

# COMPANY PROFILE

## About us

We are a professional Procurement Company, specialized in Worldwide Sourcing and Supplying of Materials, Equipment, Spare Parts and Services.

We represent important World Manufacturers and as well provide Packages from other International Sources.

We are focused to satisfy the needs of Oil & Gas, Petrochemical, Water, Mining, Power, Steel and other Heavy Industries as well as the Contractors working in these fields.

Thanks to countless years of experience, Supportech Sarl it's considered an All Inclusive Procurement Service Company.

## Our Mission

Our mission is to become a reliable Business Partner by achieving Total Customer Satisfaction, ensuring detailed information, accurate order management and supervising the quality of materials & packaging as well as the various documentary aspects of shipments to secure delivery to destination fully covering the requirements over time of our New and Consolidated Clients.

Guaranteed by:

- Over 20 years of Experience
- Wide scope of supply, including (OEM) spare parts
- reliable Manufacturers and High Quality Materials
- Groupage of goods Coordination from Various International Manufacturers, providing the Packages in Single Shipments providing a single documentary set ("one stop shopping").
- Legalizations at Chamber of Commerce, Embassy or Government Departments
- Seaworthy or Airworthy packing
- Shipments by air, sea or land
- Export Complete documentation

## Scope of Supply & Services

### Heat Exchangers, Shell & Tube and Air Cooled

Heat Exchangers (design and manufacturing) in every Size and Alloy. We can supply as well only tube bundles, finned tubes and other accessories. We complete this package with tube cleaning and tube bundle extracting equipment.

### Skid Mounted Packages - Pressure vessels – Pipes Spool Construction

Thanks to the support of leading manufacturers in the sector, we can offer for Onshore & Offshore, the following skids typology:

- Metering
- Centrifugal pump
- Fire water pumps
- Chemical Injection
- Filtration
- Pig launching/receiver
- Regeneration/dehydration
- Gas liquid separation
- Lube Oil systems
- Steam turbine
- Reducing natural gas
- Injection water

Pressure Vessels can be manufactured in every size and shape with a wide range of alloys.

Pipe spools can be customized according to requested specifications.

### Metering Products and Systems

Supportech can assist you offering a range starting from Single Fiscal Meters for tankers up to Complete Dosing System, including computers, proving systems, master meters and other metering accessories and ensuring a complete service to the Companies in the Oil & Gas Supply Chain.

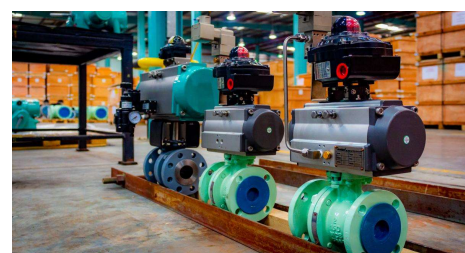

### Multi Phase Meters

Multi Phase Meters (MPM) measure accurately the oil/water/gas content of a stream, monitors the well performance and enables operators to increase performance of production wells. Avoiding the use of bulky oil/gas separators. MPM is used off-shore up to 3500 meters below sea level as well as on-shore.

### Valves and pipeline accessories

Supportech can provide you with minimum quantities up to guaranteeing the supply of important Projects by relying on the most important Producers and a certainty of access to the major European and Middle East Stockists. The valves can be equipped with various types and brands of actuators, loose, skid-mounted or other Customer request. Process critical valves may come with locking systems which ensures that only authorized personnel can work on the valves.

## Scope of Supply & Services

### GRE & GRP piping

As an alternative to steel piping, we can offer Glassfiber Reinforced Epoxy or Polyester piping.

Pipes, fittings and flanges are available from 1" to 60" class 150# and 300# following International Standards for an easy connection of valves, pumps and other pipeline accessories.

### Electrical Equipment and Accessories

Supportech can supply a wide range of Electrical equipment:

cables, switch boxes, circuit breakers, batteries, lightning and transformers for many different applications in Oil & Gas facilities, powerplants, airport and other industries.

- Generators
- Batteries
- Cables low, medium & high voltage
- Circuit breakers
- Switch boxes
- Lightning and Transformers

### Steel plates for (storage) tank construction

We supply steel plates either directly from a West European steel mill or pre-fabricated ones that can be ordered cut and according to drawing with the additional following processes:

- Rolled
- Shop primed and
- Beveled
- In a thickness of up to 40mm

### Coatings

Industrial & Marine coating to protect steel structures from corrosion. We have the following available coatings:

- Tumescant
- CUI prevention
- Chemical resistant
- Polyurethane foam Insulation
- Underground piping
- Fluorescent Paints
- Heat Resistant
- Special service conditions

### Chemicals & Solvents

We can provide an important choice of chemicals, solvents and raw materials for many different processes and applications, from stock as well as from new production.

## Scope of Supply & Services

### Miscellaneous supply

- Gaskets
- Stud bolts & nuts
- Pipes & Fittings (seamless and welded)
- Pressure & Temperature equipment
- Measuring, Testing & Inspection equipment
- Pipeline equipment
- Spare parts
- Blasting equipment & accessories
- Paint equipment (airless, conventional, electrostatic & accessories)
- Oil & Chemical absorption products
- Welding rods

### Order handling & Shipping

We can arrange all your logistics:

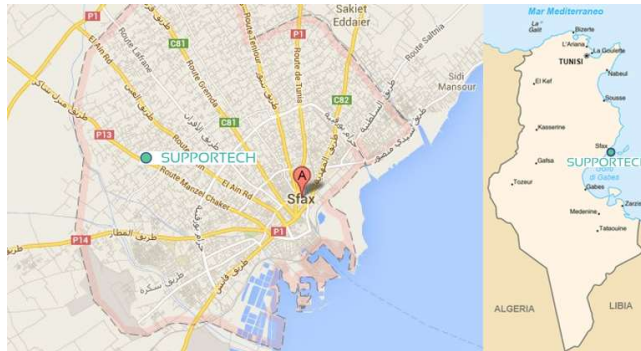

- Shipment by sea
- Shipment by air
- Shipment by truck
- Courier service

We easily ship from European ports and USA based ports and goods can be seaworthy packed (wooden boxes, crates, containers) as per your requirement.

Of course we can translate and legalize your documents at the required Embassy and arrange for 3rd party pre-shipment inspection.
