Why Hand-Woven Carpets ?

- Hand-woven carpets are often more durable than machine-made carpets because of the high-quality materials.
- They can withstand heavy foot traffic and last for generations if properly cared for.
- They are typically made from natural fibers such as wool, cotton, silk, or jute. These natural materials are environmentally friendly and sustainable.

Why Persian Carpets ?

- They are renowned for their exceptional quality, artistic beauty.
- The raw materials (Silk , Wool) which Persian Carpets are made of , are one of the most famous ones in the world.
- Persian carpets have a rich cultural heritage.
- Persian carpets come in a wide range of sizes, shapes, and designs, making them suitable for various interior design styles and spaces (Traditional or Modern)
