GENUINE SNACKS DO EXIST!

OUR STORY

The story of our product is simple – we started making croutons at home for our families, but the recipe was so tasty and satisfying that we could not resist to share it with the world.

“Homemade bread chips” – modern snack with a traditional taste.

As the saying goes “there’s no place like home” and we couldn’t agree more because for us home is where we are surrounded by our loved ones and the air is filled with the familiar and comforting smell of freshly baked bread!

With “Homemade bread chips” name we wanted to embrace the traditional recipe of this timeless snack while staying true to the simple process and natural ingredients that go into making this product.

OUR PRODUCT

The traditional taste of Ukrainian sourdough rye-wheat bread that manufactured according to an old Ukrainian recipe is one of the secrets why our product is so special and we guarantee your satisfaction with its taste!

We are proud that you will not find any "E" in our products, trans fats or artificial sweeteners. Only bread, sunflower oil, salt and dried spices (garlic, onion, paprika, tomato, etc.)

To make our bread chips delicious and as awesome as possible - we use only locally sourced natural ingredients without artificial additives and preservatives.

Especially we are proud of Ukrainian origin of Sunflower oil. Sunflowers have been grown in Ukraine since the 1700s.
