

POWERTECH LLC

About Us

Powertech company specializes in the export of high-quality heavy minerals to industries worldwide. We serve as a trusted partner to businesses in sectors such as construction, aerospace, electronics, and ceramics. Our focus is on providing premium raw materials, ensuring quality, sustainability, and global reach.

Our Mission

To deliver sustainable, high-quality heavy minerals to meet the demands of global industries.

Our Vision

To become a leading force in the global heavy minerals export industry, promoting efficiency, sustainability, and innovation.

Core Values

Quality: Delivering products that meet or exceed international standards.

Sustainability: Promoting eco-friendly mining and export practices.

Reliability: Ensuring timely deliveries and customer satisfaction.

Our Products

1. Ilmenite (Titanium Ore)

Description: Ilmenite is a titanium-iron oxide mineral used in the production of titanium dioxide pigments for paints, plastics, and paper. It is also used in aerospace and steel industries.

2. Rutile

Description: Rutile is a rich source of titanium and is used in welding electrodes, pigments, and the aerospace industry.

3. Zircon

Description: Zircon is essential in ceramics manufacturing, refractory materials, and advanced casting processes.

4. Garnet

Description: Garnet is widely used in waterjet cutting, abrasive blasting, and filtration applications.

Global Reach

With an extensive logistics network, Powertech company ensures efficient and timely deliveries to every corner of the world, including Asia, Europe, North America, South America, Africa, and Australia.

Why Choose Us?

1. Extensive Expertise: Experience in exporting heavy minerals.
2. Stringent Quality Standards: Products meet international certifications and regulations.
3. Eco-Friendly Operations: Committed to sustainable practices.
4. Competitive Pricing: Offering cost-effective solutions without compromising quality.
