

# Customized Engineering Solutions s.r.l.

Dynamically developing company **CES**, working in the field of trade and logistics, was set up and recorded in the commercial register as a limited liability company on 2016, in the Regional Commercial Court in Bucharest - Romania. New Branch also was settled in UAE on 2022.

The main activity of **CES** is distribution of **electrical equipment and components** for industrial automation from leading manufacturers such as Bartec, Baumer, BEI Sensors, Cooper Bussmann, EATON, Endress + Hauser, Ifmelectronic, Pepperl + Fuchs, Phoenix Contact, Schneider Electric, Siemens, Spohn + Burkhardt. And for **mobile equipment and diesel generators** such as TCM and WAUKESHA.

Our sale staffs are properly qualified and they are ready to create offers and to help in solving technical issues or problems. We are always happy to provide available information and price quote.

We work with the manufacturers on the basis of the contractual relationship, therefore, we believe that our price offers and support will always be relevant and well-timed.

## SATISFIED CUSTOMER

The key thing for our company is a customer, so we are constantly working on improving and facilitation of the work with potential and regular customers. Satisfied customer is a priority of **CES** on the Romanian and international markets.

## QUALITY, ACCURACY AND TIMELINESS

Our principal goal is to provide quality service to customers by providing competitive prices for the requested items and delivering orders as soon as possible.
