pharma, and chemicals, it uses advanced atomization and hot air drying for quick moisture evaporation. Features precise control, ensuring high-quality powders with customizable properties.

GRINDERS & PULVERIZER

**Pin Mill Grinders
(Universal Mills)**

Pulverizers

Hammer Mills

Food Slicer Machine

Chips Cutter

DAIRY MACHINERY

Homogenizer

Retort

Milk Chiller

Pasteurizer

OIL MACHINERY

Oil Expellers

Sparkler Filter

Filter Press

**Centrifugal
Filter**

WASHING & PASTEURIZATION EQUIPMENTS

Bubble Washer

Blancher

GRADERS

**Vibroscreen
Grading
Machine**

**Novatex
(High Capacity)
Sorting Machine**

**Gyratory
Sifter**

FILLING, PACKING AND METAL DETECTION SYSTEMS

**Sewing
Machine**

**Bag
Flatener**

**Automatic
Batch Weigher**

**Weighing
Machine**

**Metal
Detector**
