AN ISO 13485:2016  
ISO 9001:2015  
FDA CE GMP CERTIFIED &  
CDSCO APPROVED CO.

# “Visionary solutions for **healthier you**”

# WHY UVW?

**Innovative Designs:** Our products are thoughtfully designed to meet the evolving needs of our customers, integrating aesthetics with functionality.

**Quality Assurance:** We adhere to stringent quality control standards, ensuring that every item you receive meets the highest expectations.

**Sustainability Commitment:** UVW is dedicated to minimizing our environmental footprint, making choices that benefit both our customers and the planet.

**Community Focus:** We believe in building a supportive community around wellness, fostering connections that empower individuals on their journeys.

## MISSION

At UVW, our mission is to lead a wellness revolution by crafting innovative products that empower individuals to embrace holistic health. We are dedicated to fostering a mindful community that values sustainability, connection, and personal growth.

## VISION

At UVW we encapsulating our dedication to creating a connected community focused on holistic health. We envision a world where wellness is accessible to everyone, and our products are designed to inspire and support this vision. By blending cutting-edge design with functional excellence, UVW aims to redefine how wellness is experienced and practiced.

## VALUE

We're committed to crafting products that not only look good but feel good too. Our designs are inspired by nature and infused with cutting-edge technology to enhance your well-being.

# ABOUT UVW

At UVW, we believe that wellness is more than just a state of being; it's a holistic journey that unites the mind, body, and spirit. Our mission is to bring innovative, high-quality products to market that empower individuals to embrace their wellness journeys with clarity and purpose. With a commitment to sustainability and ethical practices, UVW is not just a brand; it's a movement toward a healthier, more conscious lifestyle.

## OUR SERVICES

Regular Distribution  
of our Products.

Widest Range of  
Products.

Support on sales  
& Spare Parts.

High Profit  
Margin.

## RANGE OF PREMIUM EQUIPMENT

As a trading and manufacturing entity, UVW offers a diverse catalog of products that cater to various aspects of wellness. From eco-friendly personal care items to innovative wellness tools, our offerings are meticulously crafted to enhance daily routines. We prioritize sourcing sustainable materials and employing ethical manufacturing processes to ensure that every product reflects our core values.

# MODULAR OT SETUP

## Why do we need Modular OT?

### Sterility: To have complete infection free cases

- ▶ To achieve a very low level of Bacteria count in the OT.
- ▶ To have non-porous, seamless, easily cleanable surfaces.
- ▶ To reduce the need of frequent disinfection.

### Work-Flow Management

- ▶ To have concealed wiring and medical pipeline system.
- ▶ To have a complete hassle-free floor area leading to enhanced equipment and personal movement.
- ▶ To have effective lighting system to operate under better conditions.

### Aesthetics – Pleasing work environment

- ▶ Effective lighting by maintaining LUX levels
- ▶ Clean air quality and effective ventilation
- ▶ Pleasing work environment through the use of different walls and floor colours.

We believe that the Modular Operating Theatre (MOT) technology should continuously advance the safety, precision, and efficiency of the UVW team. Medical technology should make the workflow faster and easier for clinicians. Interfaces should be familiar and intuitive — consistent across different workstations, thus reducing the potential for error. Innovations in workplace design and clinical information management can improve both patient safety and outcomes while supporting high OT throughput with maximal flexibility.

## Features of a Modular OT?

- A continuous flow of highly filtered “Bacteria free” air into the OT.
- A continuous removal of contaminated air out of the operation theatre.
- Durable anti-bacterial paint.
- Easy to clean and maintain.
- Permeability of vapour to escape which protects against the growth of yeast and microbes
- Moisture and Thaw resistance.
- Easy to move and get hands on the instruments.
- Should be able to accommodate a number of doctors inside.

# Become Our Distributor: Strengthening Our Support Pillar

## IDENTIFIED AS A RELIABLE DISTRIBUTOR

**Access to Quality Products:** Partnering with us means you will have access to high-quality products that are in demand, ensuring that you can meet the needs of your customers effectively.

**Comprehensive Training and Support:** We provide extensive training and ongoing support to help you succeed. This includes product knowledge, sales techniques, and marketing strategies.

**Attractive Profit Margins:** As a distributor, you can enjoy competitive pricing and attractive profit margins, allowing you to grow your business sustainably.

**Marketing Resources:** We equip our distributors with marketing materials and resources to help promote products effectively in their local markets.

**Building a Strong Network:** Joining our distribution network allows you to connect with other distributors, share best practices, and collaborate on initiatives that can drive growth.
